MR. WHYTE'S WORLD-GIRDLING

TRIP.

Montreal, June 3.—(Special.)—Mr.William
Whyte, assistant to the president of the Canadian Pacific Railway, started this evening on his round-the-world trip, his intention being to sail from New York

in the farm—eats, with the thermometer at 90 degrees, a dinner of boiled ham, potatoes, bread and butter, and ple, with coffee and cream. This is not an unusual nor an overdrawn bill of fare. With the exception of the little lean in the ham, the dinner is entirely carbonaceous, leaving the man who is in the field without nitrogen, the muscle-repair food, of which he is in need during the working hours.

Thrown Twelve Feet.

Ind and Sea Coast Fisheries as to Jurisdiction.

Ottawa, June 3.—The British Columbia fovernment has stated its willingness to assume the duties in regard to the fisheries, like the full digment of the Supreme Court placed upon the province. It asked when the engine strack the wagon fairly in the middle. The young man who was driving was hurled 12 feet in the air and full on his hands and feet, being marvelous by to those who saw it, apparently very little injured. Dr. Niemeier attended him and found no bones broken and the infalled some power and found no bones broken and the infalled some power and found no bones broken and the infalled some power and found no bones broken and the infalled some power and found no bones broken and the infalled some power and found no bones broken and the infalled some power and knees. The wagon box and wheels were being the received were being that for the product we wants to know if similar provinces in the middle. The young man who was driving was hurled 12 feet in the air and found no bones broken and the infalled some provinced in the columbia. In the satisfactory to British Columbia, in the satisfactory to British Columbia government here is unitedle at the weening on his round-the-world trip, his devening on his round-the-world trip, his deviction, and freen near to saume the duties in regard to the fisheries, which the fall willing him. Intention being to sail from New York of Wednesday. He will secure a function, and then proved to Vialdivostock, accomplishing the mission suggested by President Stangeness and adsatic Russia to Vialdivostock, accomplishing the mission suggested by President Stangeness and the government here is united to the wild without nitrogen, the becuite will method to vialdivate knees. The wagon box and wheels were burled three or four hundred feet away and broken to slivers. The horses were not injured, and were caught shortly after at the mill. The accident, which happened like a flash, was witnessed by several people, and general wonder is expressed —at such an encounter with a fast running train such an encounter with a fast running train of fifty men attacked the lock-up for the federal authorities they will refund the revenue taken, less the expenses of nity men attacked the lock-up for the purpose of resculng Harvey. Windows were smashed, the iron bars being broken, and Harvey was carried off triumphantly. Clan MacKenzie" Scotch Whiskey Is daily growing in popular favor. It is said by judges of good Scotch whiskey to be the pure article. All first-class hotels such an encounter with a fast running train the decision is against of fifty men attacked the lock-up for the federal authorities they will refund the revenue taken, less the expenses of were smashed, the iron bars being broken, and Harvey was carried off triumphantly. Clam MacKenzie" Scotch Whiskey Is daily growing in popular favor. It is said by judges of good Scotch whiskey to be the pure article. All first-class hotels such an encounter with a fast running train the federal authorities they will refund the revenue taken, less the expenses of military in sleeping rooms, dusty being stock, of household knowledge. Remedies are equally well known; the judicious selection of cooling, well-blended foods taking the place of the green, succulent vegetables containing starch; pure water; light, comforting the hot weather, are perfectly well understood; they are chiefy overfeeding, lack of purpose of resculng Harvey was carried off triumphantly.

Turkish Baths oure Colds and Rheu matism—129 Yonge.

To the body.

Oatmeal and well-cooked preparations of wheat should take the place of meat and potatoes for breakfast. Frequently when our country neighbor wishes to express the strength of a person he says: "Why, he is as strong as a horse." This horse strength, it must be remembered, comes from oats. There is no law compelling us to feed a horse entirely on oats or a man entirely on potatoes. Observation would make us think that the constituents necessary for the maintenance of high bodily visor, and are one of the Sliced Berries. Turkish Baths oure Colds and Rheu

Turkish Baths oure Colds and Rheu
trary might be true. Oats possess all the maintengance for the maintengance of high bodily vigor, and are one of those complex foods, especially with the addition of milk, capable of supporting life for an indefinite period. The cooking and manner of eating make a difference in their digestibility.

Slow cooking and slow eating should be the motto with all sorts of food, but for cereals or starchy foods this becomes a Melon.

to last for two; each careful warming over aids its digestibility and makes it sweeter. Lean Meats May Be Used Once a

Day.

Lean meats may be used once or twice a day; eggs, concentrated nitrogenous food, showers were on the Brandon section may always take the place of meat at one meal. It is not necessary that meat should be attached the attached the attached to the attached the attach have been published giving recipes for palatable and sightly dishes; but too many of these dishes require hours for preparation, and when prepared are totally unfitted to build the muscles, nerve and brain of the average working person—and the farmer and his wife certainly come under this heading.

The wife works equally with the man on the farm, especially if she be on a ranch is alt and pepper and put aside; next day and a portion seasoned with salt and pepper and put aside; next day.

Attorney-General Campbell returned from the east yesterday. He would say noth the saw away nothers and the strength of the housewife. It requires the same amount of fire to cook half a peck of string beans as it does to cook a smaller quantity; one part may be put aside and served cold with a fittle livench divessing for the next day's dinner. Cauliflower and cabbage are equally good. cold or hot. Green peas may be very carefully cooked, and a portion seasoned with salt and pepper and put aside; next day.

atable and sightly.

Sunday's dinner may always be prepared on Saturday. Potatoes may be boiled, and on Sunday hashed, mixed with cream sauce, and heated in a double boiler.

Farmers' Wives Do Not Lead Easy Lives.

The housewife, who must be chamber maid, seamstress, cook, and frequently laundress, must study menus that will build the brain and brawn of her family, take as little time as possible to prepare, and saide. Fruit should be used during the summer, and cooked desserts saved for sundays did not refused to say anything for publication.

Mr. Baker Departs.

W. R. Baker, assistant to Second Vice-peas, and even squash, may be carefully cooked on Saturday and reheated on Sunday. Such desserts as old-fashioned rice pudding, and those made from gelatine, also up custards, may be made and placed aside. Fruit should be used during the summer, and cooked desserts saved for
