KILLED HUSBAND IN SELF DEFENCE

SHOT BY HIS WIFE IN PRESENCE OF DAUGHTER

Jealousy on Man's Part Said to Have Been Cause of Tragedy in Chicago.

Chicago, Oct. 18.—In the presence of her daughter and a party of children, Mrs. Sarah Alopa shot and killed her husband early to-day at his home. The shots were fired to save her own life. Alopa was chasing her around the house with a butcher knife, and she ran into her bedroom, got a revolver, fired two shots, one striking the man in the left temple and the other in the lung. The man instantly fell to the floor and died.

WON PRIZE FOR PAINTING.

Negro Artist Awarded Fifty Dollars by Commission of Chicago Art Institute.

Chicago, Oct. 18.—Henry Tanner, a negro artist, was yesterday awarded the N. W. Harris prize of \$50 for the best painting at the 19th annual exhibition of American paintings, which will open at the Art Institute tomorrow. Yesterday at the private exhibition the art commission of the Institute carefully went over the large number of paintings hung, and the decision fell on Mr. Tanner's "Two Disciples at the Tomb" unanimously. The picture shows the faces of Peter and John before the Saviour's tomb with a fine light playing across their features, which are strained with expectancy, while awaiting the fulfillment of a promise that had been made them.

TAKES EXCEPTIONS TO ALDERMAN'S ASSERTIONS

Mayor Morley Briefly Outlines Expenditure Proposed by the New Water By-Law.

When seen this morning by a Times reporter Mayor Morley expressed some indignation over the attitude assumed by some of the aldermen, particularly Ald. Hall in an address before the board of trade, in contending and reiterating that his proposal contemplated the expenditure of \$300,000 upon improvements to the Elk lake system. When such statements were made those responsible could only be spoken of as perverts of the truth. He could not put it any stronger and he was prepared to back up what he said with proof.

As a matter of fact the by-law that was prepared to lay before the ratepayers, if carried, would be no greater drain upon the ratepayers than would the defeated proposal in the long run. The project supported by him provided for the continuance of the 24-inch main to Elk lake at a cost of \$95,000. That was the only item that affected the present means of supply. The amount provided for the cleaning of the body of water mentioned already had been voted and, therefore, could scarcely be taken into account. Of the expenditure upon the new pipe \$20,000 would be saved by the relaying of the 12-inch in connection with the redistribution, so that the actual outlay upon the present system, according to the by-law that would next be submitted for the endorsement of the property owners, would be \$75,000. It was the cost of redistribution, a work that was imperatively necessary and which wasn't included in the committee's scheme, which made his plan look expensive.

He wished to emphasize as strongly as possible the fact that, of the total amount asked for, only the expenditure upon the completion of the larger main would be placed where it wouldn't be absolutely needed as a part of the new system should it be decided in a few years to obtain a larger permanent supply elsewhere.

REFUSED FREE ENTRY.

Newfoundland Will Not Make Concession to United States Naval Tug.

St. Johns, Nfld., Oct. 18.—The colonial ministry has refused the United States naval tug Potomac, which is now at Bay of Islands, free entry for stores in spite of the fact that this concession is accorded French warships in these waters.

The Potomac has on board A. B. Alexander, chief of statistics division and methods of the bureau of fisheries for the department of commerce and labor, who is studying the Newfoundland fisheries dispute.

PROFESSIONAL BASEBALL.

New League to Include Calgary, Medicine Hat, Edmonton and Regina. The Western towns have caught the professional baseball fever. Calgary and Edmonton are responsible for the outbreak and this city and Regina seem to be especially hard hit owing to the enthusiasm which the delegates from the aforementioned points unbottled at a meeting which was held in the hall yesterday for the purpose of forming a professional league. Delegates present were from Calgary, Edmonton, Regina and Medicine Hat. Calgary, Medicine Hat, Edmonton and Regina will receive franchises and two others will be issued either to Lethbridge and Moose Jaw or Wetaskiwin and Red Deer. A monthly salary limit of \$1,200 was practically decided upon and the delegates meet again on November 5th to complete organization.

WINNIPEG TRADES AND LABOR COUNCIL

TO FORM INDEPENDENT POLITICAL ORGANIZATION

On Lines Suggested by Congress—New Record in Wheat Shipments—Council of Women.

Winnipeg, Oct. 15.—The Trades and Labor Council to-night convened a meeting at which it was decided to form an independent political organization to be known as the Labor party and framed along the lines suggested at the Trades Congress recently held in Victoria.

New Record.

Winnipeg, Oct. 15.—Twenty million bushels of wheat have been delivered at the port of this city, which establishes a new record in this line, the total amount received in any previous year up to the corresponding period being millions less than the large total received this season. The total for wheat this year is six million in excess of last year. The season of 1906 was also greatly in excess of 1904. Receipts on Saturday at points on the C. P. R. were as follows: Wheat, 540,000 bushels; other grains, 36,000 bushels. On the corresponding day of last year the receipts were: Wheat, 428,000 bushels; other grains, 59,000 bushels. The total receipts up to the close of business on Saturday were: Wheat, 19,876,000 bushels; other grains, 1,225,000. In the corresponding period of last year the receipts were: Wheat, 12,929,000 bushels; other grains, 731,000 bushels. The receipts of to-day will increase the grand total for the present season to a sum considerably over the twenty million mark.

Thoughtful Burglars.

Carman, Man., Oct. 15.—On Friday evening last \$26 was stolen from the till in the C. P. R. station during the absence of Mr. King, the agent. Mr. King was the loser, as he would have to reimburse the company. The burglars evidently got wind of this, and considerably wrote Mr. King a note telling him he would find the money at a certain part of the station. The money came to hand, and Mr. King appreciates the compliment.

Not Guilty.

Quebec, Oct. 15.—The jury in the Cavan manslaughter case brought in a verdict of not guilty. The prisoner was discharged. Failure to convict Cowan leaves the tragedy of last July, at Louise, still a mystery.

Jumped From Window.

Toronto, Oct. 15.—Charles Gould, a teamster, admitted to the General Hospital on Friday, suffering from typhoid fever, jumped out of a window in the absence of his attendant, and died from injuries.

Convention at Hamilton.

Hamilton, Oct. 15.—The convention of the National Council of Women of Canada has practically decided to elect Lady Edgar of Toronto, widow of Sir James Edgar, president for the ensuing year. The next place of meeting will likely be Vancouver, B. C.

Injured During Match.

Plainwell, Mich., Oct. 15.—As a result of being kicked in the back during a football game Saturday, Edward Pyche, aged 15 years, may be crippled for life.

TWO WOMEN KILLED.

Terrific Storm at Naples Caused an Inundation of Mud From Mount Vesuvius.

HINDUS DETAINED AT TERMINAL CITY

BY THE INSPECTOR OF IMMIGRATION

Not Allowed to Proceed Until There are Prospects That They Will Secure Work.

Vancouver, Oct. 16.—With a dozen of his officers, the chief of police yesterday marched down the hill to the wharf where the Empress of Japan landed, and then marched back again. Early in the day the city served notice on the C. P. R., declaring that force would be used to prevent the exit from the detention shed of Hindus likely to become a charge on the city. Supt. Marpole replied that the company could not accede to the request contained in the letter. Mr. Marpole took the position that if the immigration officials passed the new arrivals the company could do nothing, and the city would have to take the risk of damage suits.

Then Dr. Munro, immigration inspector for the Dominion government, solved the question temporarily by ordering all the Hindus detained until it should be shown that there were reasonable prospects of their obtaining work and not becoming charges upon the community. Dr. Munro said that owing to his action the city was able to make good its bluff, but he did not think the city had any standing in the matter at all. If they do not find work within a reasonable time Dr. Munro said he would have them deported at the expense of the steamship company.

RIOT AT SUNDAY RACES.

Speakers Here Engaged at Bad Start and Bookmaker's Booths.

Paris, Oct. 14.—There were violent public demonstrations at the Long Temples race track to-day. Needing to say there is plenty of room for the newcomers, indeed their quarters will be as comfortable as any to be found in Canada. The augmentation of the present garrison will make it possible to have the barracks transferred to the Pacific coast fortress from the Imperial to the Canadian government those in charge have been somewhat handicapped on account of the lack of men. Now, however, the condition will be altered and the fortresses will be fairly well manned.

G. A. FRASER, M. P., WILL RESIDE HERE

Decides to Engage in Business in Victoria—Entertained at Banquet at Grand Forks.

Grand Forks, Oct. 15.—On the occasion of his departure for Victoria, where he will engage in business, Geo. A. Fraser, M. P. for Grand Forks, was tendered a complimentary banquet at the Yale hotel. The function had no political significance, the fifty subscribers comprising Liberals and Conservatives. Ernest Miller presided. The various speakers paid a high tribute to the invaluable services rendered by Mr. Fraser at the coast, and general regret was expressed over his decision to leave the Boundary district. The guest made a very eloquent reply, reviewing his political stewardship. He has been a resident of the district for nine years.

WILL ENDEAVOR TO SETTLE FERNIE STRIKE

Vancouver, Oct. 15.—President Mitchell, of the United Mine Workers of America, has wired that a personal representative will be sent to Fernie to adjust the difficulties between the union and the Crow's Nest Pass Coal Company.

TWO MEN KILLED.

Salisbury, N. Y., Oct. 16.—Burgess Fox and Bill Fraser, men employed in the Gould Hill mine, 15 miles from here, were killed last night by an explosion, both bodies being badly mutilated. As the cartridges are fired by electricity, the explosion is thought to have been caused by carelessness.

MRS. DAVIS DYING.

New York, Oct. 16.—Mrs. Jefferson Davis, who has been ill of pneumonia at the Hotel Majestic, was still alive early to-day, but her death, it is said, is not far off. She took a sudden change for the worse last night, and her physicians said the end was only a question of hours. Mrs. Davis is 80 years old.

SHOT BY HIGHWAYMAN.

Spokane, Oct. 16.—Reno Hutchinson, secretary of the Y. M. C. A., was shot and killed in the best residential section of the city last night by a highwayman.

AUTOMOBILE ACCIDENT.

Four Occupants of Car Were Injured and Two May Die. Cleveland, O., Oct. 16.—An auto while running at a high rate of speed on Detroit avenue struck a trolley pole at Kenilworth avenue, Lakewood, a suburb, early to-day and exploded. Every one of the four occupants of the car were injured and two may die. The injured are Miss Anna Schmitt, burned about the arms; Miss Helena Ackerman, burned about the legs and back, condition critical; Benjamin Camera, burned about the head and hands; George Hartman, right eye gouged out and skull fractured. The car was owned by M. J. Kaulbaum, a banker, a relative of Camera, who was driving the machine when something went wrong and it swerved across the road and struck the trolley pole. The collision and explosion seemed to be simultaneous.

REINFORCEMENTS FOR WORK POINT

WILL ARRIVE HERE ABOUT END OF MONTH

Men to Augment the Present Garrison are Coming From Halifax, Kingston and Toronto.

(From Tuesday's Daily.) Official information has been received at Work Point to the effect that the promised reinforcements to the present garrison, of which mention was made in the Times some days ago, would reach Victoria about the end of the month. The detachment will consist of about forty men taken from the stations at Halifax, Kingston and Toronto. They, therefore, will be experienced soldiers and not recruits as was expected. These men are nearly all R. C. Engineers.

In the meantime preparations are being made for the accommodation of the new force at the barracks. Needing less to say there is plenty of room for the newcomers, indeed their quarters will be as comfortable as any to be found in Canada. The augmentation of the present garrison will make it possible to have the barracks transferred to the Pacific coast fortress from the Imperial to the Canadian government those in charge have been somewhat handicapped on account of the lack of men. Now, however, the condition will be altered and the fortresses will be fairly well manned.

IMPORTED BIRDS ARE DISTRIBUTED

NEW GAME LIBERATED AT SELECTED POINTS

Thirty-Four Capercalzie and Black Game Set Free Near Victoria—Venture Grand Success.

(From Tuesday's Daily.) "The importation of capercalzie and black game, as far as their shipment from Denmark to British Columbia is concerned, was a grand success," remarked J. Musgrave, secretary of the Vancouver Island Fish and Game Club this morning. It was expected, he went on, that if half of those forwarded reached their destination alive and in perfect health it would be as much as could be hoped for, and when it was shown that upon the whole journey, a distance of some 6,000 miles, only two birds had died, those concerned were genuinely astonished, and, of course, delighted.

The results of their achievement they attribute to the care taken of the birds from the time they left the hands of their breeder until they arrived in Vancouver. At Vancouver the crates were all cleaned and the tenants given every possible attention, a performance which was repeated at Calgary. These cages, by the way, were somewhat out of the ordinary. They were completely covered on all sides, only small openings being left at the bottom for purposes of ventilation. Thus the birds travelled in absolute darkness, a condition which rendered them quiet and avoided the danger of their killing themselves through futile efforts to gain their freedom.

When the shipment left Denmark it consisted of seventy-six birds, and, as only two birds had died, the remainder were only two minus the original number. At the Terminal City they were allowed to run in the aviary at Brockton Park park, during which time there were five more deaths, due, it is stated, to the fact that they displayed to take shelter despite the heavy rain. This, in their weakened condition, they were unable to stand.

On Friday, as announced in the Times, thirty-four of the birds arrived in Victoria by the steamer Princess Victoria. This was Vancouver Island's share. They were taken charge of by Mr. Musgrave and when sorted it was found that there were twenty black game and fourteen capercalzie. The question of distribution was discussed between a number of prominent members of the local association, and a decision reached by which ten of the black game were sent to the ranch of G. Payne, Saturna Island, almost immediately. On Saturday afternoon the same number of that species were taken up the line and placed in the hands of W. H. Hayward to be liberated on his property near Quamichan lake, near Maple Bay. This disposed of the black game.

The capercalzie were disposed of, as predicted, at Cowichan lake. The whole fourteen were shipped there on Saturday. Instructions were given that they be placed in the wilds in the neighborhood of L. Medes' farm, situated on the big lake. These surroundings were agreed, were seen to, and what the capercalzie have been accustomed to as could be found in this vicinity.

Those who have given the matter thought believe that the imported birds have been distributed with excellent judgment. It will be noted that they have not been divided into very small lots. The idea was that they would thrive better in comparatively large colonies than otherwise. Another argument against portioning them in smaller families was that some of them might die before having an opportunity to regain their natural strength, in which event the breeding would be seriously interfered with. Now, however, if there are a few losses the chances are that they won't be noticed to any serious extent. The birds selected, it will be noted also, are as far away from the resorts commonly visited by sportsmen as possible. This was done so as to prevent their being killed accidentally by those in search of grouse and pheasants, and the birds landed in British Columbia coast the Vancouver and the Vancouver Island Fish and Game Clubs between \$20 and \$25 each, the exceptional ones being valued at \$30 each.

Enthusiasts are planning to obtain another shipment of the capercalzie and black game in the spring. Should this proposal be carried into effect it is the intention to place some at the Summit and others near Sooke lake. Coming in the early part of the year the birds will have at least one opportunity to breed before the open season. Under such circumstances there will not be the same chance of their being exterminated by reckless hunters, and the resorts nearer Victoria may be again become populated with the new game within a few years. Even if a second lot is not brought out, as the black game multiply on Saturna Island they will be more widely distributed. That was one of the reasons

NATIONALIZATION OF IRISH RAILROADS

REPORTED TO BE PART OF LIBERAL POLICY

Improved Facilities Are Required to Assist in Developing Agriculture in the Emerald Isle.

New York, Oct. 15.—The report current in America that Premier Campbell-Bannerman and his associates are considering a scheme of government ownership of British railroads is true to some extent, says a London cable dispatch to the Times. The government has no idea whatever of bringing in a bill for the nationalization of any other railways than those in Ireland.

The Irish roads, the government are inclined to think, should be taken over by the nation in order to advance the welfare of Ireland, and this especially in order to furnish facilities required for the highest development of her agricultural interests. Ireland needs better railroad facilities than private enterprise is likely to give her, or could offer to give her.

It has not been decided that the government shall ask parliament for authority to take over the Irish lines with a view to improving and extending them, but supposedly well-informed persons expect that the government will presently determine on that course.

MINERS RESCUED.

All Men Taken From the Wingate Colliery, Near Durham.

Durham, Eng., Oct. 15.—All the miners who were entombed as the result of an explosion yesterday in the Wingate colliery, near here, have been rescued.

MEASURING WATER IN HIGHLAND DISTRICT

Expert Employed to Take Records Throughout Winter Months—Will Install Automatic Gage.

(From Tuesday's Daily.) For some weeks past the work of measuring the waterfall in the Highland district in order to ascertain the extent of the supply to be depended upon in the event of that being made the permanent source, has been in progress. An expert will spend the winter months in that locality and each day will take the measurements at different points along the upper reaches of Mill stream. Of course his reports haven't been coming in long enough to enable one to judge of the amount of water, but it is encouraging to learn that so far there has been twice as much rain among the hills of that district as in Victoria and vicinity.

To-morrow Engineer Popp and others will make a trip to the Highlands for the purpose of installing the automatic gage procured from the East for the purpose. It will be placed at Lavender swamp, upon the Hanington property, and from the day it commences operation until the close of the winter may be depended upon to give an accurate account of the number of gallons daily flowing from the watershed.

There appears to be just a little misapprehension in reference to the Highland district proposition. Many seem to think that it is not likely to develop into anything worth while, and that ultimately the corporation will have to turn either to Goldstream or Sooke for a permanent supply. This may be correct, of course, but the present outlook does not point in that direction. Every day local waterworks officials are gaining more confidence in the Mill stream scheme. Seven or eight places suitable for small storage reservoirs have been selected upon the upper parts of the creek, and the measurements that have been taken there hitherto are most satisfactory. With plenty of water and every possible facility for holding it, and nothing in the way of installing a perfect system to the city, those most concerned believe that just as satisfactory a service would be available as could be procured if an immense sum was expended in the purchase of the Esquamit waterworks or the construction of connection with Sooke lake.

DR. CARROLL'S CLAIM.

Vancouver, Oct. 15.—Dr. Carroll lost to the city to-day by the decision of the arbitrator in the famous Capilano valley case. Dr. Carroll asked \$10,000 and was given but \$1,000.

THE OVERSEAS MAIL.

(Special to the Times.) Vancouver, Oct. 16.—The Overseas mail had made up an hour and a quarter when it passed Laggan this morning.

M. Honnivat, the chief of the Paris press states in the Journal de Le Petit Journal that 13,000 disappearances of persons from Paris have been reported to his department. Only 10 per cent. of these persons have been found.
