Things for The Home

There is perhaps just the least bit of enthusiasm in the statement that you cannot afford to furnish your home without coming here to see. One can afford to miss almost anything if they want to, but we're not talking of those who just buy things, but of those who shop, who count the size, weight, quality, style, appearance, wearing probabilities, and all the little round of things that come up at such a time, worth questioning. When you've got to look at and live with and be suitable to for years, is to the far. There are some hints for shoppers in these items:

New patterns in wool squares, made from thoroughly covered serge, size 3x4 yards, extra heavy..... \$12.00	2 yd. wide Linoleum, new patterns, best value at..... 50c
36 in. wide serge, newest fall patterns and colorings, best carpet made for the price..... 35c, 40c and 50c	Chaise new patterns in Brussels carpets, all the newest colorings, every piece and pattern fresh from the looms, body and border to match, special at..... 85c and 90c
Oil Cloth squares for stores, 2 yds square..... 50c to \$1.00	100 pairs Lace Curtains, light, good width, 3 yd. long, new patterns, special..... 35c
4 yard Linoleum, new patterns, best English cloth, they have no equal..... 75c, 80c, 90c, 95c, 1.00, 1.10, 1.20, 1.30, 1.40, 1.50, 1.60, 1.70, 1.80, 1.90, 2.00, 2.10, 2.20, 2.30, 2.40, 2.50, 2.60, 2.70, 2.80, 2.90, 3.00	100 pairs Lace Curtains, 3 yds. long and 56 in. wide, special at..... 50c and 75c

ONE IN EVERY COUNTY.

They all Should Have Consumptive Sanitariums Within Their Own Borders.

Dr. Hutchinson, medical health officer of London, spent Sunday in the city. Speaking about the agitation in favor of consumptive sanitariums, the doctor said every county should have one.

"Consumption last year took off in the Dominion," he said, "3,000 more than all the other contagious and infectious diseases put together. I have no doubt but that the establishment of sanitariums this death rate could be largely reduced."

"Where would you locate them? In Muskoka?"

"Not at all. Let each county have such an institution of its own. By that means the cost would be so well distributed that the sanitariums would not become a burden on the province."

"Take Kent, for instance, would the climatic conditions be suitable?"

"They might be better, but then a sanitarium here close at hand would be of much more benefit than put off at the limits of civilization. The higher and drier the locality, of course, the better. Henslow or Ridgetown, I should think, would be the most suitable places in Kent for such a sanitarium, because they are high. But no matter what the climatic conditions, this, as well as every other county, should have such a sanitarium, and should have it located within its own borders. Or you might group two or three small counties together and let them establish one among them. But established they must be, and it is only a question of a short time when a county sanitarium will come to be regarded quite as necessary as a county jail, a county court house, or a county house of refuge. The expense of maintenance will never be great, because it is merely a question of prevention of man of care."

THE PLAGUE IN VIENNA.
Dr. Mueller, the physician who attended Herr Barisch, the assistant in Prof. Nothnagel's bacteriological establishment, who contracted the bubonic plague while assisting in cultivating the plague bacillus, and who was "barged yesterday with remarkable precautions, is himself seriously ill, exhibiting every symptom of the fatal malady. There has been no improvement in the condition of the two nurses who attended Herr Barisch. They have developed plague symptoms. The case of one is already pronounced hopeless.

CLEARING FOR ACTION.

All Warships Ordered Out.

GREAT BRITAIN'S ANSWER TO FRANCE'S MENACING ATTITUDE—FROM FASHODA THE FRENCH MUST GO.

London, Oct. 24.—The British Admiralty has ordered every sea-going war ship to have its crew made up to the full complement, as ordered in case of mobilization. The order of the British Admiralty practically means the telling off prospectively of every ship's company in detail. Four torpedo boat destroyers which were about to be fitted with new water tube boilers, have had their orders countermanded, and have been instructed to redraw their stores. Officers on leave of absence or unemployed, have been notified to hold themselves in readiness to commission the reserve ships if required.

The British cabinet has been summoned to meet for the purpose of discussing the Fashoda question, and it is understood that the government proposes to take steps necessary to insist upon an early and definite statement on the subject from France.

WANT TO ARGUE.

Paris, Oct. 24.—A semi-official note says:—"There is no foundation for the alarmist rumors regarding the relations between France and Great Britain. It is equally incorrect to say that extraordinary measures have been taken at any of our naval ports." The French Fashoda yellow book just issued is voluminous, but it does not include Major Marchand's report, which will be published later. The despatches were largely anticipated by the English Fashoda blue book. The diplomatic conversations recorded show a curious endeavor on the French side to represent that Marchand's mission was quite as important as Gen. Kitchener's on the ground that the struggle was against the Khalifs and barbarism.

LOOKS OMINOUS.

London, Oct. 24.—The yellow book seems to indicate an intention on the part of the French government to utilize the Marchand affair as a means of raising the whole Egyptian question. This impression is confirmed by the comments of most Paris papers. The London press admits the gravity of the situation revealed by the yellow book, but the papers are unanimous in declaring that it is impossible for Lord Salisbury to consent to any negotiations until Fashoda is evacuated. As, however, the French foreign minister, M. Delcasse, with usual firmness, declines to withdraw Marchand without previous negotiations, the situation has an ominous look.

COUNTY COUNCIL.

To Appeal or Not to Appeal That Is the Question

Which is Agitating the County Council—A Special Session in Progress.

Owing to the absence of Messrs. Leverton and Davidson the county council did not take up the Fancher creek decision on assembling this morning in special meeting but decided to discuss the maintenance of the House of Industry in committee of the whole, Mr. Mills in the chair.

The following resolutions were submitted:

Moved by Messrs. Wilson and Shaw that the maintenance of all the inmates sent to the House of Refuge be provided for by a general rate over the county.

Moved in amendment by Messrs. Hickey and McGregor that the inmates of the House of Refuge be maintained in the following manner, viz., each municipality pay for the keep of all those sent by the respective municipalities at whatever the average cost may be each year.

Quite an animated discussion took place on these propositions until the arrival of the other councillors, when the council resumed without reaching any decision.

TO APPEAL OR NOT.

On resuming it was decided to call in the county solicitor, John A. Walker and also M. Wilson, Q. C., and secure their opinion as to the advisability of appealing the judgment or abiding by it.

Both solicitors addressed the council at some length, holding that the judgment was a surprise to them and, in their opinion, scarcely warranted by the evidence, they recommended an appeal.

The council is discussing the matter this afternoon.

A PECULIAR CASE.

Mrs. Woods Wouldn't Take Back Her Stolen Watch

Because the Court Refused to Have it Repaired For Her.

Ernest Ion, a young lad, this morning pleaded guilty to the larceny of a gold watch from Mrs. Annie Woods at police court and was released on suspended sentence with a warning. Since its theft the maulspring of the watch had been broken and the complainant refused its return from the court until it had been "fixed as it was when stolen."

The judge explained that that was so part of the court's duty and the complainant could only obtain redress in the civil courts.

"I don't want it at all," said Mrs. Woods after consulting her son, "unless it is fixed as it was. You aren't dealing with me fairly. Think of you letting that boy go after committing a robbery like that."

Judge Houston replied that he fortunately did not ask the complainant in every action what she should do, preferring rather to do as he thought right. Upon repeated refusals to accept the watch as it was the judge decided to give no order for its return and it becomes thereby a unique police court record.

SIX MONTHS EACH

Judge Houston Making it Warm for Tramps and Vagrants.

Two More of Them Sent off to the Central—They Pled in Vain.

"During all my experience as police magistrate, I have never met such a number of people who seem determined to get a living without work thus during the past two weeks," said Judge Houston in response to the pleadings for leniency from a convicted vagrant.

Thomas Clark, the prisoner, has been hanging around Victoria Park during the past two months and securing a livelihood by begging on the streets. He was sentenced to six months in the Central Prison.

HE'S TROUBLESOME.

Samuel Barry, the tough looking tramp arrested at the G. E. R. depot last week for stealing a ride and delaying the train, and who amused himself by attempting to set fire to the police cells during his night's incarceration there, came down from Castle Mercer with a bad record this morning.

He has succeeded in making himself very disorderly and unruly at the jail, breaking one of the locks and tearing down a portion of the water pipe.

To Judge Houston, he was very respectful, however, and begged to be let go. His honor, however, ruled the charge was clearly proven, and his actions since his arrest showed no reason for leniency. He was given six months in the Central.

Which Shall It Be?

Rightly made shoes are of good quality, or the "cheap" kind? Now which do you want, anyway?

Some people continually complain about how poor shoes are now-a-days, compared to a few years ago. The fact is, they're as good to-day as they ever were, if you get the right kind. If you don't get the right kind, that's another matter.

We know the Ladies' Shoes we are selling at \$1.50 a pair are the right kind—They're big value—We know it—There's no guess work about it—Maybe you're needing a pair.
