

in Section I, Physiology; Prof. Penhallow and Dr. Jeffrey, in Section K, Botany.

Too much praise cannot be given to the very energetic and painstaking General Secretary of the British Association, Prof. Griffith; also to Prof. John Hopkinson, of the General Conference Committee, and to the gentlemen of the Local Committee: Mr. B. E. Walker, Dr. Macallum, Prof. R. R. Wright and Mr. J. S. Willison. It would take too much space to give an exhaustive account of the papers read even by the members of our Club who were present at those meetings, much as we should be disposed to publish abstracts of their papers. These abstracts will appear in the Annual Volume of the Association. A paper of general interest presented before the General Conference Committee of the Association and dealing with "Museums in Canada," was ordered to be printed in extenso and we hope to give a synopsis of the same at a future date.

An outcome of the British Association meeting in Toronto was the appointment of a Committee to investigate and report upon the suitability of a site as a Canadian Biological Station. Cache Lake has been visited and its suitability practically established. The Committee to investigate this matter consisted of Professors E. E. Prince, (Ottawa); Ellis, Toronto; Miall, England; Wright, Toronto; and Dr. G. M. Dawson, Ottawa.

A sum of money has also been placed at the disposal of a Committee, consisting of Sir Wm. Dawson, Prof. A. P. Coleman, Prof. D. P. Penhallow, Mr. G. W. Lamplough, and the writer, to investigate the Pleistocene flora and fauna of Canada.

Various other committees were struck as usual, and grants of money made for specific scientific purposes. H. M. A.

ANNUAL MEETING.

The Annual Meeting of the Ottawa Field-Naturalists' Club for the Election of Officers, reception of reports, and the transaction of other business, will be held on Tuesday, March 15th, at 8 p.m., in the Y. M. C. A. Hall.
