Chicago Cattle. Marshall, Spender & Co. wired J. G. Beatty at the close of the session that the widest market and the widest opening range in prices within the memory of the oldest trader was the feature to-day.

Every broker and commission house was swamped with orders, and the quotations were at times 2c away from the actual market. There was an enormous amount of both buying and selling orders at first, but after the market quieted down a little the buying orders predominated.

The high figures at the opening were the high prices of the day. The market closed strong and with no signs of a let-up in the outside investment buying. Liverpool cables came seasonably higher, being equal to 3 1/2 to 5 1/2 cents higher than Saturday.

There was a falling off of 3,000 bushels in the world's shipments. There was a flood of further damage reports from Kansas and Nebraska, and the cold weather still prevails in the northwest, with two inches of frost in the ground this morning. One's opinion of the immediate course of the market is of little value, and we only desire to caution our friends against over-optimism.

national bulls, which was forced in order to permit traders to check up their books and take a long breath for a fresh start. Items of interest during the session included a decrease of nearly 2,000,000 bushels in visible supply, and reports from Kansas and Nebraska, claiming further depredations in the former state by green bugs, and their appearance in the latter. Northwestern countries, especially Canadian provinces, sent most pessimistic reports regarding the outlook for seeding. While the movement for a time may be erratic, we do not look for a very big setback, and look to see prices cross the dollar mark permanently.

Corn and oats were moderately active, but manifested little independence in strength, their movement being influenced very largely by trend in wheat. We think they are a safe purchase on all small declines. Melady & Co. had the following at the close: Wheat—Market has taken enormous selling to secure profits to-day without developing fundamental weakness. The prediction of rates and cooler in Kansas, and the southwest, attracted some attention, but, as conditions in the Canadian northwest still point to a crop failure, all coverings found ready buyers. The long wheat has passed into new hands, and as the public has the market, it is safe to predict that present holders will not resell except at higher prices.

One crop report may again influence and bring outside buying. We look to see one sell higher. Corn—Lateness of season and strong cables, together with advance in wheat, resulted in a sharp advance in prices. The demand is large, and the higher prices do not deter buyers, and the market is very active. The season is late and sentiment in corn favors higher prices.

One crop report may again influence and bring outside buying. We look to see one sell higher. New York Dairy Market. NEW YORK, May 13.—Butter—Steady; receipts, 3021. THE WAY TO MAKE MONEY IN MINES IS: BUY SHARES in a new property well located. DON'T wait until the first profit has gone to others. BUY a stock at the low points. SELL at a good advance. DON'T try to take the dividends and the increase in value. Let the other fellow have a chance.

LARDER LAKE is a new gold field, untried till now. Ore running into hundreds of thousands of dollars per ton has been uncovered here. COBALTS have been sidetracked in the mad rush to get holdings around the first discoveries at Larder Lake.

THE GOLD MINT PROPERTY IS ONE OF THE FIRST. Mr. H. Dreany, who is a well-known practical mining man, left on Thursday to examine the property and arrange for the placing of the necessary plant and machinery on the ground to open up the mines at the earliest moment.

All the claims of the "GOLD MINT CO." carry veins of quartz with free gold in them. Another chance like this is not likely to occur in a lifetime. We do not fix the value of the stock of the "Gold Mint" at 10 cents per share, but make a ground-floor offer to get in with us and develop the property. The Right of Way mine at Cobalt was put on the market at 15 cents per share, and is now selling at \$5.00 per share. The Waymakin and Hudson's Bay shares sold at 25 cents, and after paying a dividend of 4,500 per cent. in two years are selling for \$190.00 per share and had to get.

We are making another offer. Now is your chance again. We believe it is worth Five Dollars per share, and will sell there before another year. As a stock is being taken rapidly, the subscription list will close on Wednesday, May 15. Send in your order now and we will do what we can for you.

OFFER We offer the balance of 100,000 shares GOLD MINT stock at TEN CENTS PER SHARE, and advise its purchase on location, formation and general natural advantages. Montreal Live Stock. MONTREAL, May 13.—Special.—At the Montreal Stock Yard, west end yards, receipts of live stock for the week ending May 11 were 1346 cattle, 88 sheep and lambs, 3217 hogs and 1854 calves. Supplies to-day for local consumption consisted of 1200 cattle, 20 sheep and lambs, 1870 hogs and 900 calves. A feature of the trade for cattle, an advance of 1/2c per lb. paid in some instances by butchers for an extra choice steer, but for the average quality of cattle prices were firm but unchanged from a week ago. The feeling, however, is strong, and the general impression is that cattle will sell at higher figures between now and the end of June. Cables from Liverpool on Saturday were firm for cattle. The price showed no important change from a week ago, and on account of the high prices demanded here for choice stock, exporters showed little disposition to operate. A few extra choice heaves sold at \$5.55 to \$6 per 100 lbs. Choice stock brought 5 1/2c to 5 3/4c; good at 5c to 5 1/2c; fair at 4 1/2c to 4 3/4c; lower grades at 3 1/2c to 4 1/4c per lb.

There was a firmer undertone to the live stock situation. In sympathy with the recent advance in prices, ranging from 2 to 5 per cent. for Canadian bacon from the Liverpool, London and Bristol markets. But, owing to the fact that supplies of hogs were fairly liberal, no advance in prices was established, but the tendency is no doubt towards a higher level. The demand from packers and dealers was good, and an active trade was done, with sales of selected lots at \$7 to \$7.25 per cwt., weighed off cars.

Supplies of sheep and lambs were small, for which the demand for local consumption was good, and prices were firm. Sales of sheep were made at 5 1/2c to 6c, and lambs at 4 1/2c to 5c per lb., while spring lambs sold at \$4 to \$7 each. Calves continued to come forward freely, but the bulk of them are of very poor quality and not fit for human food. But, notwithstanding this fact, there is a demand for them at \$1 to \$2 each, while fairly good stock bring \$4 to \$6.

BADLY HURT BY FALL. Jesse Lawrence, 552 Davenport-road, employed by the Canadian Art Store Co., fell 25 feet from a scaffold at Mr. Almie's new house, Glen Grove, and sustained a fractured hip, cuts and injuries to head, a broken rib and internal injuries. Dr. Jeffe attended him and Harry Ellis' private ambulance took him to the Western Hospital. Hit by a Street Car. William Burrows, 65, was knocked down by a street car at Queen and Jarvis yesterday and rendered unconscious. The car hit an express wagon, which hit Burrows. The man was taken to St. Michael's Hospital.
