Buffalo's strategic location at the east and butlet of Lake Erie-at the entrance of the Niagara River-at the mouth of the great Buflalo Barge Canal-makes it one of the greatest shipping ports of the world.

Hundreds of millions of bushels of grain from the Canadian and American North-west annually pour through this great shipping outlet.

Buffalo is directly connected with the Atlantic Ocean by the Buffalo Barge Canal, which is now being re-constructed by the State of New York at a cost of \$101,-000,000. This Buffalo Barge Canal is the second largest in the world. More tonnage will pass through this canal than now goes through the Suez Canal.

The Buffalo district is the biggest lumber market in the world. Out of 339 different lines of manufacturing recognized by the United States Census Bureau, Buffalo has 200. This is the best guarantee against a general slump in the manufacturing industries of any city.

Over \$235,000,000 is invested in industrial plants on the Niagara frontier. Those familiar with the Buffalo district will realize at once the tremendous manufacturing activity of this great centre. The first thing that impresses the Canadian entering New York State, either at Niagara Falls or Black Rock, is the unusual amount of business activity displayed along the American
