In an advertisement by a railway company of some uncalled for goods the letter "1" had dropped from the word "lawful," and it read: "People to whom the packages are directed are requested to come forward and pay the awful charges on the same.

W. B. Coulsell, agent of the Canadian-Australian Line of steamships at Melbourne, Australia, who was in Montreal recently, stated that T. Tait has made himself quite at home with his duties as Chairman of the Commissioners having charge of the Government railways in Victoria.

The C.P.R. gives notice that freight consigned for local delivery at stations on the Quebec Southern Ry. will only be accepted for transportation when charges are prepaid. This does not apply to freight destined to points beyond the Q.S.R., such as stations on the Rutland Rd., etc.

The Transportation Commission appointed by the Dominion Government to investigate transportation problems will meet for organization early in Nov. The commissioners will take evidence from all parties desiring to appear before them respecting the transportation question, and their meetings will be open to the public.

The Maritime Engineering Co. (Ltd.) has been incorporated under the New Brunswick Companies' Act, with a capital of \$30,000, to carry on at Moncton, N.B., a general engineering business, and in connection therewith to build and engine vessels. The provisional directors are: J. P. Weir, P. S. Archibald, F. W. Givan, G. Baxter, Moncton; J. Wood, Sackville, N.B.

Canadian, Australasian and Puget Sound Steamship Co. has been organized at Tacoma, Wash., and press reports stated that the G.T.R. had made arrangements in connection with it to ship freight on a through basis to Australia and New Zealand. R. S. Logan, assistant to the 2nd Vice-President and General Manager, states that there is nothing in the matter so far as the G.T.R. is concerned.

The Canadian Northern Transfer Co. (Ltd.) has been incorporated under the Dominion Companies' Act, with a capital of \$500,000, to transfer passengers and freight from place to place, and for the storage and warehousing of freight. The head offices are at Winnipeg, and the provisional directors are solicitors clerks, etc. The company is being organized in connection with the Canadian Northern Ry. and it is believed that it will do that road's transfer business at Winnipeg and other points. At present the cartage for the C.N.R. at Winnipeg is done by the Shedden Co., which made a contract with the Northern Pacific Ry. when that line first entered Manitoba.
