- safety film
Vinyl, decorative, self-adhesive

Company/Product Information

Tape Specialties Limited manufactures and markets a broad range of pressure sensitive adhesive tapes and decorative vinyls.

Tape Specialties Limited has developed the Aqueous rubber/resin pressure sensitive adhesive technology which it produces using environmentally friendly means.

The product line includes masking tapes, double-sided carpet tapes, duct tapes, clear vinyl and polypropylene tapes, printable flatback tapes, coloured paper tapes, and aluminum foil tapes. The company also manufactures specialty tapes to protect the corners of painted or papered walls, label laminating and protection film tape, as well as safety film tape for mirror and shower doors.

The "Coloursplash" line of decorative vinyl will remove cleanly from most surfaces after years of use.

Tape Specialties' ability to silicone coat the backing of both paper and film substrates adds to the quality and manufacturing control of its product line.

CURRENT GEOGRAPHIC MARKETING ACTIVITY

Tape Specialties Ltd. presently exports to the U.S.A., Panama, Trinidad, and the United Kingdom.

GEOGRAPHIC MARKETING PRIORITIES/STRATEGY

The company is actively pursuing new business in Australia and New Zealand. Its products are competitive in both industrial and consumer product markets.
