Each of us is, for himself, the center of the universe. That is a law of psychology. Even the most unselfish person cannot think of the world in any other way than that. Although he may wear himself out in the service of others, he must still think of this universe of service as built around himself. As I go through a railway station, or look about a trolley car, it interests me to realize this, and to think how each commonplace person I see before me is the center of a little universe of his own.

FOR THE WOMAN WHO THINKS AND FEELS.

Some women complain that they periodically suffer from dull and heavy fee ings, or dizziness in the head, nervousness, pain and bearing-down feelings which should not occur to the normal healthy woman. But most every woman is subject to these pains at some time in her life, due to abnormal conditions in life, such as corsets, over-taxed strength, bad air, poor or improper food wet feet, sluggish liver, etc. A regulator and female tonic made from native medicinal roots with pure glycerin, and without the use of alcohol, salled

DR. PIERCE'S FAVORITE PRESCRIPTION, has proven its value in thousands of cases, like the following:

Mms. Dona M. Martin, of Auburn, Nebr., Route 1. Box 84, says:
"I thought I would write you in regard to what your medicines have
done for me. I have used them for thirty years for female trouble
and general weakness, with the very best result, and they have saved
me hundreds of dollars in doctors bills. I buy the Favorite Prescription and Golden Medical Discovery and take them together. I never
was disappointed in your remedies and take pleasure in recommending
them to any suffering lady. I am now almost fifty years old; at fortyfive I took your medicines, both kinds, and I passed that period very
easily and left me fat and healthy. I feel like a young girl.

"If any lady cares to write me, I will gladly tell her more about
the good work of your medicines."

DR. PIERCE'S GREAT FAMILY DOCTOR BOOK, The People's common Sense Medical Adviser, newly revised up-to-date dition—of 1008 pages, answers hosts of delicate questions which every woman, single or married, ought to know. HEALTH RESTORED TO THIS FAMILY

Wife's experience with Dr. Chase's

Nerve Food led to husband's cure. "Since childhood I was afflicted with biliousness and sick headache," writes Mr. A. K. Van Wyck, Park Hill, Ont., "and as all the doctors' medicines and prescriptions failed to do me any permanent good, I had lost faith in all medicines. It was by accident that I came to use Dr. Chase's Nerve Food, for it had been recommended for Mrs. Van Wyck and didner so much good that she wished me to try it.

The Garden.

BY H. L. RANN.

The garden is a mellow plot of ground which produces with equal facility. early vegetables. the double-twisted backache and the semi-elliptical leg cramp. Gardening is a mild form of temporary insanity which takes hold of a man

early in April and lets go with the degrass and chintz bugs out of his ga bent out of shape worse than the his feet in a series of slowly ascend ing jerks. The average garden is al ways disappointing the owner by do ing something which was not in the original contract. If it is a wet spring a man has to cultivate his green corn with a suction pump and a pair of hip boots and harvest the early rad ish from a raft. If it is a dry season he is obliged to bathe the bulbous forehead of the young onion in city water which is the most exper form of irrigation known to man. The most deadly foe of the gardener, however, is the first frost, which ambles down from the frigid zone just in time to curdle the contents of the canteloupe and lay the finger of death on the pie plant pie. Another insidious enemy is the nomadic hen, which flits from flower to flower and fills the eyes of the carrot, beet and turnip with clay sub-soil. After a gardener has run foul of a few of these obstructions, he is liable to let loose of considerable agricultural enthusiasm and some parts of speech which would not look well as an introduction to the Sabbath school lesson. The only kind of garden truck which a man is sure of realizing on the same season

Light, Warmth and Food.

We want Light. gas gives us the best, cheapest and healthiest artificial light known. Again, we want Warmth, and the gas fire is at hand to give it in its best form; and, lastly, we must have Food, and here the gas cooker never fails us. All this is absolutely true, as we have shown over and over again.

have shown over and over again.

If, however, any of our customers are in the least doubtful on any of these points, we cordially invite them to consult us. In the meantime, our advice is to get good burners and buy mantles of well-known makes, to use modern gas fires and cookers, and, above an, to keep your gas appliances (whether old or new) in good order, for in this is the true secret of efficiency and complete satisfaction.
