My business is to supply what every farmer of experience is most anxious to get, PERFECTLY RELIABLE Vegetable and Flower Seed. With this object in view, besides importing many varieties from reliable growers in France, England and Germany, I grow a hundred and fifty kinds of vegetable seed on my four seed farms, right under my own eye. Around all of these I throw the protection of the three warrants of my Catalogue. Of NEW VEGETABLES I MAKE A SPECIALTY, having been the first to introduce the Hubbard and Marblehead Squashes, the Marblehead Cabbages, and a score of others. My Catalogue, containing numerous fine engravings, taken from photographs, sent FREE to all. JAMES J. H. GREGORY, Marblehead, Mass.

TORONTO SAFE WORKS.

ANOTHER TRIUMPH FOR J. & J. Taylor's Celebrated Safes

DESTRUCTION BY FIRE OF THE INTERNATIONAL AND CANADA PACIFIC RAILROAD ENGINEERS' OFFICE AT OTTAWA ON THE NIGHT OF THE 16TH INST. OVER ONE MILLION DOLLARS WORTH OF PROPERTY DESTROYED. LITTLE OR NOTHING SAVED EXCEPT THE CONTENTS OF J. & J. TAYLOR'S SAFES.

The above safes are now on their way to Toronto and will be exhibited to the public immediately on their arrival. Extract from the Ottawa Free Press, Monday, January 19th:

"SAFES OUT OF THE FIRE.—The fire on Parliament Hill on Friday night produced probably the most intense heat that was ever produced by a fire in Ottawa. It was the general opinion that nothing could be safe in such a fire. However, on Saturday afternoon, two safes, the manufacture of Messrs J. & J. Taylor, of Toronto, were taken out, and on being opened in the presence of Mr. Fleming, the contents were found to be unharmed in any way. The outside of the safes were badly damaged by the ordeal they had gone through, but all inside was secure. This is the greatest test any safe has gone through, and the result speaks volumes for Messrs. J. & J. Taylor."

A large stock of the same class of Safes on hand, which we offer on best of terms.

APPLETON'S AMERICAN CYCLOPEDIA

New Revised Edition.

Entirely re-written by the ablest writers on every subject. Printed from new type, and illustrated with Several Thousand Engravings and Maps.

The work originally published under the title of THE NEW AMERICAN CYCLOPEDIA was completed in 1863, since which time the wide circulation which it has attained in all parts of the United States, and the signal developments which have taken place in every branch of science, literature and art, have induced the editors and publishers to submit it to an exact and thorough revision, and to issue a new edition entitled The American Cyclopaedia.

Within the last ten years the progress of discovery in every department of knowledge has made a new work of reference an imperative want.

The movement of political affairs has kept pace with the discoveries of science, and their fruitful application to the industrial and useful arts, and the convenience and refinement of social life.—Great wars and consequent revolutions have occurred, involving national changes of peculiar moment. The civil war of our own country, which was at its height when the last volume of the old work appeared, has happily been ended, and a new course of commercial and industrial activity has been commenced.

Large accessions to our geographical knowledge have been made by the indefatigable explorers of Africa.

The great political revolutions of the last decade, with the natural result of the lapse of time, have brought into public view a multitude of new men, whose names are in every one's mouth, and of whose lives every one is curious to know the particulars. Great battles have been fought and important sieges maintained, of which the details are as yet preserved only in the newspapers or in the transient publications of the day, but which ought now to take their place in permanent and authentic history.

In preparing the present edition for the press, it has accordingly been the aim of the editors to bring down the information to the latest possible dates, and to furnish an accurate account of the most recent discoveries in science, of every fresh production in literature, and of the newest inventions in the practical arts, as well as to give a succinct and original record of the progress of political and historical events.

The work has been begun after long and careful preliminary labor, and with the most ample resources for carrying it on to a successful termination.

None of the original stereotype plates have been used, but every page has been printed on new type, forming in fact a new Cyclopaedia, with the same plan and compass as its predecessor, but with a far greater pecuniary expenditure, and with such improvements in its composition as have been suggested by longer experience and enlarged knowledge.

The illustrations which are introduced for the first time in the present edition, have been added not for the sake of pictorial effect, but to give greater lucidity and force to the explanations in the text. They embrace all branches of science and of natural history, and depict the most famous and remarkable features of scenery, architecture, and art, as well as the various processes of mechanics and manufactures. Although intended for instruction rather than embellishment, no pains have been spared to insure their artistic excellence; the cost of their execution is enormous, and it is believed they will find a welcome reception as an admirable feature of the Cyclopaedia, and worthy of its high character.

This work is sold to Subscribers only, payable on delivery of each volume. It will be completed in sixteen large octavo volumes, each containing about 800 pages, fully illustrated with several thousand Wood Engravings and with numerous colored Lithographic Maps.

Price and Style of Binding. In extra Cloth, per vol. \$5.00 In Library Leather, per vol. 6.00 In Half Turkey Morocco, per vol. 7.00 In Half Russia, extra gilt, per vol. 8.00 In Full Morocco, antique, gilt edges, per vol. 10.00 In Full Russia, per vol. 10.00

Three volumes now ready. Succeeding volumes until completion will be issued once in two months.
