GENERAL NOTES

384

"Nutritive to every tissue of the body—from bone to brain."—Doremu.

❁ MALTINE ❁ CUM ❁ PEPTONES ❁

Each Fluid Ounce contains the Nutritive Properties of
1½ ounce of Beef (Peptonized).

Indicated in Malnutrition, Pulmonary Affections, and all wasting diseases, accompanied by enfeeblement of the digestive and assimilative functions.

WE respectfully call attention of the Profession to above named preparations, which has achieved a world-wide reputation as a Constructive in Wasting Diseases. Being at once a Digestive and Nutrient, it assists in carrying out the ultimate digestion and assimilation of food, while itself contributing to nourishment of the tissues.

[From the BRITISH MEDICAL JOURNAL.]

"Clinical experience enables us to recommend it as a nutritive and digestive agent, in virtue of its albuminoid contents, and its richness in phosphates and diastase, likely to prove an important remedy in pulmonary affections, debility, many forms of indigestion, imperfect nutrition, and deficient lactation."

Samples will be sent to physicians on application, free of charge (except expressage).

The Maltine Manufacturing Co.,

10 Colborne St., Toronto.
