Business is almost at a standstill to-day, but local markets are stronger, in sympathy with those outside. Wheat of Ontario growth squiet and unchanged. A round lot of standard red and white changed hands at 90c west. New wheat is held higher. The stillers are willing to come up to prices prevailing a few days ago, but no further. J. J. Dixon & Co. received the following to-day over their private wire from Counselman & Day of Chicago: On the decline in zrain ten days ago the speculative longs in July grain took their losses. Those remaining were shippers who required the grain bought for shipment, and this fact, which has been ridiculed today, impressed itself forcibly on the trade, when the enormous receipts were insufficient toolfil previous sales and the shorts became demoralized. This explains the advance. Ordinary influences were overlooked and estimates of receipts for to-morrow, visible supply, closing cables, and individual trading were almost entirely overlooked. How long the present excitement will continue or where prices may be carried we shall, not try to predict, but on the late buig sadvise sales of long stuff showing a good profit. Provisions were fregular the leading strength being first developed in ribs, while lard was inclined to a dull but stubbornfirmness. Pork was attacked by the bear element and was severely pounded. The advance in surrounding puts brought in some buy ing orders, and in spite of free selling by scat-

cks, Bonds, Grain and Provisions bought and sold for cash or margin. Smith & Priestman, 71 Yonge-street, received the following despatch from E. W. Bailey & Co. Chicago: Unless we are much mistaken in reading the handwriting on the wall we look for very active markets in the near future, with a heavy trade and higher prices to rule. The arrivals are well taken care of when they get/in, and this is a very healthy "sign. considering the enormous volume of the receipts. It may be possible, of course, that values may ease off some more through the introduction of fresh disturbing causes, but we look for higher values and are advising our friends to take hold of the long side in a conervative way on the breaks.

Drummond & Brown received the following to-day over their private wire from Lamontague, Clarke & Co, of New York: Stock market opened quiet, but at a fractional improvement, due to some buying of St. P., Louisville and specialties for London account. Cables intimate that a short interest may be covered abroad. News from the other side quiet and reassuring. The ioan market shows a large short interest. The market for sterling exchange is dull and somewhat irregular as to quotations. Demand rates 4.854 to 4.854. Money easy in the open market in London. Saturday's bank statement was somewhat better than expected, but failed to uring in orders to buy. The weakness in the bond market is suring stocks. The Richmond Terminal securities were again weak, the stock selling off 1½ and the collateral trusts nearly 6 per cent, on renewed liquidation of long account

R. Cochran received the fellowing from Kennett, Hopkins & Co. of New York: The uneasy feeting, which has been such a pronounced feature in market for a few days, accdiminated in volume over Sunday and became more littense in consequence of very bearish financial agticles in few of our newspapers, and the disposition to sell stocks at opening was so pronounced that small volume of Lendon buying but for a memenichecked the downward course of prices. There have been more weak spots in market to-day simil volume of London buying but for a mement checked the downward course of priess. There have been more weak spots in market to-day than last week. Richmend Terminal started and declined 2 per cent., the bonds at same time breaking bedly, the 5 per cents, selling down to 58. The officials of the company pretend decline is unwarranted and is due entirely to bear attack on the securities, but reports of dissensions in management are heard, and there is certainly a widespread distrust of it. Feeling against C., B. & Q. is very pronounced and stocks being assailed at all points. It has shown a good-deal of resistance and given evidence of quite a gon-

BREAKFAST. "By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cozoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist-every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame." —Civil Service Gazette.
