

On Friday afternoon Mr. William McNeil, of London, gave a demonstration of how to prepare birds for exhibition. Mr. Richard Oke, of London, demonstrated the method of scoring and judging Orpingtons. Mr. Newton Cook, of Port Dover, did the same with Plymouth Rocks, and Mr. John Martin, of Port Dover, for White Wyandottes.

The evening sessions were devoted to more popular subjects. On Tuesday evening President Creelman gave an address on the aims and work of the O.A.C. Mr. Nix and Mr. F. C. Elford, of Macdonald College, St. Anne de Bellevue, Que., followed with a general talk on poultry. On Wednesday evening Prof. W. A. Parks, of Toronto University, gave a most interesting illustrated lecture on "New Ontario."

The Institute closed with very hearty votes of thanks to the speakers, and to the chairman, particular reference being made to the work done by Prof. W. H. Day and Prof. W. R. Graham. It was considered most important that Prof. Day should be afforded every opportunity for continuing his investigation on incubation, which he has so well begun. It was also considered most important that the Poultry Institute should be continued from year to year.

Notes

Messrs. Rundle & Kirby, the proprietors of Westmount Poultry Yards, Oshawa, Ont., whose ad. appears in another column, are prepared for the

coming season to furnish eggs from pens of birds that are hard to beat. Being experienced in all branches of the business their stock cannot fail to give satisfaction. Write them.

To learn what it is to be a genuine Christian and why such a Christian does not go to wreck amid all the temptations of this present evil world, we need only go to our Bibles.

MODEL INCUBATORS AND BROODERS

There are no others just as good. We manufacture the celebrated right up-to-date Chick, A. Cyphers Model Incubators and Brooders.

Automatic in action, perfect in ventilation, once set it runs a whole season without change.

The Model Incubators will give better results than any other incubator on the market. We give better value than any other incubator manufacturer in Canada.

Send for our No. 4 catalogue, and get acquainted with us. We want your business, and can please you, also, with poultry supplies.

MODEL INCUBATOR CO., Ltd.,

201 River St., - TORONTO, ONT.

This Washer Must Pay for Itself

A MAN tried to sell me a horse, once. He said it was a fine horse and had nothing the matter with it. I wanted a fine horse. But, I didn't know anything about horses much.

And, I didn't know the man very well either. So I told him I wanted to try the horse for a month. He said "all right, but pay me first, and I'll give back your money if the horse isn't all right."

Well, I didn't like that. I was afraid the horse wasn't "all right" and that I might have to whistle for my money if I once parted with it. So I didn't buy the horse although I wanted it badly. Now this set me thinking.

You see I make Washing Machines—the "1900 Junior" Washer. And, as I said to myself, lots of people may think about my Washing Machines as I thought about the horse, and about the man who owned it.

But, I'd never know because they wouldn't write and tell me. You see I sell all my Washing Machines by mail. (I sold 200,000 that way already—two million dollars' worth.)

So, thought I, it's only fair enough to let people try my Washing Machines for a month, before they pay for them, just as I wanted to try the horse.

Now I know what our "1900 Junior" Washer will do. I know it will wash clothes without wearing them, in less than half the time they can be washed by hand, or by any other machine.

When I say half the time, I mean half—not a little quicker, but twice as quick.

I know it will wash a tub full of very dirty clothes in six minutes. I know no other machine ever invented can do that, in less than 12 minutes, without wearing out the clothes.

I'm in the Washing Machine business for keeps. That's why I know these things so surely. Because I have to know them, and there isn't a Washing Machine made that I haven't seen and studied.

Our "1900 Junior" Washer does the work so easy that a child can run it almost as well as a strong woman. And, it doesn't wear the clothes, nor fray the edges, nor break buttons, the way all other washing machines do.

It just drives soapy water clear through the threads of the clothes like a Force Pump might.

If people only knew how much hard work the "1900 Junior" Washer saves every week, for in years and how much longer their clothes would wear, they would fall over each other trying to buy it.

So said I, to myself, I'll just do with my "1900 Junior" Washer what I wanted the man to do with the horse. Only, I won't wait for people to ask me to offer to do it first, and I'll "make good" the offer every time. That's how I sold 200,000 Washers.

I will send any reliable person, a "1900 Junior" Washer on a full month's free trial. I'll pay the freight out of my own pocket. And if you don't want the machine after you've used it a month, I'll take it back and pay the freight that way, too. Surely that's fair enough, isn't it?

Doesn't it prove that "1900 Junior" Washer must be all that I say it is? How could I make anything out of such a deal as that, if I hadn't the finest thing that ever happened, for Washing Clothes—the quickest, easiest and handsomest Washer on Earth. It will save its

whole cost in a few months. In Wear and Tear on clothes alone. And then it will save 50 cents to 75 cents a week over that in Washerwoman's wages. If you keep the machine, after a month's trial I'll let you pay for it out of what it saves you. If it saves you 60 cents a week, send me 50 cents a week till paid for. I'll take that cheerfully, and I'll wait for my money until the machine itself earns the balance.

Now, don't be suspicious. I'm making you a simple, straightforward offer, that you can't risk anything on anyhow. I'm willing to do all the risking myself! Drop me a line today and let me send you a book about the "1900 Junior" Washer that washes clothes in 6 minutes. Or, I'll send the machine to you, a reliable person, if you say so, and take all the risk myself. Address me this way—J.H.S. Bach Manager "1900" Washer Co., 355 Yonge St., Toronto, Ont. Don't delay, write me a post card now, while you think of it.
