DISCORD OVER PIANOS CONCERT CALLED OFF

Mark Hambourg Will Come Back in April—A Strange Incident—Board of Health Meeting

HAMILTON, Feb. 25.—(Special.)—Miss Jeanette Lewis brought Mark Hambourg to Hamilton this evening to give a concert in the Grand Opera House in aid of the Sick Children's Hospital fund. The performance had to be cancelled because of a dispute as to the make of piano to be used. One firm claimed that it had a contract that no instrument except its make may be used in the opera house, while the pianist had a contract to use another kind. The matter could not be adjusted, and the concert was called off. Mr. Hambourg will give a concert next April.

The deputation will enquire into the chances of getting a supply.
On and after March 1, the Hamilton office of The Toronto World will be located at 18 East Main-street. John S. Scott, agent. Phone 1946.

Board of Health.
The executive of this evening roared the board of control for cutting down the board's appropriation from \$5010 to \$5800. William Farrar accused Mayor McLaren of being influenced by politics in making the salary increases. He found particular fault because the salary of W. Calder, caretaker at Barton Reservoir, had been raised while \$100 had been added to that of the "drone" at the filtering basins. He said the board should appoint a food inspector if the law would permit. Another point on which he found fault was because Dr. Roberts had not been voted an increase. The board will ask council to grant \$7500, which will include an increase of \$300 to Dr. Roberts and the employment of another inspector. The board will not allow the expenses of the dog catching brigade to be taken out of its appropriation.

The executive of the Trades and Labor Council passed a resolution protesting against the controllers instructing the city solicitor to collect costs from James Smith, the workingman, who brought the suit which freed the city from the Cataract power contract.

Rev. R. E. Knowles was the speaker at the evening session of the Hamilton Teachers' Institute convention. He said he felt quite confident that Rev. E. B. Lanceley, who had been reported as saying that teachers would have been misreported.

The Conservative Club held its annual concert and old folks at home entertainment this evening.

A Mysterious Shock.
At 10.30 to-night the city was visited by something that was regarded as an earthquake. Houses in some parts of the city shook so that people ran out in alarm. The shock was accompanied by a noise as if from a heavy explosion.

Buffalo Bench Show—Toronto Kennel Club Excursion.

The Toronto Kennel Club and their friends are going to Buffalo on Canadian Pacific, 9.30 a.m. Empire State flyer, Tuesday, March 1. Special coaches for their exclusive use will be attached to the train. Tickets may be obtained from the committee or at any C. P. R. Ticket Office, at rate of \$2.10 for the round trip, children half rate, and same are good to return on any train March 1 and 2. It is expected there will be quite a number of local canine enthusiasts go over on this excursion.

NAVY IN WARD ONE

Conservatives Urge Government to Give Dreadnoughts.

That the supreme object of Canadian participation in naval defence should be to increase the common strength of the empire, and to promote its unity; and that to forward this movement contributions should be immediately sent to Britain sufficient to build two or more warships of the latest Dreadnought type, was a resolution unanimously passed at a large and enthusiastic meeting of the Ward One Conservative Association last night to discuss the naval policy of the Dominion Government.

A. E. Kemp, the chairman, in opening the meeting said that he believed a crisis was impending between Britain and Germany, and the latter power had an eye on the rich colonies that Britain possessed. It was, therefore, only fair that Canada, which had prospered greatly under British protection should do her utmost in contributing to the national defence. Martin Burrell, M.P., for Yale, said that the Conservative party had to push Laurier to make any move in the matter had always been antagonistic to any move to help the mother country. Sir Wilfrid did not represent the people, and this was the reason that the present government there is no danger of war with Germany, and the face of all the statements made by the prominent British statesmen to the contrary, they still continue to hold back.

W. B. Northrup, M.P., declared that the proposed navy was never intended to fight, but was built with the idea of preventing the German commerce in case of war. He was followed by R. A. Norman, M.L.A., and R. S. Neville, K.C.

D.R.A. ANNUAL MEETING

Col. Hughes Again President—Compliments to Bialay Team.

OTTAWA, Feb. 25.—At the annual meeting of the Dominion Rifle Association held in the railway committee rooms of the commons to-day, Col. Sam Hughes, M.P., was again elected president.

There were but few changes in the list of other officers and of the council. Lieut.-Col. Davidson of Prince Edward Island, Col. Cruickshank of Alberta, and Col. G. W. Wynn of Saskatchewan, were elected vice-presidents for their respective provinces. Capt. Birdwhistle of Ottawa was again elected secretary, and Major E. D. Sutherland, treasurer.

As a compliment to the great work of the Bialay team in 1909, Col. Berram, the commandant of Dundas, Ont., and Major M. S. Mercer, the adjutant, Toronto, were made life members of the association.

Earl Grey, in acknowledging a vote of thanks, said: "We are all patriots, and united in loyalty to an empire of which Canada is destined to become so great a part. My heart is thoroughly Canadian, and I have not had a single unhappy day since I came to Canada."

WONDERFUL DISCOVERY

The age of marvels will never cease, it is said. Watt, Fulton, Marconi, the Wright brothers with their flying machine, have all in turn started the world. It is doubtful, however, if anything of more vital interest to suffering humanity has been discovered than the fact brought to light by Andrew McConnell, of Chicago, that not only is electricity life, but that every organ of the human body is an accumulator of this vital supply and direct it to any diseased portion of the body. As at least 90 per cent of the ills of humanity arise from impaired digestion, he aims principally at showing how each one may for himself strengthen the digestive organs. Over a thousand permanent, and in some cases marvelous, cures have been effected. No drugs or apparatus of any kind are used. The basis of the system is physical, though the mental plays its part. Rev. Dr. Eley, 38 College-street, will cheerfully give any information. Phone North 1078.

The Eureka Vacuum Bottle

The Eureka Vacuum bottle is the only perfectly sanitary bottle made. Also non-breakable. Keeps hot liquids hot for 36 hours. Keeps cold liquids cold for 72 hours. A boon to mothers, farmers, travellers, sportsmen, invaluable in the sick room. In gun-metal finish or handsome autogenic plate. \$2.75.

Write us, anywhere in Ontario, call or order by mail from us, the sole manufacturer. Remember its name, "The Eureka Vacuum Bottle."

| Dickson | 142 | 132 | 141 | 415 |
| Totals | 536 | 506 | 500 | 1542 |

The Well Groomed Man

THE particular and noticeable part of the well groomed man is his hat. It's always different from the other fellow's principally because it has a swagger cut about it, and the name of a big maker in the inside.

Strangest part is that this hat that the well groomed man wears, doesn't cost him any more than the one his indifferent friend purchases.

We want to interest you in the hats we sell, for they are the kind the well groomed man buys. They have the name of a big maker on the inside band such as Henry Heath of London, England, maker to His Majesty, and of Dunlap of New York, who furnishes the Four Hundred with the head gear they wear.

All the spring styles are in. The store will remain open until ten o'clock Saturday night.
