COLORED WAR IN THE SOUTH'

Attempt Made to Wreck a Plant System Passenger Train at Liberty City, Ga.

Liberty City, Almass Mill, where the negro Smail, one of those said to have taken part in the murder of Curtis, was killed. The switch lock was broken, and ties were placed an the track, but the arrival of a freight train shead of the passenger. Three miles of wire along the line of the Plant System have been cut, it is believed, by negroes, buring the night several negroes were taken from their houses and severely whipped by crowds of whites for alleged incendary speeches they had made. Thus incensed the negroes very much, and was ecademized by the more conservative whites of that section.

About 1 o'clock this morning a smail shop occupied by a negro, at Liberty City, was found on fire. A crowd gathered and a man named Gordon threw a keg of powder into the flames. Gordon was seriously, if not fatally, burned. The rumor then spread that the negroes intended to attack and fire every house in and around Liberty City. This led the Sherift to call on the Governor for troops, saying the matter was beyond his control. Detachments of tre two cavalry troops in Liberty County and armed citizens are patrolling the streets of Liberty City to-night, and most of the women and children have left.

of 20,000,000 Bushels.
Winnipeg, Aug. 17.—(Special.)—The 'rop'
reports to hand to date are more encouraging. In an interview General Manager Thompson of the Oglivie Milling Co. stated Thompson of the Oglivic Milling Co. stated that after a careful estimate the wheat yield for Manitoba and the Northwest Territories would not this year exceed 20,000.000 bushels. This, in his opinion, is a half crop, or probably a little less. A full crop, with the acreage under cultivation this year, should have been between 40,000,000 and 50,000,000 bushels. Rain, Mr. Thompson says, has done a little damage to wheat, and what is now required is dry weather. Harvesting is now general in every part of the province.
