VEGETINE

Purifies the Blood, Renovates and Invigorates the Whole System.
ITS MEDICAL PROPERTIES ARE
Alterative, Tonic, Solvent
and Diuretic.

VEGETINE is made exclusively from the juices of carefully selected herbs, roots and barks, and is strongly concentrated so that it will effectively eradicate from the system every taint of Scrofula, Scrophulous Humor, Tumors, Cancer, Cancerous Humors, or Inflammation, Syphilis, Eruptions, Canker, Faintness, the Stomach, and all diseases that arise from impure blood. Scrofula, Inflammatory Gout, and Spinal Complaints can only be effectually cured through the blood. VEGETINE acts directly upon the secretory organs, allays inflammation, cures ulceration, and regulates the bowels. For Catarrh, Dyspepsia, Habitual Constipation, of the Heart, Headache, Piles, Nervousness and General Prostration of the Nervous System, no medicine has ever given such perfect satisfaction as the VEGETINE. It purifies the blood, cleanses all of the organs, and possesses a controlling power over the nervous system.

The remarkable cures of VEGETINE have induced many physicians and apothecaries whom we know, to prescribe and use it in the only mode of cure. In fact, VEGETINE is the best remedy yet discovered for the above diseases, and is the only medicine that purifies the blood before the public.

MR. H. R. STEVENS, Boston, Mass.

Sir—I have much pleasure in bearing testimony to the efficacy of your valuable family medicine, "Vegetine," in curing my wife, a sufferer from Chronic Rheumatism and Derangement of the Kidneys, and in curing my son, a sufferer from Rheumatism, in the Spring of last year. I was recommended to give the VEGETINE a trial, and to persevere in using it, and I did so. I have been in the course of three months cured of a perfect cure had been effected, and I can most confidently recommend it, knowing the great benefits I have derived from its use, and considering I cannot overstate its great and important value to those similarly afflicted as I have been.

Yours faithfully,

R. L. COLE,

H. R. STEVENS, Esq.,
I have great pleasure in certifying to the great benefits which myself and family have derived from the use of your excellent medicine, "Vegetine," in curing my wife, a sufferer from Rheumatism, and my son, a sufferer from Rheumatism, and in curing my wife, a sufferer from Rheumatism, and my son, a sufferer from Rheumatism.

Conflict and Victory.
Oh! Refuge of men weary
With suffering and sin oppressed,
Couldst Thou leave 'mid surroundings so dreary,
Thy peace as a dying request?

Vegetine is sold by all Druggists.

To thine ear comes the cry of sharp sorrow
That rings through this pitiless world;
And knowest Thou how oft with the merrow
To a deeper despair we are hurled.

Vegetine is sold by all Druggists.

We've felt strange 'mid our kindred and
Our friends, when we have been
Been lonely in thick haunts of men,
Had to rest on a stone 'mid our labors,
And no visions to comfort us then.

Vegetine is sold by all Druggists.

We're weary with chasing the shadows,
And hearing our burdens of care,
For our way has not lain through the meadows,
We have chosen the dust and the glare.

Vegetine

was introduced to Mr. Hugh Morris, a clever, genial, large-hearted man. He happened to be making a visit to a friend in Morrisburg, and we met on the wharf at the foot of the canal. He wished to go over to Wardsburg, a pretty village on the American shore, embowered amid trees, with its church spires shooting up into the blue sky, and as I had my boat out and ready for any expedition that might offer, I gladly proposed to play Charon, and to ferry him across the stream.

My skill was light, my muscles were lured to rowing, I knew every current and counter-current of the "Rapid Plat," and as I pushed off from the wharf with my passenger, I felt the pleasure which a good oarsman experiences in an exhibition of his skill.

With strong arm and steady stroke I drove my boat through the currents and eddies, being swept down by the tide and regaining the lost distance in the others, till we rounded the point of Ogden Island and paddled quietly along in the smooth water, in the shade of limes and maples.

My new-made acquaintance was a man of deep and varied knowledge, a naturalist and a scientist, a good classic of the Trinity, Dublin, type, and he seemed, without strain or effort, to make every topic which came up for conversation interesting.
