T. EATON COMITTED

190 YONGE STREET, November 9, 1897.

An interesting feature of the Basement is the Doll Department, which is now complete Show, with a full assortment

of Dolls of every kind, with prices ranging from 5c apiece up to \$15. You'll find China Dolls, Bisque-Dolls, Nankeen Dolls, Rubber Dolls, Indian and Nigger Dolls, Rag and Linen Dolls, Hair-stuffed Dolls, "Yellow Kid" Dolls, Dressed and Undressed Dolls, Sleeping and Speaking Dolls and Dolls with moving eyes, curly hair and pretty faces. On the whole, a perfect wonderland—as interesting to the old as to the young. Now is the time to visit the department, and, as a matter of fact, this is the best time to buy, while the assort-ments are complete.

pox, cholera, yellow fever and all known plagues kill in fifty. Tens of thous intelligent people recognize that

threatened by this deadly disease, but take no precautions against it.

Consumption approaches its victim step by step. First there is a little 'out of sorts' feeling, the digestion isn't just right, the appetite falls off, the liver is inactive, the assimilation of the life-giving elements of the food is imperfect, the blood gets impure and the body is improperly nourished. These conditions get worse and worse. The heart through the arterial system is pumping thin, poisonous blood into every organ of the body. The organs that are inherently weakest break down first. Ordinarily the lungs. As the last straw that breaks the camel's back comes a cold, however slight. This, with the accompanying cough, completes the work and an invasion of the germs of consumption follows. Dr. Pierce's Golden Medical Discovery cures of per cent. of all cases of consumption. It corrects the conditions that lead up to it. It is the greatest blood-maker and flesh-builder known.

K. C. McLin, Esq., of Kempsville, Princess

est blood-maker and flesh-builder known.

K. C. McLin, Esq., of Kempsville, Princess Anne Co., Va., writes: "When I commenced taking your 'Discovery' I was very low with a cough, and at times spit up much blood. I was not able to do the least work, but most of the time was in bed. I was all run-down, very weak, my head was dizzy, and I was extremely despondent. The first bottle I took did not seem to do me much good, but I had faith in it and continued using it until I had taken fifteen bottles, and was one year ago. People are astonished, and say, 'well last year this time I would not have thought that you would be living now.' I can thankfully say I am entirely cured of a diseas which, but for your wonderful 'Discovery,' would have resulted in my death."
