Discouraged-The Great Kidney All Present. The North Renfrew vacancy was brought up in the legislature yester-day on a question by Mr. Matheson: Has the writ been issued to fill the vacancy in the north riding of the County of Renfrew; if not, what is the cause of the delay, and on what day did Mr. Speaker issue his warrant? The Premier replied: The Speakers warrant for the issue of the writ in the north riding of Renfrew is dated March 23, 1903. # STRENGTH RESTORED

Now that it is generally conceded that "Electricity is the Basis of Life," you should give some credit to the theory of my teachings.

It has been demonstrated that Electricity is the most natural of all remedies for the cure of the ailments which afflict the human body. Every physician of modern ideas is an advocate of electrical treatment, and concedes that it stands far above all medical agents, especially when applied to diseases relating to the nervous system. This is a practical admission of the power of electricity over the nerves and vital organs, hence it must be evident to a thinking person that a means of intelligently applying this wonderful agent should be the greatest boon to suffering humanity.

When we consider that our nervous system, which is the fountain of life to the kidneys, liver, stomach, brain and the various organic

functions of the body, depends for its sustenance upon the vitalizing element of electricity, and that without this life it is impossible to keep up a normal condition of health in the body, it is easy to understand that a waste of this life principal will be followed by weakness and disease, and it is also easy to understand why the natural restoration of this electric force in the nervous system will saturate the various vital organs which have become weakened with a new energy which will place every vital part of the body in a state of natural health.

decide that the cause was "heart failure." Does anybody know what that means? What made the heart fail? The heart never fails without reason. Find that reason and you will find the actual cause of death. I say it is, nine times out of ten, exhaustion of vitality. The heart stops beating because the power which runs it is shut off. That power is vital energy,

Let us take for example this case—Miss Adamson of Ottawa, Ont. Suppose she had died suddenly in one of those spells, what would they ascribe her death to? "Heart failure." Not sufficient strength in the nerves to keep up the action of the heart. Read this letter :-

Dr. McLaughlin : Dear Sir.—A few lines in regard to your Belt. I may say I wore your Belt only one week myself. My sister has been doctoring for close on two years. The doctors Dear Sir.—A few lines in regard to your Belt. I may say I wore your Belt only one week myself. My sister has been doctoring for close on two years. The doctors claimed that she had no blood. She was tired and worn out all the time. At night she would wake up and would be perfectly numb. In the above time she was treated claimed that she had no blood. She was tired and worn out all the time. At night she would wake up and would be perfectly numb. In the above time she was treated claimed that she had no blood. She was tired and worn out all the time. At night she would wake up and would be perfectly numb. In the above time she was treated claimed that she had no blood. She was tired and worn out all the time. At night she would wake up and would be perfectly numb. In the above time she was treated claimed that she had no blood. She was tired and worn out all the time. At night she would wake up and would be perfectly numb. In the above time she was treated at attreate the third night the numbness left her, and she has not felt it since. So, Doctor, if the Belt does me no good I will be well satisfied, for I am sure it is only a mat-ter of a little time till she will be all right. She is gaining every day. I will write you later on. Yours truly, W. G. ADAMSON, 136 Friel Street, Ottawa, Ont., ter of a little time till she will be all right. April 11, 1903.

I believe in finding the cause of all such troubles and removing it. If it is in the stomach, I restore the power there if in the system, I build up the nerve force; in the kidneys, the blood or the organs of generation, I find the cause and supply to the body the needed help, and after I have removed the cause Nature will cure the disease.

Too many physicians make the mistake of treating the condition and overlooking the cause. If a heart is weak they stimulate it with drugs, when they ought to devote the treatment to building up the stomach, which is the real cause of heart failure. Every time the heart is stimulated by a drug its vitality is strained, and one day it will simply stop short.

Take Rheumatism; it is found the world over ; it does not respect age or sex, rank, condition or occupation. We believe we are justified in saying that no other disease numbers so many subjects ; from no disease is the sufferer rendered so helpless, or deserving of pity.

### NOTE THE ACTION OF MY METHOD ON THESE CASES.

### **READ MY OFFER:**

I know how skeptical people are after paying hundreds of dollars to doctors without getting any benefit, and, knowing that any man would willingly pay for a cure when he gets it, I now offer any man a complete restoration to manly vigor and health before he pays a cent. There is no de-ception about this offer either in the making of it or carrying it out. All I ask is fair security that I will be paid when the work is done; this any honest man will be glad to give. I take all the chances—you take none. Isn't that fair? Do you want any better evidence of my confidence in my belt? Now, if you suffer do not lay this aside and say you will try it later. Act upon it to-day—NOW. Tell me what you are suffering from and I will arrange a Belt with all necessary attachments suitable for your case and send it to you and you can
