

Those already printed are, "A Tabular view of Minerals which decrepitate with heat, by Captain, now Major Baddeley, R. E.:"—"Notes on Ungava Bay and its vicinity, by W. H. A. Davies, Esquire:"—"Notes on the measures adopted by Government, between 1775 and 1786, to check the St. Paul's Bay disease, by the Hon. A. W. Cochran;"—and "A Comparative view of the more striking qualities of the French and English Languages, by the Reverend D. Wilkie LL. D."

The Council have pleasure in reporting that the customary aid of £50 was received from the liberality of the House of Assembly, in addition to the sum of £300 advanced by the Executive Government, pursuant to an address of the Legislative Assembly, at the close of the last Parliamentary Session, in aid of the exertions of the Society to procure transcripts of interesting public documents, essentially valuable in this Province; the copying of which was stated in the last Annual Report of the Council to have been satisfactorily commenced at Albany, in November, 1845, by Mr. F. Glackemeyer, under the auspices of the Committee of this Society on Historical Documents. The Council have now to report, that during the past summer Mr. Glackemeyer continued his task in the most satisfactory manner; and the results of his labors are now upon the shelves of the Society, bound in seventeen folio volumes, in manuscript, being copies and extracts from documents procured in Paris and London, by Mr. Brodhead, now Secretary of Legation, in London, for the United States, and by him deposited in the Archives of the State of New York, at Albany. Amongst the documents so copied for this Society from those obtained by Mr. Brodhead, in London, will be found many papers both French and English, connected with Canadian History, previous to the Ame-
