Honored by Women

When a woman speaks of her silent secret suffering she trusts you. Millions have bestowed this mark of confidence on Dr. R. V. Pierce, of Buffalo, N. Y. Everywhere there are women who bear witness to the wonder-working, curing-power of Dr. Pierce's Favorite Prescription—which saves the suffering sex from pain, and successfully grapples with woman's weaknesses and stubborn ills.

**IT MAKES WEAK WOMEN STRONG
IT MAKES SICK WOMEN WELL.**

No woman's appeal was ever misdirected or her confidence misplaced when she wrote for advice, to the WORLD'S DISPENSARY MEDICAL ASSOCIATION, Dr. R. V. Pierce, President, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets induce mild natural bowel movement once a day.

Chopping. Electric Light.

GEO. CHAMBERS.
Established 1870.

Stick to the 24th.

The difference between celebrating the Twenty-fourth as a perpetual holiday, and celebrating June the third, or any other day on which the reigning monarch is born, is the difference between true British patriotism and flunkeyism. Long before Imperialism was fashionable, Canada made a specialty of observing the Queen's Birthday. It was the occasion of expressing the chivalrous devotion of the people to the Queen. It was the first real summer holiday. It was the day when the trees were touched with the freshest, most tender green. It was the day of firecrackers for the kids and amateur gardening for their fathers.

The proposal to abolish this holiday, and substitute for it a celebration running all over the calendar, according to the accident of birth of the reigning sovereign, is unwise. Edward the Seventh was universally beloved, but the date of his birth was forgotten by most people, and nobody could be induced to keep it as a holiday. It was too near Thanksgiving Day: people would not keep two holidays within two weeks and they would not abandon their practice of rendering thanks to the King of Kings.

In the same way, June the Third is too near Dominion Day, and we do not intend to give up the celebration of our only distinctive Canadian holiday. We are governed in the British Empire not by the will of the monarch but by the laws and institutions which he represents.—Star.

The Leading Seaports.

While New York leads the cities of the world in its foreign shipping, it is the only United States port in the first dozen. London, which held the first rank for generations, not only lost the lead a short time ago to the American metropolis, but has been crowded into third place by Antwerp.

Next in order come Hamburg, Hongkong, Liverpool, Montevideo, Marseilles, Singapore, Cardiff, Kobe, Genoa, and Buenos Aires.

It is a fact worth noting that two South American cities are now among the leaders. The progress of Japan is evidenced by the appearance in the list of Kobe, its chief port, which has now a foreign commerce almost half as large as that of New York, which held the first rank was erected on the spot where the city now stands until years after Commodore Perry opened Japan to the commerce of the West.

THE WESTERN FAIR
London, Ontario.

The management of the Western Fair, London, Ontario, are sending out this week their Prize List, Entry Forms and other kind of advertising matter announcing their coming Exhibition in September. The dates are September 6th to 14th. This is the oldest Exhibition in Canada and it is becoming more and more popular each year. The prize list contains some very valuable information for intending exhibitors. From the breeder's standpoint this is one of the best Exhibitions held, as a large number of buyers always attend in order to secure the best animals that can be obtained. The parade of the Live Stock daily is something of great interest and attracts large crowds. Stockmen should include this Exhibition in their list. Write the Secretary, A. M. Hunt, London, for prize lists and all information.

Questions of Life

Are fully and properly answered in The People's Common Sense Medical Adviser by R. V. Pierce, M.D. As a result of knowing the laws of health and nature, happy marriages are sure to follow. Ignorance leads to misery and ill-health. All the knowledge a young man or woman, wife or daughter should have, is contained in this big Home Doctor Book containing 1008 pages with engravings and colored plates, and bound in cloth, (nearly 700,000 copies formerly sold for \$1.50 each) is sent FREE to any one sending 31 one-cent stamps to prepay cost of wrapping and postage. There are no conditions to this offer and the reader must not associate this book with the advertising pamphlets prepared by quacks throughout the country. Address, 662 Washington St., Buffalo, New York.

He Got the Limit.

There was, not long since, a venerable and benevolent judge in Paris, who, at the moment of passing sentence on a prisoner, consulted his associates on each side of him as to the proper penalty to be inflicted. "What ought we to give this rascal, brother?" he said, bending over to the one upon his right. "I should say three years." "What is your opinion, brother?" to the other, on his left. "I should give him about four years." The judge (with benevolence)—"Prisoner, not desiring to give you a long and severe term of imprisonment, as I should have done if left to myself, I have consulted my learned brothers, and I shall take their advice. Seven years!"

How to Gather Fish Worms.

Now that the fishing season is at hand, a new labor saving device for gathering

fish worms is timely:—
"You take a broom handle three and a half feet long, drive it into the spot likely to be inhabited by angle worms. Leave about six inches of an end sticking up. Then take a rough board and rub the top of the broom. The rubbing will cause a vibration of the earth and the worms, angry and disturbed, will work their way out of the ground. A fellow can get a painful of worms in a short time."

Good Old Ontario.

(Sheffield, Eng., Daily Independent.)
Ontario has well been named "The Garden of Canada." It contains some of the loveliest fruit farms in the world. Fruit that in England will only grow under glass and with the tenderest care, is produced in the most lavish abundance, notably peaches, grapes, lemons and tomatoes. Last year, in her 338,258 acres of orchards, she produced 75 per cent. of the fruit grown in Canada, the value of the same being three million pounds. Although four times as large as England, the thickest populated province of Canada, Ontario contains only twice the number of people there are in Glasgow. She has an area of 140,000,000 of acres, and only one-third of these has yet been surveyed. There are still 115,000,000 acres belonging to the crown, and containing every form of agricultural land and mineral wealth known to man, only awaiting his advent to yield it to him with bounteous hands.

CHOP STUFF.

Wm. Temple will open a livery in Alvinston.

Robert Howieson, an old resident of Bosanquet, died on May 27th, aged 80 years.

In Sarnia there is considerable sickness among school children in the nature of inflammation of the eyes and sore throat.

James Huff, of Courtright, died Wednesday of last week. Typhoid-pneumonia of four days' duration was the result.

While chopping wood Monday, Jack Duffy, Alvinston, met with a severe accident when the axe slipped and cut him across the instep.

Dick Taylor, a baker, of Comber, was fined something over \$100, costs included, for running a gambling den. He had been fleeing young boys of the town for some time.

Have you tried Holloway's Corn Cure? It is no equal for removing these troublesome excrescences as many have testified who have tried it.

On Friday morning on the road near A. Poulton's, 2nd con., the entire horse, "Jardiner," made an attack on his leader, David Plaff. The animal grabbed him by the thigh and pulled him out of the buggy, and would likely have killed him had not help arrived.

Angus McPherson left Forest last Thursday for Winnipeg, where his daughters are residing. On Wednesday evening, after prayer meeting at the Presbyterian church, he was presented with a purse of money. Mr. McPherson has been an elder in the church for 34 years, and is very highly thought of by the whole congregation. The town loses a good citizen in Mr. McPherson.

W. W. Hilborn, of Leamington, states that peach trees in his district, show slight winter injury. In his opinion most of the damage was done by allowing the trees to grow too long in the fall. He recommended the planting of a clover crop in young orchards to take the moisture from the soil and check tree growth temporarily. There will be no peaches at Simcoe, as the buds were all killed. All small fruits will be scarce. Frost hurt the early cherries, they were all out in bloom.

MILD IN THEIR ACTION.—Parmelee's Vegetable Pills are very mild in their action. They do not cause griping in the stomach or cause disturbances there as so many pills do. Therefore, the most delicate can take them without fear of unpleasant results. They can, too, be administered to children without imposing the penalties which follow the use of pills not so carefully prepared.

What officials believe to be the biggest swindle ever successfully worked in Detroit, was uncovered last week when Prosecutor Shepherd raided the offices of Prof. H. Samuels, arrested the professor and seized samples of a solution of sugar, salt and water, being sold to the public at \$5 per two ounces. The professor was released on order of Justice Stein on \$1,000 bail. This "remedy was sold to the professor's patients for the cure of every disease with three exceptions, from heart trouble to tuberculosis. No matter what the ailment, a cure was affected, according to the professor—and thousands of testimonials he proudly shows—by placing a few drops in the eye three or four times a day. And the professor found buyers for his sweetened salty water. He not only found buyers for the first bottle, but they came back for more. They have come for so much of it that the professor has accumulated property enough to secure a rating in Bradstreet's from \$350,000 to \$400,000. His receipts average from \$12,000 to \$16,000 monthly. He employs thirty helpers, includes twenty-five girl stenographers, rides around in a big touring car and he maintains his wife and daughter at the Hotel Penthartrain.

An interesting hanging garden can be made by sowing a large sponge full of oats or wheat. Place it for a week or ten days in a shallow dish containing a little water; and, as the sponge will absorb the moisture, the seeds will begin to sprout. When this has fairly taken place, the sponge may be suspended by means of cords from a hook in the top of a window, where a little sun will enter. It will thus become a living mass of green, requiring only a little occasional moisture.

OSTEOPATHY
