Montreal—General business is fairly steady in character and still limited in volume. Bright warm weather has further helped the dry goods business, and the sorting trade is more active in all summer lines. Prices generally hold steady. The outlook for fall trade is rapidly taking on a brighter tone. Orders are already good and there is now but little doubt that later business will be nearer the volume of last year.

Toronto—The business outlook here grows brighter as further reports of excellent crop coditions come from all parts of Canada. Business houses having representatives in the west report an excellent prospect for fall trade there. Good weather has helped. The retail movement of summer lines and sorting orders are showing a wider range. Fall trade in dry goods is encouraging. Ontario cropp are looking well and prospects through the Province are steadily improving. This is reflected in somewhat greater activity in all lines of Prowher greater activities and improving. This is reflected in some-what greater activity in all lines of Pro-vincial industries although there is not

yet the briskness noted a year ago.
Winnipeg—Crop reports from all parts
of the country are exceedingly bright,
and the general business situation is taking on an optimistic tone

ingly.

Vancouver and Victoria—General bus Vancouver and Victoria—General business has had a slightly quieter tone during the past week, and collections are slower than was the case earlier in the month. The money stringency affected this part of Canada much later than it did the east, and it is reasonable to expect its effect will be longer wearing off.

Quebec—A falling off is reported in wholesale circles, which is attributed to the withdraws! of many travellers on the road, which is usual, previous to the elections.

Toronto Youngster Caught by Policeman Gambling on Street.

Toronto June 6 .- William Franklin, Toronto, June 6.—William Franklin, a mere lad, was gambling on York street, when he attracted the notice of a big policeman. Yesterday he was asked to explain how he dared indulge in such a wicked pastime.

"We was only wasting our time," said the youngster, unconsciously hitting the antest description of the sport.

"We was only wasting out the youngster, unconsciously hitting the aptest description of the sport.
"Well, you shouldn't," said the magistrate. "If you wish to gamble, join a club."

"Or go to the Woodbine," added the

Crown Attorney.

"Yes; you shouldn't gamble on the street; that's an awful thing to do," continued his Worship. "You can go this time, but don't do it again—on the street."

Found Dead by Ttrack.

St. Thomas, Ont., June 5.—An unknown man, who was evidently a tramp, was found dead on the M. C. R. tracks near Fork's Creek, this morning, with a gash in his head. VOTING TESTS

Hon. A. G. MacKay's Eighteenth Letter to the People of Ontario.

LAROSE DEAL.—If you are opposed to giving away \$130,000 of the people's money to favorites, and defending such action by the absolutely intrue statement that a former Minister of Crown Lands had secretly given the mine away, whereas a Board of Arbitrators had in open court dealt with the case, vote for the Liberal candidate.

T. & N. O. COMMISSIONERS .- If you are opposed to a Government that publicly slanders the former Commissioners, by publishing in the campaign book that the Commissioners "staked out mining locations themselves," and when the false statement is pointed out, are not honest and gentlemanly enough to withdraw it, vote for the Liberal candidate.

CLAIM JUMPING .- If you are opposed to claim jumping, and you believe in stability of title, and also in the basic principles that Legislatures should make laws, but that it should be left to the courts to interpret them, vote for the Liberal candidate.

TITLES HONORED .- If you believe that this Province ought to naintain its honor and ought not to run the risk of Legislative theft, as it did when by two special acts it arbitrarily stopped procedure in the regular courts by the Florence Mining Company and others, even though by such theft, as by many others, wealth is temporarily nade, vote for the Liberal candidate.

THE THREE-FIFTHS CLAUSE .- If you believe that both as to the adoption and as to the repeal of local option by-laws a majority vote is the proper test, and if you desire again to have these questions so decided that in any municipality the majority may abolish the bar, the wet nurse of the treating system, do not wait until a majority of the municipalities have adopted local option, when in the interests of the trade and under the guise of temperance legislation Whitneyites will vote for majority rule, so as to make repeal easier, but vote now for the Liberal candidate.

COLONIZATION AND LABOR .- If you favor the bringing into this country of none but desirable immigrants you ought to favor the Liberal policy of appointing a Minister of Colonization and Labor, who would have one eye on the labor field so as to protect it, and one looking for agricultural and any other class of immigrants that are really needed in this Province, and, favoring this, you will logically and rightly vote for the Liberal candidate

FISHERMEN.-If you are opposed to the oppression of the fishermen by arbitrary and ill-considered regulations and unnecessary double fees, you will vote for the Liberal candidate.

AGRICULTURE .- If you think the present Government, while increasing legal expenses 240 per cent., the general expenditure of the Province 46% per cent., ought to have increased the outlay on agriculture more than 71/2 per cent. (see figures on page 14, campaign pamphlet), you ought to vote for the Liberal candidate.

LAW REFORM.-If you desire an immediate substantial and radical measure of law reform, that will prevent too many appeals, and that will tend to cheapen and expedite the administration of civil justice, vote for the Liberal candidate.

RAILWAY POLICY .- If you approve of the work of Liberals in the past, in constructing and operating a Government road; if you favor an extension of this policy, so that by means of State-owned, State-operated roads, intersecting the all-Canadian routes, southern and western, yes, eastern Ontario, may largely increase their trade and commerce, vote for the Liberal candidate. EDUCATIONAL .- If you are opposed to the abolition of Model

Schools, and all other such centralizing policies, which ever work against the poor man: if you think, s I certainly do, that local School Boards understand the educational problems of their localities better than the inexperts and bunglers now in charge in Toronto; if you be-lieve that thoroughness and accuracy in the elementary subjects of a school course are desirable, and, therefore, that regulations putting these at a discount and placing a premium on the more advanced subjects are entirely wrong, vote for the Liberal candidate.

THE POWER QUESTION .- If you believe that the people should have been trusted, and, therefore, the statute should have been followed, and all estimates and forms of cantract should have been published with the by-laws prior to voting on the by-laws; if you disapprove of the non-observance of the statute to bind the municipalities (without again submitting the question to the ratepayers), even though the cost should be far in excess of the figure given by the Minister of Power, vote for the Liberal candidate, whose leader in effect said "Give all the facts in advance, publish the estimates, the contracts and the by-laws in advance, and then trust the people, who will be the parties liable and responsible, to look after their own interests. All the brains of the Province are not in Toronto, nor in

EFFECTIVE VOTING .- Vote early. Convert your neighbor. It rill do you at least temporary good. It will do him permanent and abiding good. Vote for the Liberal candidate.

ORGANIZATION .- This election is a comparatively quiet onenot embittered, thank Heaven, by racial or creed cries. The better organization will win in comparatively even ridings. Attend to it.

A CLEAN FIGHT.-Fight a fair, clean, gentlemanly and decent pattle. Assist your old Conservative neighbor to the poll. He is entitled to his political views, and he has ever been your kindly neighbor and a good citizen in your locality. We can't all think alike. Do nothing that will unnecessarily "divide man from man and break the social tie," and "trust the people" as to results, but vote for the iberal candidate.

CHILD BADLY BURNED

BY FLAT IRON

BY FLAT IRON

Mrs. Thos. Allen, of 156 Water street,
St. Mary's, Ont., says: "My little deughter Mildred, 4 years old, was severely
burned a few months since by sitting on
a hot flat-iron. She received three burns
in all, one on her thigh, another on herheel and a third on her instep. At the
time of the accident I used oils and then
one preparation after another, yet nothing seemed to take out the inflammation
or heal up the open wounds. Finally we
heard of Zam-Buk and obtained a box. I
began applying this bahur and was agreeably surprised when in the course of a
'few days the wounds were not so inflamed and the child rested easier. I persevered in using and gradually the sores
on heel and instep healed over, but the
wound on thigh took a much longer time.
However, new skin formed over this as
soon as all inflammation and soreness
was drawn out. Now only a small mark
remains to show where the Jurns had
been."

Zam-Buk is healing, southing, and anti-

NO HELP FROM WHITNEY.

Read what the Toronto Tribune, or-gan of organized labor, had to say of the reception of the deputation ap-pointed to wait on the Government to protest against the 30-cent-a-day

"So far as the Labor delegation was concerned they came away convinced that nothing will be done by the Government to cancel this agreement. The only satisfaction they received was that they nad again placed a standing protest on behalf of organized Labor against placing the labor of convicts in the open market against honest and free labor, and to prevent Mr. Hanna, or any other member of this Government, from again making use of the assertion that no objection had been received from the unions against this most unfair kind of competition. This committee is mov confirmed in the belief, which has been growing for some time, that the present Government is in no way friendly to labor, and no relief need be looked for from the Whitney Government."

A vote for Messars. Hendrie and Scott is a vote for a Government which, without public competition, made a five-year contract for prison labor at thirty cents a day, and that contract, as also the binder twine contract at 50 cents a day, has still two and a half years to run.

RIOTS AT VIGNEAUX. Strikers Sacked Shops and Held Up Passing Automobiles.

Vigneaux, France, June 5.—There was a renewal here to-day of the disorders of three days ago, when a number of gendarmes, while attempting to arrest a striker, were surrounded by two hundred workmen. Believing themselves to be in danger, the gendarmes used their weapons, with the result that two of the workmen were killed and six wounded. The trouble to-day arose at the funeral of one of the men killed on Tuesday.

Orators harangued the strikers and Orators harangued the strikers and demanded vengeance, and several shops were sacked to cries of "Down with Clemenceau." Passing automobiles were held up and money was levied from the occupants. The strikers finally were dispersed.

Men and material have been rushed to both places.

Rain has been falling continually for 48 hours, and there is no prospects of a speedy let up. The river is rising steadily and settlers on the low flats have moved to high ground. from the structure. Macleod Genera

AUTO TURNED SOMERSAULT.

Two Men Killed Trying to Save Girl Cyclist.

Brunswick, June 5.—A fatal automobile accident took place near here today. Lieutenant-Commander Assmann and First Lieutenant Johannes Fritzsche were killed, and First Lieutenant Elmanhorst and the chauffeur, a man named Eioke, were severely injured.

The automobile was a high power machine. As it, was entering a small

machine. As it was entering a small village the chauffeur endeavored to avoid running over a girl cyclist, and avoid running over a girl cyclist, and to do so he suddenly put on the full brake power. The machine, instead of slackening down, is said to have turned practically a double somersault. It fell upon the occupants and crushed them.
