

## PREFACE.

IN presenting "NUGENT'S PEOPLE'S ALMANACK, FOR 1853," to the public, the Publisher, gratified by past favors, bespeaks for it a welcome at every fire-side. In some particulars improved, and containing many things, astronomical and statistical, of interest, altogether new, he trusts it will be found acceptable to all. It is still below the standard he should like to give it, and would, were the demand sufficient to justify an outlay equal to his wish.
