JOHNSTON'S AGRICULTURE.

Lectures on the Application of Chemistry and Geology to
Agriculture. By J. F. W. Johnston. Complete in one
thick vol. \$1 25; or in 2 vols. \$1 50.

CONTENTS:—

PART 1.—On the Organic Constituents of Plants.

" 2.—On the Inorganic Constituents of Plants.

" 3.—On the Improvement of the Soil by Mechanical
and Chemical means.

" 4.—On the Products of the Soil and their use in the
Feeding of Animals.

APPENDIX.—Of Suggestions and Results of Experiments in
Practical Agriculture.

"It is unquestionably the most important contribution to agricultural science,
and destined to exert a most beneficial influence in this country."—*Professor
Silliman*.

"A work of great value to the agriculturist who would avail himself of the
aid of science in the cultivation of his land."—*Am. Agriculturist*.

"This truly valuable work forms the only complete treatise on the whole
subject to be found in any language."—*Blackwood's Magazine*.

"The most complete account of Agricultural Chemistry we possess."—*Royal
Agricultural Journal*.

"We only wish it were in the hands of every farmer's son in the country."—*Durham Advertiser*.

"Nothing hitherto published has at all equalled it, both as regards true science
and sound common sense."—*Quar. Journal of Agriculture*.

"A valuable and interesting Course of Lectures."—*London Quar. Review*.

WATER CURE, FOR LADIES.

A popular work on the Health, Diet, and Regimen of Fe-
males and Children, and prevention and cure of diseases;
with a full account of the process of Water Cure, illustrated
with various cases, by Mrs. M. L. Shew, revised by Joel
Shew, M. D. 1 vol. Price 50 cents.

"A valuable and instructive work on that most interesting branch of modern
medical science, the medical virtues of water."—*N. Y. Express*.

"The authoress has reduced the system to practice, and found it every way
equal in its curative influences to the representations of its many advocates."—*True Sun*.
