

INSPECTOR IS GIVEN HELP AFTER THIRTY-FOUR YEARS

Montreal Plant of the Canadian General Electric Company to Be Moved to Peterboro.

Peterboro, Feb. 3.—(Special).—At a meeting of the county council here to-day, H. C. Mann of Fenton Falls was appointed as assistant to J. Coyle Brown, school inspector, who has had the schools of the entire county under his charge for the past 34 years.

The town council will have an addition built to the fire alarm here, and are providing for the installation of an electric fire alarm system. It is also proposed to purchase a new chemical engine. The extension of the fire limits is another change proposed in the fire protection policy of the new council.

A dispatch received from Montreal states that the Montreal plant of the Canadian General Electric Company will be removed to Peterboro in the near future. The move cannot be understood at the local offices of the company, since machinery of the Montreal factory was to be moved to Peterboro about a year ago. The works here employ about 200 hands, which is an increase of quite a number over a year ago.

St. Catharines, Feb. 3.—(Special).—The county council here to-day, in compliance with the privilege granted county councils in the recent amendment to the act, passed a bylaw which will be known as the "County Councilors Friends to Poorhouse Inmates Bylaw," providing for the proper burial of inmates of the county poorhouse, who died, and whose remains are not claimed by relatives.

Another Ad. for R. J. The Toronto Railway Company will have its first disposal to-day for almost the first time since the move plant was reorganized. The full 1500 horse power which the machinery places at their command. Four new double-track cars are also in service to-day. The first instalment of 12 which Mr. Fleming promised to install within a very short time.

John H. Ginge. In the death of London on Wednesday of John H. Ginge, one of the best known packers in Western Ontario passes away. He was manager of the Hamilton Packing Company and had been ill for some time. He established the company at Pottersburg eleven years ago, and it is now one of the largest in the country. He was a native of Denmark.

Toronto Beaux Arts Club. The official inauguration meeting of the club will take place at No. 61 Victoria-street, at 8 o'clock on Tuesday evening next. John M. Lyle has kindly consented to attend and give a brief description of the work and studies of the Beaux Arts of Paris, France, and also a slight insight into the methods of the prominent architects in the States.

Extend Toronto Breakwater. Ottawa, Feb. 3.—There are four tenders for the extension of the Toronto breakwater. As they involve various methods of construction, the Hydrographic Survey is getting the opinion of his chief engineer before awarding the contract.

REID GETS SILENT ON RAILWAY ARBITRATORS HAVE DECIDED

Each of Those Who Assisted in the Decision Will Get \$15,000 as a Fee.

St. John's, Nfld., Feb. 2.—(Special).—The finding of the Reid-Newfoundland government arbitrators, taken from the Bank of Montreal to-day, gives the Reid Company \$1,500,000, and reads as follows: "To all to whom these presents may come, greeting: "Whereas, by an indenture, dated in 1904, and made between his excellency the governor of the Colony of Newfoundland, and its dependencies, in council, therein called the government of the one part, and the Reid-Newfoundland Company of St. John's, in the Island of Newfoundland, therein called the company of the other part, it was agreed that the disputes and differences therein mentioned concerning the claims referred to in clause 25 of the schedule to Newfoundland Railway Amendment Act, being first 250,000 feet of land, and thereafter 250,000 feet of land in Cuba that is not good for anything, provided the company in selling, you have an opportunity of continuing to buy the land at \$10 per acre in small lots. Large tracts of 2000 or more acres are still for sale at this figure, but it is almost impossible to buy small lots. The stock and some of it for tobacco, and all the rest for growing oranges. Do not put too much faith in making money out of this crop before it is in the experimental stage, and you must first find what his land will grow, and the cost of delivering to market. You will find in Cuba two fields side by side, and one will grow a certain crop, and the other will not. The land is all shades of grey, black and red in stripes, and all, however, will grow oranges. (B) By all other matters, country, which might arise out of the reference as incidental thereto. And, whereas, we, the said arbitrators, duly considering the same, and the evidence produced, and the terms named in the said indenture for making our award until the 15th day of June next, now, know ye, that we, the said arbitrators, having taken upon ourselves the burden of the said indenture, and having heard the evidence offered by the parties, as well as the arguments of counsel, and having taken the same into consideration, and having purchased all other matters, and things necessary to enable us to make a valid award concerning the premises: Hitherto, we have made and published our award in duplicate, as follows: After making due allowance in respect of the amount of the claim, the company has sustained and will sustain loss and damage, and is entitled to compensation therefor, to the sum of one million five hundred and three thousand and one hundred dollars (\$1,503,100) per annum until paid; and we do hereby award and direct that the said sum and interest shall be paid by the company to the arbitrators, 2.—In witness whereof, we, the said arbitrators, in the Province of Ontario, this fourteenth day of January, 1905, at St. John's, Nfld., "George W. Wrong, Toronto, Ont. (Signed) "P. S. Archibald, "Edward Blake, "Donald McMaster, "Arbitrators."

The claim, which was very elaborate in its scope, as presented to the arbitrators, was prepared by Mr. Plimsoil, chartered accountant of Montreal, while Mr. Croft of Toronto acted for the government.

Obituary. Mrs. Justice Britton died suddenly on Thursday evening under distressing circumstances. Accompanied by a friend, she was passing through university grounds on her way to a reception at the Conservatory of Music, when she complained of a pain in the chest. Dr. Silverthorne happened along and Mrs. Britton was driven to her home in a private car, where she died while being taken to her room. Heart failure was the cause. Justice Britton, who was in Kingston, was notified and returned home yesterday.

Mrs. Geo. Orr. From paralysis, with which she was stricken on Wednesday, Mrs. Geo. Orr, widow of the late George Orr, died yesterday morning at the home of her daughter, Mrs. McAnish, in Ripley-street. She was in her 73rd year and a native of County Tyrone, Ireland. She was for many years a resident of Barrie. Six sons, comprising the firm of Orr Bros., contractors survive. They are: R. J., William, George, Archibald, Alexander and C. W. Winnipeg.

James Fraser. James Fraser, who was a member of the city council for St. James' Ward in 1864, died on Thursday. He was born in Scotland and came to Toronto as a boy. For many years he was in the insurance business.

MAIN, Esq., Superintendent of the Poison Iron Works, Manager Canadian Heine Safety Boiler Co., Toronto. WHITFORD VANDUSEN, Esq., Banker. J. W. CURRY, Esq., K.C., Crown Attorney, Toronto. BANKERS—The Royal Bank of Canada, Toronto; The Royal Bank of Canada, Havana, Cuba. H. W. MAW, Esq., of Dewart, Young & Maw, Toronto; EDWARD L. DELGADO, Havana, Cuba, Solicitor.

Dear Sir, Your letter of the 7th of January to hand, I will gladly give you any assistance I can. I have not visited the tract of land you mention, but I am told that it is very good land. It is good for growing oranges in Cuba that is not good for anything. Provided the company in selling, you have an opportunity of continuing to buy the land at \$10 per acre in small lots. Large tracts of 2000 or more acres are still for sale at this figure, but it is almost impossible to buy small lots. The stock and some of it for tobacco, and all the rest for growing oranges. Do not put too much faith in making money out of this crop before it is in the experimental stage, and you must first find what his land will grow, and the cost of delivering to market. You will find in Cuba two fields side by side, and one will grow a certain crop, and the other will not. The land is all shades of grey, black and red in stripes, and all, however, will grow oranges. (B) By all other matters, country, which might arise out of the reference as incidental thereto. And, whereas, we, the said arbitrators, duly considering the same, and the evidence produced, and the terms named in the said indenture for making our award until the 15th day of June next, now, know ye, that we, the said arbitrators, having taken upon ourselves the burden of the said indenture, and having heard the evidence offered by the parties, as well as the arguments of counsel, and having taken the same into consideration, and having purchased all other matters, and things necessary to enable us to make a valid award concerning the premises: Hitherto, we have made and published our award in duplicate, as follows: After making due allowance in respect of the amount of the claim, the company has sustained and will sustain loss and damage, and is entitled to compensation therefor, to the sum of one million five hundred and three thousand and one hundred dollars (\$1,503,100) per annum until paid; and we do hereby award and direct that the said sum and interest shall be paid by the company to the arbitrators, 2.—In witness whereof, we, the said arbitrators, in the Province of Ontario, this fourteenth day of January, 1905, at St. John's, Nfld., "George W. Wrong, Toronto, Ont. (Signed) "P. S. Archibald, "Edward Blake, "Donald McMaster, "Arbitrators."

This company is the owner of 70,000 acres of very rich, fertile land in the Province of Pinar del Rio, Cuba. This land is suitable to the growth of the finest quality of tobacco, oranges, lemons, pineapples, and other citrus fruits. A small portion of this estate produced last year a large percentage on the total authorized capital of this company. One acre produced last year \$2700 in tobacco. The revenue-producing powers of this estate will not be reduced by sale of lands, as the cultivated portion will be increased by additional plantation. The lands offered for sale can be made as productive within a short period as those at present cultivated. The estate is abundantly watered by numerous streams and fresh water springs. The climate is an perpetual June—no fogs, no mists, no yellow fever. Flowers bloom the year round. Game and fish abound. The temperature is even, so that catarrh is unheard of. Abundance of water and perpetual grass make stock-raising an assured success. New York markets are at its command for all its produce, while the dry months of winter and spring crops gathering of same at a time most advantageous for shipment to Northern markets. 8th.—Nearly all of the staple agricultural products of the tropical and sub-tropical zone are indigenous to Cuba, and are found growing wild in the forests at the present time. Among them are tobacco, cotton, coffee, cocoa, india rubber, oranges, lemons and guava or Manilla hemp. 9th.—It has been demonstrated beyond doubt that the sugar of the best quality can be produced here in greater abundance and more cheaply than in any other country in the world. 10th.—The famous Cuban tobacco from VUELTA ABAJA DISTRICT of Pinar del Rio Province, has never been equalled in any other part of the world. 11th.—It has been demonstrated by American farmers here during the past year that Sea Island cotton will yield from one to three (400) pound bales of lint per acre, bringing from 20 to 25 cents per pound in Savannah, Georgia. This means an average profit of one hundred dollars per acre in six months' time from planting.

12th.—Pineapples in twelve months from the time suckers are put into the ground are yielding a profit of \$100 per acre. 13th.—Oranges, grape fruit, lemons and limes yield a profitable return the third year from time two or three to five years will produce \$500 worth of fruit to the acre. Oranges grow at maturity in Cuba are valued at \$500 per acre, or at three times the price of Florida oranges, as there is no possibility of frosts or freezes. 14th.—Either cotton, tobacco, pineapples or vegetables may be grown to advantage between the rows of orange trees, while waiting for them to come into bearing. 15th.—Vegetables, such as tomatoes, cabbage, egg plants, potatoes, cucumbers, etc., can be raised to yield a profit of anywhere from \$50 to \$500 per acre. 16th.—The finest grazing lands in the world are found in Cuba, and owing to the almost total destruction of cattle during the recent revolution, they are still low in price. The grass is nutritious, abundant and green throughout the year, and never falls. 17th.—The government of Cuba has demonstrated a degree of cleanliness and order that far exceeds the admiration and respect of every fair-minded person in the world. 18th.—Its stability is assured, not only by the guarantee and protection of the United States, but by the fact that the people of Cuba have a complete confidence in their president, in their government, and in themselves. 19th.—There are no taxes on land in Cuba. 20th.—It may be opportune to state that there is no excuse for not securing perfect titles to property since every registrar of deeds in Cuba is a bonded officer of the government, and a certificate from him stating that a piece of property is free from all incumbrances on cloud on its title is virtually a title from the government itself, and cannot be questioned as to its validity. Property rights to-day in Cuba are better protected than in the United States of America. The company intend to erect their own churches and schools.

A BEAR ADMIRAL

Of the Navy Gives Some Points on Coffee. A naval officer of all men has a chance to become an expert on coffee, and when he talks about it, naturally knows somewhat of his subject. A certain famous (now retired) Rear Admiral, whose name can be given by mail, on request of all men, writes: "I have traveled this wide world over, from the Arctic to the Antarctic, and have drunk the best coffee ever grown on this continent, or in the east, made by the best chefs, and am an expert coffee-maker myself. "Of late I noticed that there was something wrong in my dietary, and that I was suffering from indigestion immediately after my coffee. I was becoming sadly constipated, something unusual for me, and was averse to thinking that coffee was the cause of so much inconvenience, but I thought perhaps it would be best to reduce its strength, but it made no perceptible change in my feelings. "At last I thought I would venture to try Postum Food Coffee, a preparation that I often laughed at, as I read its advertisements, so I purchased a small package, and followed the directions explicitly and prepared my first cup. I was surprised to find that so far as TASTE was concerned, it was all right! Besides it had a satisfactory feeling. The next morning I found that my bowels were moved normally, and as in days when I was younger and in the prime of life. Next thing I noticed that when I sat down to my morning paper, and later to my mail, my head and mind were much clearer than they had been for a long time, and I had no feeling of depression and lassitude. No one could have made me believe that change from coffee to so simple a liquid food could have produced such a rapid and marked change in a person's condition. It is now about three months since I began to use Postum. I have never had indigestion after coffee, do not need to see it, for I am in excellent condition, no constipation, no indigestion, no dizziness, no dullness, and I contribute to the change wholly, and may say that I feel stronger than I did three months ago, and at my old strength I am a much-needed fee. I am better natured, better contented and better pleased than I have been for a long time. The experiment I made with Postum cost me fifteen cents, the beneficial results obtained cannot be calculated in dollars and cents. It takes a little more time to make Postum Coffee than ordinary coffee, but I count the difference in time as naught in comparison with the benefits gained. I think I shall try Grape-Nuts next."

GETTING READY FOR BUSINESS.

New C.M.A. Insurance Manager Preparing a Circular. E. P. Heaton, newly-appointed manager of the C.M.A. Insurance department, is now in the city. Offices are being fitted up for him on the fourth floor of the board of trade building. Mr. Heaton is at present engaged upon the drawing up of a circular to be sent out to all the association's members early next week. It is designed to set forth the lines upon which the department will be conducted. The new manager said that he was not in a position to state as yet whether the association would carry any of the risks on its own account.

WOULDN'T FREEZE LAST WINTER.

But Now Trout Lake is Icebound and Boats Stopped. The varieties of winter are illustrated somewhat peculiarly in the case of Trout Lake, in the Kootenay district. Despite the rigors of last winter, the lake, which is about 40 miles in length, refused to allow itself to be frozen over, and the C.P.R. steamer was able to make her daily runs right along. Yesterday, local officials received advice that Trout Lake was ice bound, and the thickness being considerable, and that, in consequence, the steamer would have to tie up for a time at least. For the past two weeks the arrival of C.P.R. trains from Detroit has been only on the average of from 5 to 10 minutes late, although Detroit River is still somewhat blocked by ice. Conditions were a little worse yesterday, with about 15 minutes late, but the present situation is not causing any real annoyance to officials or passengers.

HAS SHOT FIFTEEN MEN.

Companion of Car Bara Roberts Has Been a Bandit Since Boyhood. St. Louis, Feb. 3.—Andrew Kurrowski, for whose arrest a reward of \$500 was offered some time ago in Chicago, is in custody here and has made a confession that he was a companion in crime of Marks and Vandine, the Chicago so-called "carthorn bandits," who were hanged last year. Kurrowski came from Memphis, where he said he had hidden \$1000 worth of booty. "I came to St. Louis," he said, "to plunder and rob. I have shot fifteen men, some fatally. I have been in the reformatory at Pontiac, Ill., twice, once for robbery and assault to kill and once for a street car hold-up in Chicago. I have been a bandit since I was ten years old." Kurrowski is now about 25 years of age.

CAN COMMON NOUNS BE TRADE-MARK.

Local Druggist Appeals Against Police Court Conviction. What can be constituted as affording ground for a trademark in medicines will be settled by the court of appeal. Yesterday John McGregor, on behalf of Thomas Crittenden, druggist, secured leave to appeal from a conviction by Magistrate Denison, who held that Crittenden's "Glyco Thymol" infringed the Kress Owen Company's "Glyco Thymoline." In opposing the request, Crown Attorney Curry said that another name could have been used, and that his own of the one complained showed a desire to trade on the other preparation. Crittenden was prosecuted under the criminal code. He holds that the two preparations are practically the same, composed largely of ordinary articles in the drug trade, and that the two names, being ordinary common nouns, cannot be the subject of an appeal. A stated case will be submitted. J. C. Smith & Co. have commenced action against the O'Dell Stock and Grain Company of Chicago, claiming that the latter is using for its "Glyco Thymol" a name which is identical with that used by the plaintiff. The case is now on for the local court.
