

## PUBLISHERS DEPARTMENT.

When you meet an employé of Parke, Davis & Co., whether on the road or in the house, you meet an enthusiast. He does love to expatiate on the wonderful growth of "his" firm—the number of its laboratories, branch houses, agencies, and representatives; its twenty-nine distinct lines of pharmaceutical preparations and its six thousand different products. It reminds you of John Bright waxing eloquent in the House of Commons over his favorite theme—the prosperity of the United States.

But there is good ground for his enthusiasm and for marvel at the amazing success of this firm. Recently they have opened two new branch houses to satisfy the rapidly growing demand for their preparations—one at New Orleans and another at Baltimore.

The price list which Parke, Davis & Co. are now distributing, and which suggested these reflections, is an admirable catalogue in its completeness, convenience of arrangement, and wealth of miscellaneous information. By all means write the house for a copy.

And remember, too, that the products of this firm are so many weapons for your assistance in the perpetual, harassing warfare with disease—weapons upon which you may rely through thick and thin, in emergencies as well as in routine practice. Their label on a bottle or box means that the contents have been prepared with the utmost skill and with scrupulous deference to purity and activity.

---

There is always an endless surprise of good things to be found in LITTELL'S LIVING AGE, and recent numbers have been no exception to the rule. We note in particular "Recent Science," by Prince Kropotkin, the eminent Russian scientist and revolutionist, which consists of two papers, "Rontgen's Rays" and "The Erect Ape-man." The same issue contains an article by Eivind Astrup, "In the Land of the Northernmost Eskimo," and another, "The Chevalier D'Eon as a Book Collector," by W. Roberts. Notable papers in other late issues are "South Africa and the Chartered Company," by Charles Harrison; "In Praise of the Boers," by H. A. Bryden; "National Biography," by Leslie Stephen; "The Baltic Canal and How it Came to be Made," by W. H. Wheeler; "Spenser, and England as he viewed it," by Geo. Serrell; "Cardinal Manning and the Catholic Revival," by A. M. Fairbairn; "Personal Reminiscences of Cardinal Manning," by Aubrey de Vere; "The Rival Leaders of the Czechs," by Edith Sellers, etc., etc.

The price, formerly \$8.00 a year, is now but \$6.00.

Published weekly by LITTELL & CO., Boston.

## SANMETTO IN URINARY DISEASES.

Sanmetto is my medicine for all bladder and urinary diseases. I have used it in cases of fifteen years' standing where other physicians and medicines had failed—such as catarrhs, or any irritation of either bladder, urethra or tubes running from kidney to bladder, in gleet resulting from gonorrhœa or excessive drinking or any other form of irritation of the urinary organs.

SEYMOUR, IOWA.

E. H. JONES, M.D.

## CHRONIC INFLAMMATION OF THE URETHRA COMPLICATED BY OLD STRICTURE.

Arthur Aulad, M.D., M.B., B.Ch., B.A.C., B.A., Rathmines, Defoe Road, Tooting, London, S. W., England, says: "I have very great pleasure in testifying to the extreme efficacy of Sanmetto. The only case in which I have used it was what I would call a test case, viz., one of inflammation of urethra of long standing, complicated by old stricture. I gave it in drachm doses three times a day, and in four days the patient was completely relieved."

## ILLINOIS CENTRAL HOSPITAL FOR THE INSANE.

I have repeatedly prescribed antikamnia for various neuroses with good effect. Recently prescribed it in a case of croupous enteritis, patient adult, highly nervous, and during continuance of paroxysms, and preceding it, is
