These terms were the formal subject of discussion today in official circles. If the president's purpose was to secure a free expression of public opinion on this subject, he has geen gratified at the responses made through the newspapers and in the exhibition of interest by government officials in the complex problem now presented. This decision it is possible, though not probable, may be again changed before the capinet disposes of the matter tomorrow, as strong influences are at work to induce the president to insist upon the substitution of at least an independent government over the Philippines for Spanish rule. There was a display of indignation in official circles today upon the publication of what was reported to be a statement from the Spanish presimier imputing bad faith to the United States in pursuing the war and continuing to make conquests. However, this feeling soon wore off, as it became apparent upon reflection that the statement was either apocryphal, or that if genuine it was simply one. WASHINGTON. July 28.—Lieut. Hotson returned to Washington last hight, and called at the navy department today to see Assistant Secretary. Allen in connection with the prosecution of the work of raising the Spanish cruiser Chistobal Colon. Mr. Allen immediately called a meeting of the naval board, composed of himself, Captain Bradford and Constructor Gilmore, to go over the preparations that Mr. Hobson brought with him from the wrechers at New York, and more than an hour was spent in this way. in a series of complex moves on the board of Spanish politics, and was intended purely for home consumption. LONDON, July 29.—The Times, commenting editorially upon the suggestion of the Berlin National Gazette that the United States have not won a victory signal enough to warrant the hard terms they would impose, says: "This suggestion from would-be friends of Spain merely shows that these critics entirely fail to grasp the military significance of America's sea I ower. It may be pointed out that if we are really as near to peace as many people suppose, it will become necessary to issue a call for an extra session of the senate to act upon the peace treaty with all the promptness that the importance of the subject demands. bad as they would seem to indicate.
The slightest allment of the most

Shafter's camp are of a trivial nature,

mitigating fact, Secretary Alger is going to remove the soldiers at the very
earliest opportunity to a more healthful clime. LONDON, July 19.—The Madrid correspondent of the Times says: "The factional voluntary war fund now exceeds 25,000,000 pesetas. WIASHINGTON, July 28.—Admiral Cervera has forwarded to the Spanish government, through the French embassy, his full report of the naval engagement which resulted in the anrihilation of the Spanish fleet. The

ribilation of the Spanish fleet. The report is very long and treats of the great engagement even more elaborately than Sampsen's report to the navy department.

Admiral Cervera's report, although addressed to the Spanish minister of marine, was submitted first to the American navy department in order that precautions might be taken, usual in the case of communications passing between prisoners of war and the enemy's government. The examination made by the naval authorities here was solely for the purpose of ination made by the naval authorities here was solely for the purpose of precaution, and care was taken not to intrude into the privacy of the document beyond this necessary inspection. It was then sent to Ambassador Cambon to be forwarded to the Spanish admiralty. The strictest secrecy has been observed while the document has been in transit, and in order to avoid conjectural stories as to the contents of the report, it can be stated that no intimation as to its contents has been allowed to escape from the few persons through whom it passed en route to the Spanish minister of marine. If the Cervera report ever reaches the public it will be through the Spanish government, although it is probable that the report is not of a character likely to be made public at Madrid.
