

Linevitch Dazed by Swift-Moving Oyama; Russian Army Completely Enveloped

Czar's Cavalry Routed in Stiff Fight—Japs Turn Enemy's Right Flank.

London, June 18.—General Linevitch, bewildered by the strategy of the Japanese, is making repeated reconnaissances and throwing out innumerable scouts. Nevertheless, at the present moment all his army is completely enveloped. The Japanese army has made a circle a hundred miles in circumference around Linevitch, and is gradually closing in.

St. Petersburg, June 18.—Although the way has been cleared for peace negotiations the operations in Manchuria appear to be in full march toward a big engagement, the Japanese having pushed as far as Liao Yang Chung Keng, west of the Liao River, 33 miles north of Faku-man.

The Japanese have strong forces here as well as in the rear of Lieut. Gen. Linevitch's advance detachments near Chantufu, and even threaten the flank of the fortified positions at Sip-lung, where Gen. Linevitch intended to offer battle, from which he pushed far to the southward during months of inactivity on the part of the Japanese army.

It is not known whether Gen. Linevitch will retire slowly on these

positions or whether, as he intimated recently in an interview with the correspondent of the Associated Press, he intends to meet the Japanese flanking operations to the westward by a counter offensive movement.

Routed Russ Cavalry.

Tokio, June 18.—A report from Manchuria, says: "In the Wei-yu-pao district at 9 a.m., June 16, three hundred of the enemy's cavalry advanced against Kuyushu, but were repulsed. In the Chamota district our advanced force, after driving out the enemy stationed at Suniencheng, occupied that village. In the Tasi-mo-tun district our detachment after dislodging the enemy's cavalry at Sou-chai-zu, eight miles west of Suniencheng, occupied that village."

In the Kangpiu district at 1 a.m., on June 16, our center column after routing the enemy's cavalry outposts at Tien Chia Wopeng, 16 miles northeast of Kangpiu, and continuing a vigorous pursuit, attacked the enemy's position at Suniencheng, and the enemy's Yang Wopeng, and to the eastward between 4 and 8 o'clock, and at 9 o'clock we completely occupied Liao Yang Wopeng.

Our right column after driving the enemy's cavalry before it occupied Lo-chuan-pou, nine miles east of Liao Yang Wopeng. This column shelled the enemy's cavalry, retreating to the northward, inflicting heavy injury. The enemy was finally thrown into great confusion. The left column, under a fierce fire upon a thousand of the enemy's cavalry, retreating to the northward, and the enemy's cavalry was routed.

ward of Liao Yang Wopeng and inflicted heavy damage.

"According to prisoners, 5,000 cavalry with 20 guns, forming part of Lieut. Gen. Mischenko's army, occupied Liao Yang Wopeng. The main force retreated northward and parts of it to the northeastward and northward in disorder. There are evidences that the enemy was panic-stricken and utterly confused. Abandoned provisions and clothing indicate the difficulty the enemy had in carrying off supplies."

"In retreating, the enemy fired a house south of Liao Yang Wopeng, and it is thought they intended to incinerate their dead. Our casualties were 30 killed and 185 wounded. The number of the enemy's casualties is not certain. His dead left in front of the center column numbered 80 and therefore the total Russian losses in all directions seem to be great."

Japs Work Flank Game.

St. Petersburg, June 18.—A dispatch from the Chinese press states that the Russian army at Godzyadani, describes the fighting in the vicinity of Liao Yang Wopeng from 2:28 o'clock on the morning of June 16. The Russian artillery at first forced the Japanese to retire along the whole line. In the meantime a force of Japanese turned the Russian right flank, compelling the Russian detachment to retire from Liao Yang Wopeng. At this moment a strong Japanese infantry column was observed approaching the Russian losses, the dispatch says, were only six wounded.

GOVT. MAY NOT ACCEPT ANGLIN'S ALIEN ACT DECISION

If No Appeal Department of Justice May Find a Way
to Get a Final Judgment.

[Special to The Advertiser.]
Ottawa, June 18.—The decision of Justice Anglin in regard to deportation of aliens is that the Canadian Parliament has no power to deport aliens to foreign territory.

It is understood that the department of justice does not feel bound to accept the decision of Judge Anglin. If there is no appeal, as the judge says, then the Dominion Government will find a way of getting a final judgment in the case. It is a question whether Justice Anglin's decision does not declare the

whole statute ultra vires or merely the deportation clause, if it merely refers to the deportation clause, then the adoption of a fine could be used instead of deportation. The decision of Justice Anglin also raises the question as to the deportation of immigrants which is going on all the time. Then there is the deportation of Chinese and extradition proceedings, all of which may be effected by Justice Anglin's judgment. It is of so far-reaching consequences that it cannot be allowed to rest where it is.

Liberals to Hold Monster Picnic at Queen's Park

Recent Victory To Be Celebrated
by a Big Gathering of Mr.
Hyman's Friends.

London Liberals are in a supremely happy mood just now. No happier political family exists in Canada today, and the men behind the guns have decided to hold a picnic in the city to celebrate the victory which shall eclipse anything in the political line ever held in London.

At first it was proposed to celebrate Mr. Hyman's splendid victory with a grand banquet, but at a meeting of the executive held Saturday night, the point was raised that at a banquet the ladies and the families of the voters are barred out.

This the Liberals consider most un-gallant, and instead of a banquet they will hold a picnic at which every Liberal in London, and every other person who wishes well to Liberalism, will be invited, as well as the wives and children of all the Liberals of the city.

He was removed from the ship to the train by an ambulance.

The King has invited the manufacturers to visit Windsor tomorrow morning.

Kaiser Hits at Britain, Using France as a Club

French Govt. Has Given in to Wily Wilhelm On Several
Points—Berlin Expects an Agreement.

Berlin, June 18.—2:15 p.m.—Premier Rouvier has informed Prince Radolich, the German ambassador at Paris, that France is inclined to accept the invitation to take part in the proposed conference on Morocco, provided the German and French Governments can reach a mutually satisfactory agreement as to the points to be considered by the conference. The conviction exists at the foreign office that France and Germany will be able to agree upon this programme. Although earnest differences of view are yet to be reconciled the authoritative judgment of the foreign office is that they will be overcome by negotiation. M. Rouvier has thus yielded to Prince Von Buelow on two essential points, on which M. Delcasse, the former foreign minister, had refused the invitation to take part in a Morocco conference. M. Rouvier first refused the proposal, and second agreed to take part in the conference provided the protocol is in conformity with French interests. This will be accepted by Germany, which will limit the deliberations of the conference. Great Britain, supporting France, had also refused to join the proposed conference, but Foreign Secretary Lansdowne has, it is understood, said that if France accept, Great Britain would also accept.

A great diplomatic battle is in progress, with the probabilities leaning toward German success.

London, June 18.—It is probable that the crisis which is foreseen upon the nations will soon assume a new phase. Every move thus far made by the Kaiser has been aimed at France, although the former foreign minister, had refused the invitation to take part in a Morocco conference. M. Rouvier first refused the proposal, and second agreed to take part in the conference provided the protocol is in conformity with French interests. This will be accepted by Germany, which will limit the deliberations of the conference. Great Britain, supporting France, had also refused to join the proposed conference, but Foreign Secretary Lansdowne has, it is understood, said that if France accept, Great Britain would also accept.

struction of the Big
Lake Liner.

The steamer was one of the best equipped in the line. The loss covered by an insurance of \$80,000. The Collingwood arrived at 10:30 on Sunday night when the Britannia in tow, which she released from Campbell's Rock. The fire started at 2 o'clock in the morning in the engine room. The fireman and two deckhands lost their lives, the rest of the crew escaping by jumping overboard. The Britannia was badly scorched, and was towed away by a tug.

The Shuberts May Join With Belasco
Against Klaw and Erlanger.

New York, June 18.—The Klaw is waiting with a great deal of interest the result of an interview between Lee Shubert and Klaw & Erlanger, which is booked to take place inside of a week. Because of the unfortunate death of Sam Shubert recently, the affairs of the Shuberts have received a setback, from which they are slowly recovering. Sam Shubert had plans for next season which might have placed him in the theatrical field as a rival to Klaw & Erlanger, who control the theatre district.

Hoch Is Writing a Book.

Chicago, June 18.—To obtain money, \$700, to take his case to the supreme court, in the hope of saving his neck, Johann Hoch is writing a book. He says it will be the real story of his life and his many adventures. He believes he can sell it as a publisher for \$200. Already he has written one chapter of his tale, which covers 60 closely written pages. His chapter is now being revised, and he says when he has the foundation and commencement of his story well in hand, it will be easy to write the rest of the book.

Sir Charles Tupper Ill.

Halifax, June 18.—Charles T. Hilsen, of Amherst, N. S., has received a letter from his uncle, Sir Charles Tupper, stating that he is in England, which contains the somewhat startling news that the aged statesman is in poor health.

In fact, he is quite ill, as when the letter was written he was confined to his bed, with three doctors in attendance.

WELCOME TO OLD COUNTRY

SAYS KING TO CANUCKS

Windsor, England, June 19.—King Edward and Queen Alexandra gave the warmest welcome this afternoon at Windsor Castle to 102 Canadian women and the 15 members of the Canadian Manufacturers' Association. The party were met at the railroad station by 70 carriages provided by the King, and

measures to make the position clear and the issue direct.

The policy which Germany is pursuing toward France if directed against England could have but one result. The British Government is by no means unwilling to put the genuineness of German aggression to the test, and the opportunity to do so is likely to arise in the near future. This was clearly indicated in Lord Lansdowne's message to the French Government Friday, when he said that Great Britain was prepared to support both the letter and spirit of the Morocco agreement.

It is understood that France, replying to Germany's demand for an international conference on Morocco, will consent, with the proviso that no existing agreement to which France is a party shall be interfered with. This answer, of course, is equivalent to a declaration that the Anglo-French-Spanish compact must stand.

Germany cannot accept it without abandoning her chief contention. If France under further pressure on Monday gives way completely the issue will then come directly between Germany and Great Britain, for no conference is possible without British participation. The position of the British Government will then be defined without hesitation. Meantime it is wiser to say nothing about the preparations for all eventualities which are proceeding most actively in the three countries concerned.

Widespread interest has been attracted by the statement of the German case against France by Prince Donnersmarke, the German confidential envoy to France, printed in the Paris Galette yesterday.

A dispatch from Paris to the Weekly Dispatch says that Germans who are engaged in business in Paris have received an intimation from the German office in Berlin to hold themselves in readiness to return to Germany at an hour's notice.

SHORT \$6,000 IN HIS ACCOUNTS

Result of Provincial Audit of
the Treasurer of Til-
bury's Books.

Chatham, June 18.—Findlay D. Robinson, treasurer of Tilbury Township, is \$6,000 short in his cash. He has signed a confession acknowledging the shortage. The township is protected by his bondsmen, who have property valued at \$30,000, although somewhat encumbered. Stock speculation is believed to have been the cause of the deficit.

The council employed a provincial auditor to look over the treasurer's books, and this has been the result.

Toronto, June 18.—Following the discovery of the deficit of \$6,000 in the accounts of Findlay D. Robinson, treasurer of East Tilbury, there is an announcement of a difficulty over the accounts of the former treasurer of West Tilbury. The latter had a deficit of around \$10,000, and made up the shortage to the former council, which returned \$4,355 to him. The present council is investigating the reason for retelling this money.

LANGTRY IN VAUDEVILLE

She Will Get \$25,000 for a Ten-
Weeks' Engagement.

New York, June 18.—Lilly Langtry is going into vaudeville. She is going to take a dip in this country at a higher salary than has ever been paid to a vaudeville performer. She is to play ten weeks here, beginning in the fall.

That she anticipated appearing in vaudeville in England became known to vaudeville managers here, and greater financial inducements were offered to her to appear in this country than were offered in England. She is to get \$2,500 a week, plus a salary which will net her the tidy sum of \$25,000. She is to appear twice a day, but it is not yet settled whether she will give a monologue or a sketch. If she presents a sketch she will have to pay the members of her company out of the salary she receives.

The managers who have contracted for Mrs. Langtry's services are Oscar Hammerstein, Proctor and Percy Williams. As the arrangements now stand she will appear two weeks at Hammerstein's, four weeks at the Proctor houses and three weeks at Percy Williams' theaters. The tenth week she probably will play in Boston.

Disturbances Renewed at Warsaw

Warsaw, June 18.—Two persons were killed and 36 were wounded in a conflict between troops and socialists at Lodz yesterday. A procession of 2,000 socialists carrying red flags, stopped by the Cossacks. The socialists thereupon fired and the Cossacks replied and then charged with drawn swords into the thick of the procession. The disturbances were renewed this morning at a factory in which socialists were working. The troops have cut off from communication with Lodz.

TWENTY-THREE DIE IN TRAIN CRASH

Fast Freight Collides With
Heavily-Loaded Passenger
Near Baltimore, Ohio.

Baltimore, O., June 18.—The death roll of last night's wreck on the Western Maryland Railway now foots up 23, and this number is likely to be increased from among the list of those grievously mangled.

All the dead were employees of the railway returning to their homes in the small towns along the railway to spend Sunday. With the exception of the train crews they had been at work repairing the damage done to the roadbed ten days ago by a minor freight wreck at Mount Hope station, near here.

The train, which was No. 5 passenger, westbound, carried many passengers, all the coaches being filled. As many of the workmen as could do so went into the baggage car, the remainder of the train being filled with places on the platform between the mail and baggage cars and between the latter and the tender.

About Patapsco station, 8 miles from Westminster, the railway has many curves; that west of the bridge crossing the Patapsco River being particularly pronounced. An extra freight, made up of heavy coal and provision cars, running east, was ordered to take a siding to allow No. 5 to pass. Why the orders were disregarded will never be known, for all those who should have seen that they were obeyed are dead.

The passenger train was running at 20 miles an hour, and the freight, drawn by two engines, was making good time. West of the bridge they came together with terrific force, the three engines striking piled one on top of the other, fortunately, in such a manner that sufficient steam connections were broken to relieve the boilers and thus prevented the further horror of explosions. The fearful compact drove the passenger tender into the baggage car and demolished it and the mail car.

In an instant the peaceful countryside was changed into the likeness of a shambles. Along the tracks on both sides were scattered dead and frightfully mangled men. Most of those who had been in the baggage car and the engines were still plucked in the wreckage beyond reach of helping hands. The damage to the other cars of the passenger train was confined almost entirely to broken windows and doors and the injuries to their occupants to minor bruises. There was an instant rush to escape from the coaches. Heartrending shrieks from the injured quickly brought to the scene the inhabitants of all the farm houses within a considerable radius, and these aided the sufferers.

New York, June 19.—The Twentieth Century Limited train on the New York Central Railroad arrived in this city from Chicago at 9:27 today, three minutes ahead of time. It left Chicago at 2:30 p.m. (central time) yesterday, and made the run in 17 hours and 57 minutes.

WHITNEY AND BORDEN.

Montreal, June 19.—Hon. Mr. Tarte says in La Patrie that the advisability of getting Premier Whitney into the federal arena is being discussed as a result of the bye-elections in London and North Oxford. He expresses the opinion that Mr. Borden is scarcely the man for the position of leader of the Opposition, but excuses him from accepting the leadership after so signal a defeat in the last general election, on the ground that he was placed in a very unenviable position. Mr. Tarte does not essay an estimate of Mr. Whitney's qualification for federal politics, except to say that the suggestion is discussable.

GOUGH SWELTERS; THE POOR SUFFER

The Humid Sabbath Hard on
Tenement Dwellers Who
Crowd Parks.

New York, June 19.—Showers and a change in the wind cut today greatly reduced the temperature and excessive humidity from which greater New York swelters throughout the Sabbath. Nowhere in the city was the suffering so intense as in the east side tenement section, where little preparation had been made for it. Ordinarily such days do not come until early in July.

Nearly every household among the tenement dwellers has been called upon to provide for one or more of the immigrants who swarmed into the city last spring, and most of these have nothing but heavy winter clothing. In places, the turks and doorknobs were lined with heavy coats and men, exhausted and apparently suffering intense physical pain. Earlier than ever before the tenement dwellers have been open the parks to those who came there for the night. All day the small parks on the east side were thronged, but they furnished little respite from the heat until night came, orders were issued in all the downtown precincts to leave the parks open during the night. The parks on the east side, which were still plucked in the wreckage beyond reach of helping hands. The damage to the other cars of the passenger train was confined almost entirely to broken windows and doors and the injuries to their occupants to minor bruises. There was an instant rush to escape from the coaches. Heartrending shrieks from the injured quickly brought to the scene the inhabitants of all the farm houses within a considerable radius, and these aided the sufferers.

Bountiful Fruit Crop.

Niagara-on-the-Lake, June 18.—From present prospects fruit farmers of the Niagara Peninsula are expecting a bountiful harvest this year. Almost every kind of fruit is showing up better this year than last, and the consensus of opinion is that the crop will be the greatest since the year 1897, when the yield was unprecedented. Berries are rather late, owing to the continued wet weather, but it is expected that there will be plenty when they ripen. Of the larger fruits apples seem to be the only variety of which the growers are somewhat dubious. Apple trees as a rule, yield heavy only every other year. This seems to be the off year with many trees in the peninsula district.
