DUNGANNON FALL FAIR.

A fine Day—Good Exhibition of Berses and Catile—The Inside Show.

The fall show under the auspices of the Ashfield branch agricultural society was held in Dungannon on Thursday, Oct. 4th, and was largely attended. The outside show was a very fine one, the horses and cattle being particularly numerous and of good form. In the inside department there was a fair showing of roots, vegetables and fruits, and honey, bread and butter w.r. also well represented. Domestic manufactures and ladies' work were not so numerous as on previous years, but the quality was well up to the standard. Full particulars of the successful competitors can be gleaned from the following

C. Detlor and C. Seager.
C. Seager said, he believed there was a strong feeling that the Goderick foundry, one of the few industrial institutions we possessed, should be retained in Goderich. And if it could be shown An experienced teacher, possessed of a that a joint stock company could carry second-class certificate, is wanted by the on the business successfully, a great points upon which information was required which could not be obtained to-night, but which could be got by a draw up a scheme and report at a subsequent meeting, when further action could be taken. The resolution he had just read did not bind any one to, any definite action, but merely expressed the wish of the meeting that the Goderich foundry should not be removed or closed down, and that if it was found to be feasible, the scheme for the formation of a company should receive favorable The resolution, at all events, could do no harm and might lead to some good. It would be at least an expression of opinion that the people of Goderich were in favor of an effort being made to prevent the found siness from being removed from Gode-rich. The promoter of the scheme had taken the proper course in suggesting the formation of a joint stock company in which those who wished could sub-scribe instead of asking a bonus by which

the majority would compel all to pay whether they wished or not. prepared to pass the eye ution.

F. W. Johnston - What object is to be gained by passing it?

The Mayor - The sentiment of the New School Books

people for or against the project, was a thing to be desired. There was no way of getting the public feeling except by submitting a resolution. F. W. Johnston—Does the resolution

pledge us as a town or individually ? The Mayor—The motion, if passed, would only show that the scheme had the good will of all who voted for it. When the stock-book was prepared it

C. Seager-This meeting is not for the purpose of asking a bonus; it is to take

teps to get up a stock company.

F. W. Johnston - Well, let them get ip a prospectus.

J. H. Colborne—The promoters only wanted to test public feeling towards the foundry at this meeting. In due time a prospectus would be forthcoming, if the committee reported favorably.

T. McGilheuddy showed that the motion was the able intelligent made of ac-

tion was the only intelligent mode of ac

was not in a position to vote on a bonus by law, but if a stock company were formed he would be able to aid by taking

one or more shares in the concern. The only sensible way to get any information was to appoint a committee to obtain it in full. A mere prospectus such as was asked for was of no account unless backed by the opinion of a reliable committee of business men.

D. McGillicuddy said, if a similarly worded resolution to that before the meeting was presented at a railway meetmeeting was presented at a railway meeting there would not be a dissenting voice.

Two gentlemen had opposed the resolution, but they had failed to give a reasonable plea for doing so. There was not other way of finding out the financial condition of the foundry than that set forth in the resolution.

forth in the resolution.

Col. Ross, M.PP, believed definite action should be taken. If Goderich foundry was allowed to close, it would be useless for us to attempt to get outside

COMMUNICATIONS.

A Bigger Egg.

MR EDITOR.—Talk about eggs, here is one laid by a hen of Wm. Hicks Huron road, that beats Mr. Handys night, but which could be got by a being 63 x 8 3-16 in circumference but committee who would investigate and it does not weigh near as much as is claimed for Mr. Handys' being 4½ oz. I think there is a mistake about the former, being \(\frac{1}{4} \) lb instead of \(\frac{1}{2} \) lb. This egg is \(\frac{2}{4} \) inch larger one way and \(\frac{1}{2} \) inch the other.
