MANY INJURED BY COLLAPSE OF VERANDAH

Crowd Gathered at Hotel in Georgetown to See Circus Parade, Precipitated Upon Heads of Spectators in Street Below—Girl's Skull Was Fractured.

Special to The Toronto World. GEORGETOWN, Ont., May 28.—As a result of the collapse of a verandah of the Bennett House, on which about thirty or forty women and children had collected to see a circus parade about 11.30 o'clock this morning, four persons were more or less seriously injured, one so gravely that her life is despaired of, and ten others are suffering from minor hurts.

Those seriously injured are: MISS MURHART, 12, Glenwilliams, skull fractured. MRS. H. STUCKLEY, Galedonia, bad fracture of the left leg.

MRS. JOHN SAGE, London, face badly cut and bruised, requiring 27 stitches; eyesight threatened; removed to Guelph General Hospital. ANDREW McDONALD, 7, Limehouse, collarbone, shoulder blade and arm broken.

Those less seriously hurt are: MISS HAZEL SCOTT, 13, Limehouse, arm broken. MRS. A. SACHS, Georgetown, wife of the hotel proprietor, badly shaken up, suffering from shock.

MISS McDONALD, 15, Limehouse, face scraped, shock. MRS. MURHART, Glenwilliams, body bruised and head scratched, prostrated over accident in daughter. MISS ROSE WALKER, Georgetown, face badly scratched.

CHARLES SACHS, head and neck hurt, and shock. A. SACHS, proprietor of the hotel, head and shoulders badly bruised, thru falling of the people from the verandah on him. DONALD McKAY, Georgetown, back hurt.

CANTREL, traveller, Toronto, back hurt.

From Outside Points. The victims of the accident were mostly from out of town, and they had come in for the day to attend Isaac's Circus. The greater part of those mixed up in the mishap were upstairs in the Bennett House, which is conducted by A. Sachs, when some person cried out, "Here comes the Circus."

and immediately there was a rush for the verandah. The weight of forty or fifty persons on this structure was too heavy for the supports, which are wooden posts, and those in the centre broke. The falling of the women down for protection also gave way, and the bulk of the crowd was thrown to the street, a distance of twelve or fifteen feet.

Fall on Heads of People. The force of the fall was broken by a big crowd of people who were standing in front of the hotel, and these arrived in automobiles in about half an hour. All of the injured, except Mrs. Murhardt and daughter, and Mrs. John Sage, London, were in a hospital.

As soon as the police standing round recovered from their surprise and shock the work of removing the injured inside the hotel and attending to their wants was begun. A hurry-up call for physicians was sent out, not only to the town practitioners, but also to Acton and Brampton, and these arrived in automobiles in about half an hour. All of the injured, except Mrs. Murhardt and daughter, and Mrs. John Sage, London, were in a hospital.

BROKE WINDOWS AT BUCKINGHAM

Canadian Press Despatch. LONDON, May 28.—Buckingham Palace is to be no longer exempt from the window smashing raid of the suffragettes. It leaked out tonight that between 11 and 12 o'clock last night two militants succeeded in evading the sentries outside the palace. Entering the quadrangle, they began throwing stones at the windows and had smashed two of them when the sentries seized them and took them to the police station within the precincts of the palace, where they gave their names to the police. The master of the royal household refused to prosecute them, and they were released after a few hours' detention.

Royal Household Declined to Punish Militants—Crusade Against Archbishop of Canterbury.

At a meeting of the Women's Social and Political Union tonight, when Mrs. Mansell told of what the two women had succeeded in doing, the audience broke into cheers lasting several minutes. The suggestion that the Queen must be horrified at the treatment meted out to imprisoned suffragettes was received with loud cries of dissent.

Mrs. Mansell strongly protested against the action of the Archbishop of Canterbury in "refusing sanctuary" to Miss Annie Kenney, adding that the archbishop would be allowed no peace until women obtained the vote.

Miss Barbara Whitt, alluding to the raid on Buckingham Palace, said that "Red Thursday" would have results more widespread than had yet been met. One result would certainly be that the women would become more and more determined to cast their chains, hold up their heads and bow down to neither the government nor the King.

PRICE RESOLVED TO GO UP FOR CANADA

Speaking at Canadian Club Banquet in London, Newly Chosen Governor-General Intimated That He Realized Keenly Responsibility He Will Assume.

Canadian Associated Press Cable. LONDON, May 28.—Prince Alexander of Teck had a hearty reception at the Canadian Club tonight. Sir William Ogier presided, and those present included Bishop Stringer of the Yukon, Sir Robert Perks, Sir John Anderson of the colonies office, W. L. Griffith and Prof. Milne.

Responding to the toast of the "Dominion," Prince Alexander said that the occasion was the first time since his appointment as governor-general that he had the opportunity of meeting Canadians collectively. The occasion was all the more important by reason of the fact that most of them were business men interested in the progress of Canada.

Accepts Responsibility. "I realize, too," continued the prince, "that you will be amongst my critics. I want you thus early to feel that, whether I succeed or fail, I have accepted the responsibility firmly decided upon to do my utmost for Canada."

The prince went on to read a written speech, in which he referred at length to recent legislation, and other developments in Canada. His serene highness, however, confined himself entirely to a recapitulation of the facts, offering no comment.

Alluding to emigration, he said that the time might be some increase in the amount there was reason to believe the quality of the emigrants was steadily increasing.

Heated at Accepting. In concluding, he said: "It is naturally some hesitation in accepting an office filled by so many eminent men, but my knowledge of the Canadian character, its stability and reasonableness, and also happy recollections of my brief visit to the Dominion finally induced me to undertake the task."

The president, Sir William Ogier, said that the prince had been struck by a peculiar disease, that of over-propriety, like men who went on a steady diet of lobster and champagne. He was glad the government had acted as a sensible physician. One of his points of interest was to make it a white man's country. The Chinese and Japanese could be excluded, but the case was different with East Indians who were fellow-citizens.

WITNESSES SAY AUTO WAS GOING SLOWLY

After hearing the evidence touching the death of Mrs. W. Gourlay, who was killed when struck by Dr. Pocock's automobile near the Dowling Apartments, on West Queen street, last Sunday, the jury last night decided to postpone the inquest until June 8, so that Mr. Gourlay, who was also seriously injured, may be present. Amongst those who testified last evening were H. E. Meyer, Anna Mullen and Robert Cowan, all of whom declared that the auto was travelling at a slow rate of speed.

P. C. Law, A. Viscik, an automobile expert, and Dr. Russell, who conducted the autopsy, corroborated the evidence of the former witnesses. Mr. Robinette is watching the proceedings for Dr. Pocock, and Mr. J. W. Goodman is acting for the Gourlay family. CHICAGO, May 28.—International arbitration is a thing to be avoided, except as a last resort to prevent war, asserted Justice Riddell of Toronto, in addressing the Illinois Bar Association here tonight. There is a thing called honor, burning and discontent might arise over the subsequent decision. We in Canada still remember the Alaska boundary award," he added.

NEW I. C. R. ENTRY INTO MONTREAL

Branch Line of N. T. R. Will Probably Have Terminal in C. N. R. Station.

By a Staff Reporter. OTTAWA, May 28.—The government has made real progress in its public ownership policy. When the supplementary estimates were brought down today there appeared an item of one million dollars to start building a branch line to connect Montreal with the N.T.R.

The view taken by the government is that it is better to build this road itself than to raise money for other individuals to build it. The road will run in a north-westerly direction. It is also believed that the Montreal terminal of the new branch line will be the C.N.R. station. If this becomes a certainty it may lead to a new arrangement regarding the entrance of the Intercolonial into Montreal. As the government will be a part owner of the C.N.R., the indications are that the C.N.R. terminal in Montreal may become a government railway. It would also be a convenience for the C.N.R. in using the I.C.R. as its outlet to the east.

In referring to the prohibition platform of the Liberal party, Mr. Price spoke of the many opportunities that Mr. Rowell had of bringing the liquor question before the legislature during the years from 1894 to 1896, when the Ross Government was in power. This was his chance to abolish the bar, and he neglected it. "Where," he asked, "was Mr. Rowell at this period?"

"On the Minnie M." came the reply from the rear of the hall. When the laughter died, this reply had died down, the speaker went on to point out that it was now too late for an action to come forward with a prohibition policy, because many things which he proposed doing had already been done, or were being done already, and in a methodical and business-like manner.
