-A Central avenue resident writes: "The people living on Central avenue, in the Fourth Ward, are up in arms. For years they have asked that their street should be graveled and put in a proper state of repair, and each year the promise to do so has been broken. This year, to make matters worse, the street was torn up to put down the street was torn up to put down the street railway, and the residents were consoled with the statement that the street railway company were to furnish the city with a large amount of gravel, and Central avenue would be the first street to receive attention. At the last meeting of No. 2 committee the startling announcement was made that nearly all the funds had been expended, and that very little more work could be done this year. This aroused the residents. Consultations were held, committees formed, and all kinds of schemes were mentioned, and at last it was decided to petition the council and await their action. The matter will likely come before the council at the next meeting, and the fate of the petition will

be eagerly looked for. WILL CONTINUE THE BUSINESS. The public will learn with pleasure booksellers and stationers, London, in the list. Another Old Idea Exploded. The old-fashioned notion that to keep warm one had to be loaded with a suc cession of garments till the weight of them was a burden and one felt too bulky to move, has been exploded. The age of common sense and comfort has arrived, when a man can adapt his clothing to suit all weather without swathing himself like a mummy. Fibre Chamois, the interlining which makes this possible, has gained its great popularity because it is an absolute non-conductor of heat and cold. No breath of cold or frosty wind can penetrate it from without, neither can

and the Audience Was Satisfied. "We estimate our seating capacity at 4,100 or 4,200," said the veteran John Lowlow, of Main's circus, as he collected reserved seat tickets at the big show yesterday. "Our original tent

was much larger, but it was destroyed by a windstorm at Quebec.' At that rate, there must have been about 10,000 people at both performances yesterday. A two-ringed circus is not so distracting, and everyone under the canvas yesterday had a good view of everything in sight. Main's menagerie was somewhat small, but was representative, and con-

The riding lion, performing elephants, tigers and dogs, trick mules and other advertised features were reproduced to the letter. The spectators were especially pleased with the beauty and cleverness of the horses. The clowns were genuinely funny without being offensive, and most of them were capital acrobats. The tumbling was one of the best things on the programme. Altogether it was a bright, diverting entertainment, exceeding the expectations of many who thought the price of admission, 25 cents, an indication of a cheap show. A circus appeals to all classes as no other form of entertain-ment does, and callco and satin, broadcloth and homespun, rubbed shoulders yesterday. THE MURDER AT SEA

Arrival of the Prisoners at Boston-Mr.

Monks Liberated. Boston, July 28 .- The steamer Hallfax, from Prince Edward Island and Halifax, arrived yesterday, having among the passengers Mate Bram, Seaman Brown, Steward Spencer, Lester Monks and five seamen from the barkentine Herbert Fuller, which put into Halifax last Wednesday with the bodies of Capt. Nash, Mrs. Nash, and Second Mate Brandberg, who were murdered. Officer Thomas Klime, of Halifax, accompanied the prisoners, and turned them over to Police Capt. Cain, of division No. 1, who, with 45 men, was at the wharf when the vessel arrived, it being expected by the police that a large crowd would be present. There were many there, but there was no demonstration.

while Mr. Monks was allowed to go to his home. The men were taken to the United States Count, arraigned and held for further action.

ALL LOST! The Entire Crew of the Clipper Phila-

delphia Probably Perished. Philadelphia, July 28.-Information just received from Stanley, F. I., under date of June 9, proves con-clusively that the ship which foundered in that locality May 14 last was the Philadelphia clipper, City of Philadelphia, and that Capt. Johnson, his wife and family, one passenger and a crew numbering in all 25 men, perished. The articles saved by the salvors has been recognized by the shippers as the identical goods shipped to San Francisco by the City of Philadelphia, which made sail from

Sandy Hook on Feb. 2. No loss within recent years has attracted such attention as the reported sinking and safety of this ship. Over a month ago London speculators in-sured the City of Philadelphia at 90 guineas premium, and it may be de-pended upon that there was in their possession almost conclusive proofs of her foundering, else such enormous figures would not be paid for her reinsurance.

# conditions

In some conditions the gain from the use of Scott's Emulsion of cod-liver oil is rapid. For this reason we put up a 5oc. size, which is enough for an ordinary cough or cold or useful as a trial for babies and children.

In other conditions gain must be slow, sometimes almost imperceptible, health can't be built up in a day. For this Scott's Emulsion must be taken as nourishment, food rather than medicine, food prepared for tired and weak digestions.
