MAY MORE OF THEM HANG THEMSELVES.

By suiciding Charles Moore, burglan and convict, did the world a good turn, probably the only one he has to his credit. It is not many criminals who show such an excellent conception of the proper order of thing. The world would be better off if two-thirds of the would be better off if two-thirds of the guavicts in Kingston penitentiary would imitate Moore's excellent example. As it is, by our peculiar system, these men, who are mostly human beasts of prey, will be herded together for a few years, long enough to teach one another the tricks of their respective vocations, and then tured loose on the community to again begin careers of robbery and plunder. It would be better if we had a penal actiement somewhere in the far north where convicts, with the least possible where convicts, with the least possible chance of reclamation, could be allowed within certain limits some liberty and at the same time be permitted to engage in an occupation for their own benefit. And the rest, those who could not possibly be reclaimed, ought to be treated like any other class of destruc-tive animals. They are a nuisance, a terror and an expense to the earth and would be better off it. A day will come ere long when the law will make

MILBURNS PILLS

Milburn's Heart and Nerve Pills restore color to the pale cheek, regulate the heart, tone the nerves, enrich the blood, and impart strength and vitality to the entire system.

A MONCTON LADY Cured of Weakness, Nervous ness and Heart Trouble.

Several years ago I had an attack of La Grippe, which left me in a very weak condition, my health being much impaired. Ever since then I have suffered from nervous prostration, heart trouble, and pain in the left side, so that at times I was unable to move about.

The least exertion distressed me, and oftentimes I could scarcely breathe, having to sit down after walking up stairs and rest for some minutes. I also had a fluttering sensation around my heart, so much so that I was sometimes unable to attend to my household duties.

duties.

Despite the use of many remedies, and of the best medical skill, I obtained no relief until I finally tried Milburn's Heart and Nerve Pills. I had only taken a few doses when a marked improvement took place in my condition. I began to relish my food, and gained in strength every day.

My restoration to health and vigor followed as naturally as night follows day. I do not suffer now from any of the troubles which formerly made life miserable for me. If sufferers from heart or nerve trouble will only give these wonderful pills a trial they will have a rich reward for so doing in the restored health and vigor which I believe will always result from their use.

AN OTTAWA LADY.

Milburn's Heart and Nerve Pills have Cured her of Heart Palpitation—In-vigorated her Nerves—Euriched her Blood and Brought Color to her Pale Cheeks.

For five years I was very miserable with heart trouble and nervousness. My entire system was run down, and I suffered from impoverishment of the blood, which made me thin, pale and weak. My heart would beat so that I could not walk; and I would smother and have 'difficulty in catching my breath. I was in a very bad state indeed, and thought that my remaining time on earth would not be very long. Both doctors and medicines failed to give me relief.

give me relief.

Hearing of Milburn's Heart and Nerve Pills, my husband got some for me. From the first I got better and better, and am now like another person. Palpitation of the heart is gone; the color has returned to my cheeks; my system is invigorated and my blood has been enriched. I no longer suffer from the fretful nervousness and smothering feeling, and am in fact better than I have been for years. Needless to say, I heartily recommend Milburn's Heart and Nerve Pills as the only medicine in the world which I believe could have acted so promptly and well in my case.
