tine business.
Dr. Bryce presented a report on malaria on the Madawaska. In response to complaints from Combernere, a village of 150 population, 60 miles from Renfrew, he had visited the district on Oct. 2. His he had visited the district on Oct. 2. His investigations showed unsanitary conditions were caused by the construction of the Palmer dam seven years ago, which creates a flooded area extending over several square miles at certain seasons. Vegetation of all kinds is destroyed and when the water is drawn off the gases arising from vegetable decay bring about malaria. Wells are polluted and cellars flooded also. The doctor suggested in view of these conditions the sawing of logs should be done early in the spring or late in the fall. If this were done there would be no necessity of maintaining a dam except for the purpose of funning a steamboat. The report was adopted.

Aunning a steamboat. The report was adopted.

The secretary also reported the result of his investigations at London, Ont., on the 12th inst. It was complained that the creek in the neighborhood of the Canadian Packing Establishment is polluted by it and that sickness among cattle results. He had found the arrangements and drainage good, but recommended further precaution in the disposal of daily effluent from the factory and had advised the Township Board of Health to take measures to see that none of the effluent reached the stream. Mr. William White, Deputy Postmaster-General, wrote stating that as the corporation of Ottawa had spent \$30,000 on the contagious disease hospital on Porter's Island, which proved to be unfit for use, it now proposed, without? a further large outlay, to repair the old building in Rideau-street and use it. Those who live in the neighborhood are raising strong opposition and were determined to take largel states of the stream of the stream

The board sat until 6 o'clock, the latto a discussion of reports re vaccination from all parts of the province. The board decided to advise all school teachers to adopt the rules of the Toronto Public schools and insist that every pupil be vaccinated. The sitting will be resumed at 10.30 this province.

at 10.30 this morning.

CITY HALL JOTTINGS. Reductions Assessment Appeal Are As Numerous As Ever.

Yesterday was a very quiet day at the City Hall. The talk of the aldermen who put in an appearance hinged on the new clause which, on the motion of Ald. Grane, has been added to the Georgian Bay Aqueduct Co. One or two hold the opinion that this action was merely another bluff on the part of the company to get the agreement through the council, and that after appearing to raise strong objections to the clause the company would turn around and accept it. An interview with Ald. Crane, however, satisfied The World reporter that he is sincere in his desire to protect the city. The gentleman who saw the plans of gentleman who saw the plans of company, referred to by Ald. Crane Monday, was under the escort of Jolliffe at the time. He states that the plans bear the name of a town some 10 miles north of Toronto, that at the present time does not exist. All the aldermen are of opinion that the addi-

If Toronto establishes an electrica plant of its own it will merely be following the example of many cities in England and Scotland, that in spite of the fact that no overhead wires are allowed, manage the work successfully. Here are some of the towns that have their owns plant the successfully. their own plant: Aberdeen, Blackburn, Bolton, Bedford, Bradford, Brighton, Blackpool, Cardiff, Derby, Dundee, Dewsbury, Edinburgh, Glasgow, Hull, Huddersfield, Manchester, Newport, Salford, Southend, Tunbridge Wells, Worcester, Wolverhampton.

The work of cleaning the reservoir and concreting a portion of the bed was finshed yesterday, and to-day water will

Notwithstanding the general reductions made by the assessors, the appeals are this year as numerous as ever. The ma-jority of the cases are from loan companies and other institutions. The Court of Revision will commence work on Oct. 29, beginning with Ward 2 and finishing with Ward 1,

Dr. J. B. Huff, Florence, writes: "I have great pleasure in testifying to the good effects which I have experienced from the use of Northrop & Lyman's Vegetable Discovery-for Dyspepsia. For several years nearly all kinds of foods fermented on my stomach, so that after eating I had very distressing sensations, but from the time I commenced the use of the Vegetable Discovery I obtained relief."

Panse of the Malaria at Combermere Explained.

The Provincial Board of Health met yesterday at the Parliament Buildings in the office of the secretary, Dr. Bryce.

There were presented a report on malaria on the Madawaska. In response to complaints from Conhermere, a village of 150 population, 60 miles from Rendrew,

THE VERY TAING FOR CHILDREN

A joint Meeting of Peel and York County Representatives.

A joint Meeting of the Commissioners of Peel and York Counties was held in the courthouse yesterday for the Eumsissioners of the Eumsissioners of the Eumsissioners of the Eumsissioners was held in the courthouse yesterday for the Eumsissioners of the Eumsissioners of the Eumsissioners of the Counties was held in the courthouse yesterday for the purpose of settling with the bridge over the Etobicoke River, on the Lockshore broid, and the Silverthorn bridge at Somerville. Warden Hannah and Commissioners Rell and Henry of Peel.

A good deal of difficulty was experienced in making a gettlement with the company for the Lakeshore bridge, some of the floor beams not being up to specifications, and the bridge only receiving one coat of paint instead of two as called for in the agreement.

Mr. Felding, on behalf of the company painted the bridge again, would be paid back when the company painted the bridge again, would be a just deduction, and endeavored to get a motion seconded for this amount, but was unsuccessful.

After an hour's talk a motion was finally passed deducting \$125, on the understanding that \$25 be returned to the company as soon as the bridge company, and a cleque was sissued for the understanding that \$25 be returned to the company as soon as the bridge company a

is the present depressed condition of trade is hard to tell.

Henry A. King & Co.'s special wire from Logan & Co., Chicago: The wheat market has been only moderately active to-day. The demand for eash wheat is decidedly tetter, both for shipment and milling, as much as 2c and 3c being paid for spring grades over the December price. The demand for hard winter for export is good, and business is restricted because of light offerings. As much as 1c over December price has been paid for it, and if cargoes could be had it would bring 2c over. The feeding it. Ohlo to stock and hogs is nearier than it has been. With all these conditions can wheat go lower is the question. All contingencies favor an improvement.

Corn ruled fairly active, opening steady at a decline of 1-8c to 1-4c from yesterday's close. The buying was liberal and largely local, and mainly to provide against previous contracts. New York sent fair buying orders. The selling was outside holders.

Provisions opened weak and lower on liberal receipts of hogs here and at country points. The selling was mostly by holders, and at the extreme decline there was some buying by local outside packers.
