Dear Sirs,—

Pianoforte style B, purchased from you last September last, I am very pleased to be able to say, gives me every satisfaction. The tone is particularly good, sound as, that the instrument is a favorite with all who have tried it, and I can assure you it has been praised by a number of very excellent judges. The style of the instrument and finish of the workmanship should fit it for use in any country. It should be a matter of consolation to Canadians to know that our own country produces an instrument that I am satisfied will compare very favorably with those produced in any part of the world.

Yours truly,
THOMAS SHAW,
Professor of Agriculture.

The three gentlemen will shortly leave for Canton, China.

Death of Mr. Thompson.—Mr. E. V. Thompson, a widely known and respected resident of the West End, died very suddenly last evening of heart disease. He had been out at the Tournament, and, in fact, was pleasantly conversing about ten minutes previous to his decease. Though sudden, his death was not so unexpected. He was one of the early settlers of this vicinity, having come out about 1853. Further particulars will be given later.

Action for False Arrest. Mr. Hugh McMillan, solicitor, issued this morning, on behalf of Wm. McCarroll, a writ against Dr. Hand, Chief Bandell, and Police Constable Hammond, for $2,500 damages for false arrest and imprisonment. It is alleged that McCarroll left Dr. Hand's employment, and was arrested right afterwards on last Friday night, on a charge of owing his late employer $5. He was kept in the cells all night and on Saturday morning, no one appearing to prosecute, he was discharged. He claims that there was no justification whatever for his arrest.

Further Dog Poisoning.—Five more dogs have fallen victims to poison, in addition to the former list, and if the poisoners are caught there will be a hot time. Mr. Richard Watt, Surrey street, has lost two hounds; Mrs. Challoner, Glasgow street, a black and tan; Herbert Horning, Glasgow street, a spaniel, and Rev. G. R. Turk, Dublin street, his valuable English hound, the mother of which sold for 500 guineas. There is said to be an exodus of valuable dogs to the country, on account of the slaughter which has taken place this week.

The farm belonging to the estate of the late Evan Macdonald, 185 acres, over the Dundas bridge, has been sold for $20,000 to a Mr. Cole, from near Toronto. It has been bought for a stock farm. The price is considered a good one.

Y., whence she will start after a short time for China with a party who will leave the United States and Canada. Miss Fairbank leaves Guelph on Saturday. Death of G. D. McVicar.—The Winnipeg papers voice the general regret over the death of Mr. George D. McVicar, one of the earliest settlers of that city. He endured great hardship during the Riel rebellion of 1867-70, and had been an alderman of the city. He fought disease for years. He was a man of sterling honesty and strong individuality, and his presence and influence were felt in whatever sphere he worked. The deceased was a cousin of Mrs. D. Guthrie, of Guelph.

Dublin Street Church S. S. Picnic.—The annual picnic of Dublin street Methodist church Sunday School was held yesterday afternoon in a beautiful grove about half a mile west of the town of Milton, whither the children and parents and friends were conveyed by special train on the C. P. R. About 500 persons left the city about one o'clock, and were landed at the grove a little after two, where a large number of Milton people, who had heard of their coming, had assembled to meet them. On arriving there the young people at once entered into their games with a will, while others did the town and renewed acquaintances, or lied away to shady bowers by cooling streams. The committees were up to their business and soon the plentiful supply of provisions was unpacked. At four o'clock the children were treated to almost every known kind of cake and sandwich, and lemonade, after which everybody else present was freely invited, the street urabs, who were present in force, coming in for a lion's share at the last. By seven o'clock the committees had everything repacked and ready for home, and at half past eight the whole party were home again without an accident of any kind. The different committees desire publicly to thank the G. T. R. management for their excellent train service, and the Milton people for their kind reception; and all agree that the picnic of this year was the most enjoyable yet held, the weather being everything that could have been desired.

Blind Tom. All musical people should hear and learn from him.

The Huron Excursion.—The excursion yesterday comprised many of the most influential farmers of South Huron in charge of Mr. R. McMordie, Kippen, Secretary of the Farmers' Institute of that riding, and was for the purpose of visiting the College and Experimental Farm. They arrived on the grounds about 11 o'clock; and, after spending an hour or so in viewing the yard, garden, greenhouse, and immediate surroundings, partook of a substantial lunch in the students' dining-room, after which addresses were delivered by President Mills and Prof. Shaw on the work of the College and Farm. Both gentlemen dwelt upon the advantages which a full course at the College were sure to give to a farmer's son, or indeed to any one who came for the purpose of making the most of his opportunities. Mr. McMordie, in a brief speech, referred to the growing interest that farmers are now taking in this institution, closing the same by moving the following resolution; Moved by Robert McMordie, seconded by William Bell, that we, farmers from the county of Huron, return our thanks to President Mills, Prof. Shaw and others for the very cordial welcome we have received; and also recognize the importance of this institution, and think that the farmers of this country should support it.

BOARD OF TRADE.

Election of Council—Further Railway Matters Discussed.

A LARGE ATTENDANCE.

The regular monthly meeting of the Board of Trade was held in the Council Chamber on Tuesday evening at 8.15 p. m., the members present occupying the aldermanic seats with as much dignity and sang froid as if to the manor born. Mr. J. Hallett, 1st Vice-President, occupied the chair, in the absence from the city of the President. There were also present Messrs. A. J. Little, Wm. McLaren, J. E. McElderry, Robt. Mitchell, Jas. Kelcher, J. S. Rogerson, Col. Higinbotham, H. Loeb, Thos. Davidson, T. J. Day, Jas. F. Kidner, Wm. Watson, Wm. Read, A. R. Woodyatt, G. W. Stull, Jas. Cormack, W. G. Smith, Jas. Innes, M. P., Hugh McMillan, J. A. Nelles, Hugh Macdonald, G. Penfold, Joseph Hefferman, E. R. Bollert, and Frank Dowler.

In the temporary absence of the Secretary, Mr. E. R. Bollert, the minutes of the previous meeting were read by Mr. A. J. Little and confirmed.

INCREASED MEMBERSHIP.

The committees appointed to canvass the different wards for members reported. In St. Patrick's Ward, Messrs. McElderry and Innes had secured fifteen members, with prospects of a few more; in St. George's, Messrs. Armstrong and Higinbotham had got twenty, with half their work to be done; St. David's, no report; St. John's, Messrs. Watson and McLaren had made a partial list; in St. Andrew's Messrs. Hallett and Smith had been most successful in their canvass; in St. James, the committee intended to get to work this week, having been prevented hitherto.

It was ascertained that the committee appointed to revise the constitution and bylaws had not had an opportunity to meet since the last meeting of the Board.

ELECTION OF COUNCIL.

On the question of electing Council some discussion arose as to the number the present strength being limited to twelve. It was urged that the Council should be larger and that every industry in the city should be represented. It is understood to be the intention of the By-law Committee to increase the number, and the point was whether the meeting should elect the twelve, and then add the rest afterward, or leave the election of the whole Council over till after that report was presented.

It was finally moved by J. F. Kidner,

[redacted]

ity of having a train out, leaving Guelph at three o'clock, which was carried.

PUSHING THE WORK.

After some discussion as to the procedure of the committee in distinguishing between new and old members, it was moved by Mr. Read, seconded by Mr. Kidner, that membership cards be printed to be given the members, and that a list of all the names, new and old, be read by the Secretary at the next meeting. Carried.

Mr. Smith suggested that the By law Committee write and get the constitution and by-laws of the Board of Trade of Belleville, Kingston, Barnstord, London, and other places.

On motion of Messrs. Higinbotham and Day, Messrs. Smith and McMillan were added to the By-law Committee.

THANKS TO TOURNAMENT COMMITTEE.

On motion of Messrs. Kidner and Day, a vote of thanks was passed to the committee which had charge of the Band and Firemen's Tournament in recognition of their labors. The mover and Mr. Read spoke eulogistically of the way in which the many arrangements had been carried out.

The meeting adjourned at 9:10 till the evening of the third Tuesday in July, when the By-law Committee and the Council will be prepared to report.

Daniel O'Connell, son of Michael O'Connell, nur eryman, left to day for Chicago, where he intends to reside in the future.

The Catholic Union Dramatic Association shipped their scenery and other accessories to Georgetown this morning. They will perform "The Hidden Gem" there this evening. A number of their friends intend going down with them.

Mr. W. J. Bell, of the Bell and Piano Company, sails from New York today via London for South Africa, where he will look after the firm's interests there, with a view of extending their trade.

That American Flag.—The papers of the Province are making a great to-do over the attempt to pull down the American flag during the tournament here by a "Guelph mob," as it is usually termed, and oceans of good advice are tendered the supposed perpetrators of the slight on the Stars and Stripes. The facts do not warrant any such stir whatever. The attempt was made in the dead of the night by one or two adventurous and hot headed youths, with more zeal than brains, who got a ladder and succeeded in cutting the rope on which the British, German and American flags were waving. But the result of their endeavors was to bring down the British and German flags and leave the other flying, to the intense amusement of all the citizens. The flag remained all through the tournament, one the very few United States flags to be

Not Know Everything.—The Herald itself yesterday to the publication of an insinuation, which did not originate with itself, that the account in Mercury last Saturday of a horse-ping being dealt out to a youth on Waterloo road was made out of whole and had no foundation in fact. ly because "our vigilant police orities" are quite unable to certify rences, must they therefore be not as lies? The farmer who admin-d the horsewhipping identified the and rig at one of the city livery e, and the parties might also have followed up at the time without much le, did the necessity therefor exist. olice do their duty, but even they do t track of everything, any more than papers.

Doran's Wedding.—In the Church Lady at eight o'clock this morning pleasing affair took place before a assemblage, being the marriage of ulie, second daughter of Mr. M. J. , of this city, to Mr. Chris. A. y, of Newark, N. J. Father ty officiated. Miss Guy was bridesmaid while his brother, Mr. John Doran supported the groom. The ladies were lly dressed. After the ceremony twenty five to thirty guests sat down mpting breakfast. A rich array of g gifts fell to the lot of the young as expressions of esteem and affec-hey leave this afternoon by the 4.30 train for their home in Newark, stopping over at Buffalo. Miss Doran is very popular among all her friends and acquaintances, and many warm wishes for her future happiness will follow her to her new home on the other side of the lines.

The Markets.—Receipts of wheat are small and market firmer. Prices have gone up to 93c. per bushel, and the outlook is that the price will advance. In Britain wheat is a little higher and quotations are a halfpenny better than last week. The Chicago market is also strong, with an advance of 2 to 2½ cents, and at no time was any heavy selling pressure noticeable. In the Antipodes the area under wheat promises to be larger than usual. Farmers anxiously desire a period of fine settled weather, as further wet will be injurious. The early sown wheat was making rapid progress and the outlook was unusually favorable. The Russian Minister of Agriculture reports that the winter wheat promises a small average crop, and in some districts even a much inferior yield than that of 1888. The export of wheat from India has also fallen off considerably. The supply of grain in Canada and the United States has slightly increased. In our own market flour has taken an upward tendency and sells from $3.60 to $3.75 per hundred and indications are that the price of wheat will be a shade higher. Other produce remains at last week's quotations.

Fears of an Ocean Disaster.

Vineyard Haven, Mass., June 25.—For several days there have been evidences of some ocean disaster in the washing ashore on these islands of wreckage. Yesterday, a bundle of woman's clothing, evidently done up in a great hurry, was picked up on the beach at Edgartown. A life preserver that came from the steamer City of Rome was also found. At Smith's Point, gilt mouldings, a large door, etc., evidently belonging to some steamer, and also some of the steamer Victoria's bills of lading were washed ashore. Wine casks of the steamship Haytian Republic were washed ashore at Nantucket. A mast was also found with the wreckage at that point. Everything points to a collision between the Victoria and the Haytian Republic, though the life preserver belonging to the City of Rome adds to the mystery.

Henry Williams, the colored man who killed his fellow workman, Henry Lemon, at Windsor with a cant-hook, and who is still at large, was born in Guelph in 1859, and lived here until he was nearly twenty-one years of age.
