

Page two.

with everything else you have to handle, upon your shoulders but I feel that the difficult part is practically over and the rest should not take much time.

I very much appreciate your sympathy in regard to our loss but time, I am sure, will help us to get over it. Of course inasmuch as we had leased our summer place at North Hatley to Mr. Reid Dobell of Montreal some weeks ago, intending to make our headquarters at the farm, it leaves us without a summer place in which to entertain you, but we still have our home in Sherbrooke and when Al comes up, as he will once or twice this summer, if you are where I can get hold of you, we shall try to get you out at the same time.

Please again be assured of my deep appreciation of what you are doing for us.

Yours faithfully,

J. Bruce Blitcher

Dr. Lewis W. Douglas, Principal
McGill University,
MONTREAL, Que.

P.S.- Possibly it was unfortunate that Bruce's professor at U.N.B. gave him the impression that he might be able to enter McGill this Fall and, again, he could not have been in possession of the facts in regard to the Statutory Provisions.
