Gagged a Patient.

Buffalo, N. Y., Oct. 18.—Dr. Chauncey
Pelton Smith, assistant surgeon at the
Fitch Accident Hospital, is undergoing
investigation by the charity organization
which controls the hospital. Dr. Smith is a
son of Millord Smith, local agent for Carnegie and one of Buffalo's millionaires. The
father is president of the charity organization and when his son graduated from college he easily secured a place in the Fitch.
The young surgeon was unpopular from the
start and inclined to shirk his duties. The
first break he made was to leave the hospital one night when he was in charge. As
short time afterwards he was kept awake
one night by the groans of a patient. So he
jammed a handful of cotton into the man's
mouth, secured it with a bandage and went
to sleep. The next night Smith was in
charge a man who had attempted suicide
with morphine was brought in. He needed
constant attentiou. The next morning he
was dead. All this was kept from the
managers until a woman nurse complained

The Gilbert Islands' Dispute.

Washington, Oct. 18.—The San Francisco dispatch reciting the trouble experienced by American merchants on the Gilbert Islands was shown to Secretary Foster yesterday. The United States has a commercial agent on the island, but up to a commercial agent on the island, but up to a commercial agent on the Department of State. The Secretary says that early in the present year the department received a communication from King Teburcimon of the Gilbert Islands, praying that the United States establish a protectorate over the island. The King at that time was in San Francisco. The department did not San Francisco. United States and Cermany in strife; and although the Department of the same and control to the case that the same and control to the case that it has been the established policy of the United States to decline the extension of its territory by such means. Such are the facts as efficially stated at the department. The British protectorate over the Gilbert Islands has in the case of the group, including Butaritar, been repeatedly repuditated by the native rulers who, as already stated, has sought an American protectorate in preference. There are certain aspects of the case that cause it to resemble the Samoan controversy which came near involving the United States and Germany in strife; and although the Department of State has felt obliged to decline the request for a protectorate it may be assumed that all legitimate American interests in the islands will be fully protected.

JOHN SULLIVAN'S JEALOUSY.

St. Thomas, Oct. 17.—It appears that John Sullivan who shot Miss Elizabeth Henderson on Saturday, had for some time past been jealous and at other times afraid of Mr. W. Webb, a man employed in the M. C. R. shops here. Mr. Webb lives with his mother-in-law, Mrs. Jacob Birdsall, at 225 Center street, and there seems to be no reason whatever why Sullivan should either have feared or been jealous of him. Before he was arrested on Aug. 25 last, when he knocked over a lamp, broke in a door, and created havoe generally at Miss Henderson's, Sullivan complained to Sergt. Ross on the night of Aug. 24 that Webb was after him to kill him, and that he was afraid to go home. Sullivan had then succeeded in borrowing an empty revolver, but had been refused cartridges by Mr. Smiley and Mr. Risdon. Sergt. Ross took Sullivan to his bearding house, and tried to had been refused cartings. Ross took Sullivan to his boarding house, and tried to quiet him. But Sullivan had an insane idea that Mr. Webb was going to kill him, and nothing could remove that absurdity from his mind.

and nothing could remove that absurdity from his mind.

THE PRISONER'S DEMEANOR.

Yesterday Miss Henderson requested Chief Fewings to notify Sullivan's sister in Buffalo of the occurrance. Her address is: "Mrs. F. M. Beck, 561 West avenue, Buffalo." Sullivan, when registering at the jail, stated that he was a billiard marker by occupation, 44 years of age, born in the United States, temperate in habits, and a Roman Catholic in religion. Since being removed to the jail he has been very quiet, and lays in bed nearly all the time. He complains of severe pains in the head, has not been adle to sleep and eats very little. He does not seem to be laboring under any exoitement. Chief Fewings visited all the hardware stores and finds that none of them, sold Sullivan the revolver. None of them indeed, keep revolver. None of them indeed, keep revolver. None of them indeed, keep revolvers like it. Mr. G. Ordish, of the Dake House, had a revolver exactly like the one found in Sullivan's trunk. Some one took the pistol from Mr. Ordish's safe about two months ago, and it may be that whoever did sold it to Sullivan.
