## BRITISH-AMERICAN POLICE CO-OPERATE IN TRACKING SPIES

Former Give Valuable Infor- Donald MacMillan Tells Friend D. H. Wallace, "League of mation on Best Methods.

MUST WATCH WIRELESS TO RETURN BEFORE LONG CLAIMS ACTIVE SERVICE

London Strongly Favors Exe- Expects To Return Home In Says He Was Through Many of cution of First Spies Captured.

London, July 12—(By Mail).—The most effective method of combating the content of the found in co-operation between content of the found in co-operation between the foliar country for the past four times and the police, according to opinion expressed by high officials and officials of the two forms and the police and military agents were a few of a fairly good type to be found in co-operation between the first content of the found in the foliar country for the past four times and the police according to opinion expressed by high officials and officials of the war. England of the war, England of the war, England the police and military agents when the first content of the found of

the American agents have been furilar with the wind information, not only in regard to persons but in regard to methods of catching those who are working for Berlin.

The compact wireless apparatus, easily moved about and within containers that disguise its real nature, is to be especially guarded against. Scotland Yard says. Considerable difficulty has been experienced here with the wireless and the police now freely employ an instrument through the use of which these enemy instruments are detected.

An Interesting Point.

Scotland Yard is intensely interested to the work that is being done in the United States to discover how the Germans found out when American destroyers were due in English waters, and how they discovered the location of the ocean rendezvous of the transports bearing the first American contingent. Obviously, the English officials say, German's spies are to a position to become familiar with the most secret of secrets in Washington, and they are anxious to render any assistance they can toward weeding them out.

and they are anxious to render sistance they can toward weeding WORKING PARTIES STILL

RECRUITING IN CHICARO SHOWS BIG INCREASES

Chicago, Ill., July 27 .- Recruiting activities today in the combined British-American drive will centre in a mass neeting to be held tonight at the First Methodist Church in the downtown sec-

As a result of the patriotic demonstration here yesterday, in which thousands of soldiers paraded the streets with a detachment of the 48th Highlandan armies showed a marked increase. The recruiting offices of the United ates enlisted 200 men during the day, gures for the British recruiting were t given out, but the results are said have been highly satisfactory.

Passport - Forging Bureaus New carrots, per doz.

Copenhagen, July 27.—Information obtained here shows that more effective measures than are now in force for supervision of Scandinavian liners plying to the United States must be put into effect if the passage of numbers of German agents and couriers and the transmission of intelligence by German spies in America are to be cheeked. It is said authoritatively that German pass-forging bureaus are euipping German agents in Scandinavia with fraudulent Scandinavian passports.

Green peas, shelled, qt 15 Rhubard, per doz. 30 Radishes, 2 bunches. 5

Fruit.

Raspberries, per box 18 Black cherries basket 1 20 White cherries basket 1 20 White cherries basket 1 80 Red cherries, basket. 80 Strawberries, box 18 German agents in Scandinavia with fraudulent Scandinavian passports.

These are copied from genuine originals in the same fashion as American passports have been counterfeited photographically by the notorious bureau of the admiralty.

Deceit Is Easy.

New names and descriptions are subbureau of the admiralty.

Deceit Is Easy.

New names and descriptions are substituted occasionally, but sometimes the only change is to attach a new photograph of the ostensible holder. Every liner now sailing to the United States carries 200 or 300 passengers, principally of Scandinavian nationality. There is little to prevent the intelligence department of the German admiralty, now under the clever leadership of Capt. Carl Boy-Ed, former naval attache at Washington, from planting any desired number of agents, equipped apparently with genuine Scandinavian passports, among the passengers. There is reason to believe this is being done.

passports, among the passengers. There is reason to believe this is being done.

American Traitors?

Various attempts to recruit neutrals for courier and information missions to the United States have been reported more or less definitely. The Scandinavian police also could tell a tale of Americans who are employed in the German secret service. They are working against the interests of their own country and of neutral states, whose hospitality they enjoy, as well as against the European Entente. It may be difficult to stop the activities of the two latter classes.

WESTERN YIELD OF **GRAIN ABOUT EQUAL** TO 1916 ON C. N. R.

Vice-President Gives His View on Prospects.

Toronto, July 27.—Owing to conflicting reports regarding the progress of the growing grain in Western Canada, Vice-President Hanna of the Canadian Northern Railway, wired M. H. Mac-Leod, general manager of western lines, and has received the following reply. "From personal observation the cropalong the main line is in good condition as far west as Maymont. From Maymont to Vegreville the crop is light, on account of the dry weather. On the Goose Lake line the crop is in fair condition from Saskatoon to Rosetown, ight from Rosetown to Hanna, good from Hanna to Calgary. I estimate the Goose Lake crop to be less than last tear.

"Many points in Southern Manitoba to ecrop has suffered on account of dry eather. On other branch lines the top is progressing favorably. It has been raining from Winnipeg to Wadenar the past ten hours; is still raining, and the rain is general throughout buthern Manitoba. This will greatly aprove crop conditions. On the whole e yield along our line should be approximately the same as last year."

WALL STREET EXPERTS TO WORK FOR RED CROSS July .....

New York, July 27.—A number of of olunteers from Wall street will depart than early date for Europe and, unlike anny others sailing for Europe, they will obtobe expected to fight. These men are expert accountants and bookkeepers, and are going to the headquarters of the Red Cross in France, where they fill follow their profession of keeping the assets and liabilities in such shape that the contributors may know just one all the money collected by the Red cross is spent. The enlistment of the countants is part of the new efficiency plan of the Red Cross.

FINANCIAL AND COMMERCIAL

THE LOCAL MARKET

Seasonable fruits and vegetables are expected to feature the market tomorrow, the quality of these classes of produce being likely to be the best up to date that has been offered.

Raspberries will be a particular feature of next week, and according to growers will be sold at prices warranting preserving. They sell at the present time from 18c to 20c per box, a decrease of 5c from the initial value, but about next Tuesday raspberries will probably drop 3c or 4c, as the market for that fruit will be more or less glutted at that time.

Today and tomorrow are banner periods for all varieties of cherries, and housewives should take advantage of the arop 3c or 4c, as the market for that time.

Today and tomorrow are banner periods for all varieties of cherries, and housewives should take advantage of the low price immediately if they intend to preserve. Red cherries sold yesterday from \$1 to \$1.15 per basket. Today, however, a few of a fairly good type sold at 50c at the same rate, but the ket.

Gooseberries and all kinds of the red in good demand, he housed in good demand, he had a good to go demand, he had a go demand he had
