

COBALT --- Sales of Mining Stocks Are Gradually Increasing --- COBALT

OPTIONS CLOSE STRONG AT CHICAGO MARKET

Rally in Wheat Futures Well Held at the Week End—Liverpool Firm.

World Office, Saturday Evening, Sept. 21. Liverpool wheat futures closed to-day 1-8 higher than yesterday, and corn futures 1-8 lower.

At Chicago, Sept. wheat closed 1-3c lower than yesterday; Sept. corn 3-8c lower, and Sept. oats 1-1c lower.

Winnipeg car-lots to-day, 54; a year ago, 285.

Chicago car-lots to-day: Wheat 181, contract 12; corn, 653, 292; oats, 236, 5.

India shipments for the week, 1,480,000 bush, against 664,000 bush, last week and 472,000 bush, last year.

Shipments from Australia for the week amounted to 320,000 bush, against 368,000 bush, last week, and 785,000 bush, a year ago.

From France an official report states that the wheat crop this year is as follows: With previous years comparisons: 1907, acreage 16,111,000; 1906, acreage 16,002,000, yield 37,040,000; 1905, acreage 15,975,000, yield 37,000,000.

Canby & Co., G. Beatty: When the wheat shorts are all in, a sharp setback will certainly take place. We would advise purchase of corn on all sharp declines, as it is worth the money compared to all other products.

Bradstreet's total clearances: This week—wheat and flour, 4,241,000; corn, 293,000; last week—flour, 5,292,000; corn, 877,000; last year—flour, 4,670,000; corn, 646,000.

SALES GROWING LARGER IN THE MINING MARKET

Sentiment Becomes More Optimistic, and With Money Easy Advances Are Expected.

World Office, Saturday Evening, Sept. 21. For the week just closed, Cobalt stocks have acted firmer, which might suggest brighter days in the near future for mining shares.

Altho from day to day there does not appear to be any great activity, yet, taken from week to week, the volume of business in Toronto and New York is gratifying, and surprising to the casual observer or investor, who does not closely follow the market.

In Cobalt Central alone over 200,000 shares changed hands during the week; in Silver Leaf 100,000, and so on, until the list swells into respectable figures, and furnishes a theme for congratulation.

This activity must mean something, and is thought to augur well for the future. It apparently shows that at no distant date, when money again loosens up and the financial fabric is more stable, a re-generation will occur capable of surprising the sanguine Cobalter. When once the monetary tide turns, the reign of the bear dynasty will be over and a bright new world will be acceptable in every sense of the word.

Almost every day during the past week there have been recorded stories of new discoveries in the north country, which will continue to stimulate confidence and hope.

It must be remembered, too, that during all the weeks that mining stocks have been dormant, ore in large volume was shipped to the smelters with unbroken regularity, which, after all, is the true basis of Cobalt's greatness.

THE LAST DAY

You can subscribe to our Underwriting offer and get an interest in the great CRAWFORD MINES AT OTTO LAKE

On the basis of 100 shares of Crawford Mining Company's Stock for \$15.00 subscribed to the Underwriting, will be Wednesday, September 25th

After that date CRAWFORD STOCK will be at a HIGHER FIGURE IF ANY CAN BE PURCHASED AT ALL

For some time we have been giving information about the Crawford mining properties, located at Otto Lake, about 60 miles north of Cobalt and 18 miles west of Larder Lake.

Some people may think that what we have said about the wonderful discoveries recently made upon these properties is exaggerated.

We wish to state that we have been giving actual facts about these properties, just as the conditions warrant at this time. Mr. Crawford, who is an extremely conservative and careful mining man and a man who we know would not misrepresent facts, says that our statements about the Crawford properties are conservative and that the proposition will stand much stronger statements than we are making.

Perhaps the best evidence we can give as to the probable value of these properties and this investment is the fact that nearly all of the fifteen miners working in these mines are buying every share of the Crawford stock they can pay for. Many others, including merchants in Englehart and Boston, and parties who have seen the properties within the last few days, are buying into this proposition. These men are on the ground and know the condition of these properties.

NO—We have been stating facts about these properties, and have given it as our honest belief and opinion that they will make one of Canada's greatest mines. We think this is a rare opportunity—one of those mining investments that makes people rich.

The Crawford properties consist of six 40-acre mining claims at Otto Lake, about 60 miles north of Cobalt. The T. & N. O. Ry. runs right through the properties.

A good water power is on the properties, also plenty of timber.

Work has been in progress under the personal supervision of Mr. Crawford, a very careful, conservative and capable mining engineer, for the past three months—about fifteen men employed.

There has been more development work completed on the Crawford properties than any mining properties north of Cobalt. Work will continue all winter.

This development work has opened up large and permanent veins of ore, carrying gold, silver, nickel, lead and other minerals.

The Crawford Company is now being incorporated for only 600,000 shares of \$1.00 each. Mr. Middleton Crawford will be President and Manager; Mr. D. H. Hulbert, of D. H. Hulbert & Co., will be Secretary, and Mr. I. A. Spear, now of Englehart, will be Treasurer. The main office of the Crawford Company will be at 59 Victoria Street, Toronto.

Make your application at once. Get an interest in a straightforward, legitimate mining enterprise—one that will be conducted honestly and squarely in the interests of all stockholders. These properties give great promise of developing into one of Canada's greatest mines.

Any person can subscribe for one or more of the \$75.00 memberships in this underwriting. We will give 100 shares of stock of the Crawford Mining Co. (all stock full paid and non-assessable) for each \$15.00 paid in.

Make all applications and payments to the Financial Agents. If more convenient, one-half the amount of your subscription can be paid with order, and balance in 30 days. Take as many of the \$15.00 memberships as you can. If possible, call at our office and inspect a large quantity of ore received from the Crawford properties. Office open daily until 6 o'clock. Applications mailed Wednesday, or telegraphed, followed with remittances, will be accepted.

Hold your Crawford stock, and buy every share you can pay for is our best advice.

D. H. HULBERT & CO., 59 Victoria Street, Toronto, Can.
