

# A Canadian Factory

# For Canadian Farmers

Did you ever stop to think what that great factory of the International Harvester Company of Canada, (Limited), at Hamilton, Ontario, means to you?

It means, first of all, implements and machines for the Canadian farmer, built on Canadian soil, by Canadian workmen, and so far as possible, of Canadian materials.

It means a factory whose facilities or turning out work of the highest quality fare not excelled in the whole world.

It means a factory backed by years of experience, dating from the very invention of modern labor saving farm machinery.

It means the production of a line of harvesting machines, seeding and tillage implements and other labor savers for the farmer, of the most improved patterns, constructed of the best procurable materials, built by the

methods best calculated to give them strength and durability.

It means, in short, a line of implements and machines *for your use*, of a quality and excellence impossible to produce without such a factory full of such facilities, operated by such experience.

We ask you as a practical man who wants to get the most for his money, to investigate the International line before you buy farm implements of any kind.

It will take only a few minutes of your time to talk to the International dealer and see for yourself the labor-saving, trouble-saving, money-saving advantage he has to offer you.

Call on the International Dealer.

These machines are manufactured by

**INTERNATIONAL HARVESTER COMPANY OF CANADA, (Limited)**
