

OTTAWA, March 28th, 1894.

MR. JOHN TAYLOR,

Manager Murphy Gold Cure Institute, Ottawa, Ont.

MY DEAR SIR,—Knowing you are always pleased to hear of the well doing of your "Graduates", I must tell you what happened to me last week.

I am now six months a graduate from your institute, since which time I have not had the least desire for any alcohol. On Thursday last, while in my shop, I felt thirsty and picked up a tumbler which appeared clean, went to the tap and filled it with water and drank it off. To my surprise, the same taste came to me as did when you put the desire for liquor from me six months ago. I could not understand it, but on enquiry I found out that one of the men had a bottle of beer, the dregs of which in the glass gave me the nausea I refer to, and which not only nauseated me, but made me sick the entire afternoon.

I am pleased to know the effect such a simple thing had on me, and when I take into consideration the fact that for twenty-four years I had drank, and drank hard, it is most astonishing that in three weeks you could not only, by the Murphy Gold Cure treatment, take away all desire for liquor from me, but that after so many months, the simple act above referred to should have such an effect on me. With best wishes, believe me,

Yours very truly,

ALEXANDER THOMPSON.

HUNDREDS of testimonials can be produced from all over the Dominion testifying to the benefits derived from the various Murphy Gold Cure Institutes, by patients who have undergone the treatment, which is simple, not hard to bear, and takes from them all desire for a poison which is sinking thousands to an untimely grave.

We cordially invite clergymen of all denominations, temperance advocates, Christian workers, ladies and gentlemen to visit our Institution, where they will find everything quiet, respectable and plain, and our Institutes conducted on strict business principles, combined with charity, and where full explanations will be cheerfully given.

JOHN TAYLOR,
Managing Director.

WM. HAY,
Manager.
