Oil. Cajuput - - 2 minims

Chloroform - - 1 minim

Oil. Res. Capsici -  $\frac{1}{16}$  grain

In each Capsule

¶ The Capsules constitute a most efficient remedy for Flatulence, etc., arising from septic fermentation of the gastric juices.

¶ Cajuput Oil has been long known to possess a very high

value as an antiseptic carminative, but owing to its pungent flavor it is not at all suitable for prescribing in mixtures, etc. In capsule form this objection is entirely removed, and the physician has a most reliable and efficient remedy at his disposal in a very convenient form. The Chloroform acts as a mild sedative.

¶ Capsules Antiferment are best prescribed to be taken with or immediately after meals.
