Market Fluctuations.
The following is Cunningham's New York special to J. W. HYMAN, broker, Market Lane, by private wire:
New York, June 23.—Wall street brokers and traders anxiously watched the tape at the window, waiting for the Chicago nomination. Bulls think prices will go up today. The nomination will have a favorable effect on American in London, because there are no silver canadians. Stock brokers say Burlington and Quincy are overvalued. There were rumors that East Tennessee would be placed in the hands of receivers, but placing of R. T. in the hands of the court had no special derogatory influence, and if former rumor is true it is not likely to hurt the generalist.
