TELEGRAPH
ON HILL INCIDENT
WANT AMPLER MEANS

LONDON, April 1.—The Daily Telegraph in a long editorial on the Hill incident, emphasizes the remarkable change which is being gradually effected in the character of the American diplomatic service and especially in relation to that service in London which it says has been revolutionized in the past decade. An example of this, says the Telegraph, the American embassy in Berlin has acquired a unique prestige among its hosts because of depending partly upon methods not of a political kind. From this viewpoint the Telegraph, it says, the embassy's desire for a "real" ambassador has been intensified.

With reference to Mr. Cady's statement the paper says:

"Merit engendering interest and loyalty in the embassy and some time and itself in a position of confidence and respect. Social contacts and to entertain in a large and very valuable addition to the diplomatic efficiency of any embassy cause most were hastened in the past by American representatives. Historic relations which yesterday is able to make the centre of its hospitality and primary duty comes as it were, a steady movement covering many years, to pass it a new series of the world's great republics to no longer a new country, but one established among the great powers of the world."

It is further stated that it will be a pleasure to the representatives of the United States in London, when they take possession of their posts at midnight tonight.

ONE
PROVINCE

MONTREAL, Mar. 31.—The works for the province of Alberta today completed arrangements with the Bell Telephone Company of Canada for the purchase of the lines of that company located in the province of Alberta for the sum of \$465,000. The Bell Company a short time ago sold out its lines in the province of Manitoba to the Manitoba government, and the only lines it now has west of the Great Lakes are those in the province of Saskatchewan and in the City of Port Arthur and Port Williams. It is expected that the company will dispose of these and confine its attention to the east. The Alberta government is to take possession of its purchase at midnight tonight.

AGAIN

President-elect Lewis of the Miners' National Organization said this evening he would make no move for several days. He wishes negotiations now in progress in the various districts to reach some kind of conclusion before he begins to work out his plans. He is still in the hope of reinstating the joint relations between the operators of Indiana, Ohio, Western Pennsylvania and Illinois, and the indications are that he will call an interstate joint conference within the next two weeks. He will not convene the new national executive board for at least a week.

DANGEROUS COMBINATION.
