

**Aylmer Superior Lever Force Pump**

For Hand and Windmill use. Has Six, Eight, and Ten-inch Stroke. Adjustable Base.

Fig. 36.

Fig. 36 represents our Superior Lever Pump, fitted for hand and windmill use. Made in 1 1/2 and 2-inch.

This style of lever and fulcrum has several advantages over the ordinary style; having longer stroke, the power is greater, making it work easier. The handle being wood, they are not so liable to break in frosty weather.

The base is adjustable, admitting of top being raised or lowered to any position desired.

The handle is drilled for three lengths of stroke. Six, eight, and ten-inch stroke.

This is readily converted into a Windmill Pump by the addition of a flat bar, which screws into the cross-head on top.

Cylinders capped inside require to be two inches longer to obtain same stroke.

This pump is adapted for all depths of wells; furnished with Iron, Brass Body or Brass Lined Cylinder. You'll never regret placing

one of these pumps on your farm. Write us to-day for prices and illustrated catalogue free.

**The end of a Successful day.**

You will be more than pleased with the results you get from shooting.

**Dominion Ammunition**  
Metallics and shot shells

You will find the primers are sensitive and sure fire, the velocity high, the pattern perfect, and each shell uniform in every way.

It is for these reasons that more Dominion Shells are shot in Canada than all other makes combined.

Dominion Ammunition is made in one of the most modernly equipped plants in the world. Each

cartridge is the result of careful and skilled workmanship, and the specially selected materials are the very best obtainable. Scientific testing keeps the quality high at all times.

Dominion Imperial, Regal, Sovereign are loaded with the world's standard brands of powder and double chilled shot.
