The Average Woman Needs More Blood

Poor Blood the Cause of Headaches and Run Down Feeling

To the woman in the home—the woman closely confined to the house, either through household duties or the care of children, or both—Dr. Williams' Pink Pills are a positive blessing. The average woman has too little blood. Her nerves are easily irritated and she worries over little things; has severe headaches and backaches and generally feels worn out. With the woman who uses Dr. Williams' Pink Pills the condition is different. She is always well and the care of her children or household duties is a real pleasure. This is because Dr. Williams' Pink Pills enrich and purify the blood supply which brings vigorous health and strength. Mrs. H. Everett, Parry Harbor, Ont., has used these pills with benefit and says:—"I cannot recommend Dr. Williams' Pink Pills too highly. I was run down and very weak, and after using the pills I felt like a different woman. They are wonderful strength builders. For nursing mothers they are a blessing, at least I have found them so."

If you are suffering from any condition due to poor, watery blood, or weak nerves, begin taking Dr. Williams' Pink Pills now, and note how your strength and health will improve. You can get these pills through any dealer in medicine, or they will be sent by mail, post paid, at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Vancouver, B.C.—Without actual figures, even a close estimate of the number of tourists who have passed through this city during the summer months can hardly be formed. Yet, from information received from both Canadian Pacific Railway and White Pass & Yukon officials, it is certain that travel to Alaska, both via this port and Seattle, has been heavier than for several seasons—perhaps since several years before the war.

Every trip of the steamers "Princess Louise" and "Princess Alice", which ply between this port and Skagway, has found the accommodation of the vessels wholly taken up and the indications are that for several trips the heavy travel will continue. Tourists and sportsmen have been flocking to the north by the hundreds, while the mining developments which have been extensive this summer, have induced many mining men to move northwards.

Service Unparalleled
The addition of the "Louise" to the Alaska service this season has furnished the finest service to the north since the B. C. Coast Service was established. Both the "Louise" and "Alice" are palatial, speedy and commodious craft and there is not a tourist returning from the north but who speaks in glowing terms of the splendid equipment of the company.

WHERE THE GOOD GOODS COME FROM

CANADIAN ENTERPRISE IN ENGLAND

CLOSE to the Dock Gates, and nearly opposite the South-Western Hotel, the new Canadian Pacific Building at Southampton, England, opened on Monday, Sept. 4th, will soon become a well-known landmark for travellers.

The building stands out in striking relief to the rather drab appearance of Canute Road, on which it faces. A stone front, colour washed brickwork, and pleasant green shutters to the first floor windows, have assisted in achieving this desirable effect. Window decoration has been treated in an original

style, with sliding shutters having reed-like divisions screening the interior, on the lines of the Oriental Shoji.

The interior decorations and arrangements have been carried out from a strictly practical point of view. A colour scheme of decided character has been obtained by a strong contrast of black and red, polished woodwork supplying the black, while an unusual type of old fashioned marbling has been used for the cornice and dado.

Rubber floors, which deaden the sound of footsteps and are also consid-

ered more sanitary where there is much traffic, are an important feature of an office that will undoubtedly prove a very busy one for its occupants, Mr. David Drummond, Southampton Agent, and his Staff, in dealing with the ever-increasing flow of Canadian Pacific traffic through the Port of Southampton.

All the work has been carried out by a well-known local firm, Messrs. Jenkins & Sons, of Southampton, from designs prepared by A. H. Jones, M.S.A., architect, and P. A. Staynes, R.O.I., artist, of 10, Conduit Street, London, W.

CANADA'S SEASIDE AND MOUNTAIN LINKS PLEASE GOLFERS

THE history of golf in Canada is a long story. The first game played on this continent took place in this country and the development of the game here has gone forward with rapid strides. To-day the Dominion is dotted with links noted for their excellence from St. Andrews-by-the-Sea in New Brunswick, to Vancouver in British Columbia. Guests are welcome everywhere and United States experts like "Click" Evans and Oswald Kirby are unanimous in declaring that the quality of Canadian golf is very high. Canada's first club was the Royal Montreal founded in 1873, almost thirty years before St. Andrews Golf Club, the first in the United States, was started in Yonkers, N.Y.

Canada's St. Andrews-by-the-Sea is a seaside course on Passamaquoddy Bay, an estuary of the Bay of Fundy so near Maine that a long driver could almost put one over the international fence. St. Andrews is not a name to be taken lightly, and when Sir William Van Horne and Lord Shaughnessy had the 6,100 yard New Brunswick links laid out, they made it worthy of its great Scotch namesake, the mother links of the golf world. Many of the holes are on sloping ground with the picturesque panorama of the bay in one direction, and the green forests in another. In addition to the regular 18-holes, there is a 9-hole course for ladies and the Algonquin is headquarters for foreign golfers.

The Canadian government owns and manages at Banff, Alberta, one of the most interesting and picturesque links in the world. Banff Golf Course, this year expanded to 18 holes, is nearly a mile above sea-level along the banks of the Bow River. From the edge of the fairways majestic mountains tower a mile above the links and the golfer enjoys his favorite sport in a scenic setting of unforgettable beauty. Now and then the "gallery" watching the game is augmented by wild mountain goats who peer down from some lofty ledge at the players. The links are in charge of a competent professional and are a fine test of the game. Farther west Vancouver and Victoria enjoy golf both summer and winter on links which are a delight to both expert and novice.
