Mills. The constituency is very Gritty, but Mr. Hawkins has accepted the nomination.

The sorrowful wiseacres who predicted two hard black frosts, which would come on the nights of the 4th and 5th of May, to cut away the fine prospects of a fruitful season, ought to take courage and trust more kindly to Providence. The weather clerk seems to be really dealing very graciously with us this year.

More to the Chinese than to any other nation the telephone has been a blessing. Owing to the fact that the Chinese language has no alphabet, the telegraph has never been available in China; but now that the telephone has been discovered it has been seized upon, and 500 miles of telephone wires are said to be already in operation.

A PROJECTED PRIZE FIGHT.—A prize fight for \$1,000 a side and the championship of America, has been arranged to take place in Ontario, within fifty miles of Buffalo, between the 15th and 25th of next July. The principals are John J. Dwyer, of Brooklyn, who claims to be present champion, and Patrick Ryan, of Troy. The authorities, we trust, will use every exertion to "drop on" the bruisers.

From the report of the Minister of Marine it appears that 60 new steam vessels were added to Canada's marine during the year. Our tonnage is 1,310,468, being fifth on the list of nations. Great Britain and the United States are the only nations much above us; Norway and Italy are slightly in advance; France has about half as much as Canada. One sixth of the registered tonnage of the entire British Empire, including the colonies, is Canadian.

It is, perhaps, not generally known that week on the tuned under the Reit.
