\$50,000 Squandered in Twelve Months

A NEW YORK heiress a year ago received \$50,000 as a special bequest from her father. Expensive living and poor investments resulted in the whole of the money being lost in a single year.

This is a convincing argument for the Monthly Income system of insurance. Under these policies, which are issued by The Mutual Life of Canada, the proceeds are payable in monthly instalments throughout life.

Had the unfortunate lady mentioned received her bequest in the form of monthly income, she would to-day have been happy and independent.

Write for particulars of Mutual Policies.

Have You Got Enough?

NEARLY all concede their need of Life Insurance, but many overlook the fact that the ever-increasing cost of living in these war-times has greatly diminished the buying power of a dollar, hence the necessity of more dollars for family and business protection, against your premature death. Have you enough to meet the contingency? If not, how else can you make certain this increased protection than by means of more Life Insurance?

Why risk the danger of delay any longer? It appeals to you? Then isn't it up to you to act now, and secure the necessary protection while you are in good health, and can pay for it? This is the only thing that money cannot always buy. You must get it while you've good health. You can borrow money but you can't borrow health. You can buy a *Continental Life Policy* exactly suited to your needs and circumstances,—and you will always be thankful that you got it, as thousands of our Policy-holders are testifying to-day.

See your nearest Agent of the Company, or write to either of the undersigned at Head Office for full particulars, stating your age at nearest birthday.

CHARLES H. FULLER,
