Substantial Gains in Territory, Prisoners and Machine Guns, and Pushing Enemy in North Easterly Direction.

LONDON, July 2.—(Via Reuter's Ottawa Agency.)—Reuter's special correspondent with the British Army in France describing the operations around Lens says:—Down to Thursday evening we have been systematically pushing the Germans in a northeasterly direction by which time our line roughly ran from the fringe of Cote-De-Moulin across the Souchez River and Lens-Arras Road through an old trench system in front of Elu-Du-Lavite bending round so as to follow the trend of the Meneourt-Avon switch. The double operations which developed on Thursday evening although distinct in their phases were part of the same tactical scheme. The enemy's withdrawal from the outer defences of Lens had tended to weaken the resisting powers of the Oppy Line, between that place and Souchez, and so occasion was taken to strike a blow here with quite satisfactory results. As a consequence of the last few days around Lens salient, and south thereof, we made substantial gain in territory and have taken something like 400 prisoners, about 20 machine guns, and killed and wounded a large number of the enemy. Our own casualties in these operations have been slight, relative to the number engaged and the success achieved.

During the month of June we have taken in the course of our successful operations against Mesines and Wytschaete Ridge, and on other parts of our front, 8686 German prisoners, including 175 officers, and have also captured 67 guns, including two heavy guns, 102 trench mortars, 354 machine guns, beside great quantities of other material.

The Guardian of Consumer Speaks

HAS THE HIDE OF A RHINOCEROS Not Satisfied With His Powers And Was Going to Take More

LONDON, July 2.—Lord Rhonda, Food Controller, speaking in Cardiff last night said he had a suspicion that Premier Lloyd George, who had conscripted him for his new post very much against his will, chose him for the almost impossible job after so many better men had refused, because he knew that he had the hide of a rhinoceros. I am going there, he added, and let there be no mistake about it, as guardian and trustee of the consumer and particularly of the poor consumer. Lord Rhonda said he was not satisfied with the powers he had and was going to take more powers. He is determined to put a stop to profiteering and speculation in food, but he wanted his hearers to know that it was impracticable to bring down prices to anything like standard before the war.

The opposition encountered was negligible. Our airplanes raided Makin and Marohi with considerable effect. Mohamed tribesmen who lived in northwest India gave the British Government much trouble early in 1915 and in November 1915 by breaking through the hills on raids into northwest frontier province. On each occasion the British disposed the hostile forces.

Hammers, Club and Rotten Eggs

Anti-Conscriptionists Get a Hard Time in Winnipeg and Have To Give Up Meeting

WINNIPEG, July 2.—Police intervention averted a riot at an anti-conscription meeting to-day. Four arrests by the city police followed a free for all fight in which anti-conscriptionists were quickly driven from the neighborhood of Market Square where the speeches were to have been delivered. At last fifty percent of the crowd were alien enemies, according to Lieutenant Campbell of Intelligence Dept. Clubs were freely used during the fight. Hammers and rotten eggs also played a destructive part. One foreigner was caught in the act of stabbing with a clasp knife a well known returned soldier. Alderman Queen, who attempted to speak made a successful get away although not without being mauled. All of the arrested men were anti-conscriptionists. They were released on bail, no charges being preferred. The attendance is estimated at 9,000.

London Papers and Premier's Speech

QUESTION HIS OPINIONS Thinks He Knows Nothing of the Spirit of the German People

LONDON, June 30.—The speech yesterday of Lord George in which he said the war will come to an end when the Allied armies have reached the aims which they set up to obtain, when they accepted the challenge thrown down by Germany, although mainly approved by the morning newspapers, does not escape criticism the moderate papers' comment consists of little more than an accordant paragraph of the Premier's statement, but the more extreme press of opposite camps, radical and Tory, questions the soundness of his verdict. Thus some conservative papers strongly dissent from his assumption that any difference of opinion exists between the German Government and the German people, and declared the German people are faithful to their Government because it accurately mirrors the spirit of Germanism. The Post says the Germans are all in this war up to the neck, and if the Premier thinks any change in system of Government would alter their spirit he knows nothing of the German people.

GERMAN ATTACK ON VERDUN AND AISNE FRONTS

PARIS, June 30.—The Germans resumed their violent attack on the Verdun front west of Deadman Hill last night. Picked German troops were annihilated by the French, the Germans penetrated the first French line over the entire front attacked but ere driven out excepting on the eastern slope of Deadman Hill. The French made a counter attack east of Hill 304 and took back most of the trenches lost on Thursday. On the Aisne front the Germans attacked north east of Cerny, employing burning liquid. They occupied a salient after the defences had been levelled by shell fire but ere repulsed elsewhere.

Artillery a Great Weapon

BRITISH HEADQUARTERS IN FRANCE, July 1.—American officers who have been studying conditions on this front for some time past say that they are wonderfully impressed with the British artillery which made them more than ever conscious of the immense efforts the United States will have in that direction. Artillery solved most of the problems of modern war. It was artillery that blew the Germans from their grim grip on Vimy Ridge; it was artillery that shook them loose from their nearly three years' hold on high ground about Mesines. It was artillery that shattered and bumped the steel and concrete defences of the Hindenburg Line from Arras nearly all the way to Queant. It was artillery today that is harassing the Germans until they are fairly dazed when the infantry attacks begin.

GREECE RE-UNITED

SALONIKI, July 1.—The Provisional Government which was established here nine months ago by Premier Venizelos and his followers, was merged in Saturday into a legal Government of United Greece. Officials of the Provisional Government have left Saloniki for Athens and steps are being taken to repatriate refugees. Saloniki thus returns to normal conditions. The Greek Steamship Co. announce the resumption of service between Saloniki and other Greek ports.
