THE WONDERFUL RECORD MADE BY THE CANADIAN PACIFIC RAILWAY DURING THE LAST TWENTY-FIVE YEARS.

Twenty-five years ago the first transcontinental train of the Canadian Pacific Railway pulled out from Montreal for the Pacific coast. It was a memorable occasion, marking the consummation of the greatest work that Canada had ever undertaken.

For a country with less than four million of people to build a railway across the North American continent—the first, and still the only actual transcontinental line connecting the two great oceans—was a remarkable achievement whose importance was accentuated by the fact that for many hundreds of miles its lines traversed regions of rugged and unknown country. It did not run around the rocky bound northern shores of Lake Superior, across the far western plains, then in utter solitude, and over nature's skyscrapers in the Canadian Rockies.

No less wonderful has been the growth and expansion of Canada's greatest highway during the intervening quarter of a century. The company did not merely remain a common carrier—it became a developer and an empire builder and so potent a factor in filling the wants of others as well as the vast army of travellers that both on land and sea the C. P. R. today is a name to conjure with. From comparatively small beginnings, as seen by 20th century eyes, it has developed into a world of its own, a magnificent kingdom, an immigrant agency that has peopled half a continent, even to furnishing the means of transport to homes in a remote corner of the empire.

A forceful factor in the development of mines and mining—an inaugurator of huge irrigation works and the reclamation of kingdoms. The company, too, besides having extensive car works at different points where thousands are employed in building the rolling stock, has its own telegraph and express services that reach everywhere, and a chain of palatial hotels to comfortably house those who travel, and it even maintains Swiss guides to pilot daring mountaineers to dizzy heights and runs sanitariums and summer resorts where the pleasure seeker may holiday and the health of the invalid be restored. Its record fully justifies the name happily bestowed upon it by an eminent European—"Providence Incorporated."

The figures will give some idea of the greatness of its growth: The total earnings in 1886 were a little over \$10,000,000, and the net earnings less than \$4,000,000, the surplus after deducting fixed charges being \$635,444. This year's gross earnings will probably be over \$104,000,000 and the net earnings over \$27,000,000. The mileage then was 4,631 miles; today it is, including controlled lines, about 15,500 miles. The number of passengers then carried was 1,893,319 and the tons of freight aggregated 2,046,195. The approximate figures for the past twelve months are over 12,000,000 passengers and 21,250,000 tons of freight. A comparison of the figures shows that a considerable reduction in the rates has taken place. In 1886 the average rate was 1.89 cents per mile and today it is 1.10 cents per mile. Freight rates have also been reduced. In 1886 the average rate was 1.89 cents per mile and today it is 1.10 cents per mile. Freight rates have also been reduced. In 1886 the average rate was 1.89 cents per mile and today it is 1.10 cents per mile.

Much praise is due the young people for their hearty co-operation and assistance in the entertainment. The young men who are employed here, did not murmur about spending two hours extra each evening in the drill room. It meant work, but when it came to a question of manliness, appreciation of the right, zeal and courage, they were not wanting.

ANOTHER INVESTIGATION

A. J. Sabath, Representative of Chicago, has introduced a resolution in which he urges Congress to add to the long list of investigations which are already under way another to ascertain how many American "dollar princesses" have been invited to take part in the coronation ceremony and why the rest have been discriminated against.
