

NEW IMPROVEMENTS FOR ROADS TO NIGHTON ALONG COAST

Marine and Fisheries Department Most Efficient in Matter—Bay of Fundy now More Safe for Mariners—May have Lightship below Partridge Island.

Many improvements have been made in the aids to navigation in the Bay of Fundy this year, and a good deal of important work is now in progress. Among the latest improvements which have been decided on by the Marine Department is that of installing a flash light on Brier Island on the Nova Scotia side. The work will be proceeded with at once.

On Gannet Rock, which has the most powerful light north of New York, the lighthouse department has made extensive improvements this year. Around the base of the lighthouse and fog alarm buildings a concrete wall has been built to protect the structures from the inroads of the sea, which has sometimes in heavy gales done considerable damage. The concrete wall which has been raised three feet above the level of the lighthouse platform. On the south end on the fog alarm building, the concrete wall has been built up from the rock as high as the roof. A high concrete wall has also been built on the northwest side of the fog alarm building. In former years in very heavy gales the seas have broken through the end of the building, but the department believes that the concrete wall will in future effectually prevent any further damage from the inroads of the sea. The concrete wall will last for centuries, whereas the piles of the wooden walls was usually only about ten years.

Up the Bay of Fundy, too, the lighthouse department has done a great deal of work this year to provide better aids to navigation. A new light-house has been established at Salmon River, and a bell buoy has been placed near the Sisters at the entrance to Black River. A contract has been let to William Carson for the erection of a lighthouse at Martins Head, which will provide a great help to coasters and other vessels plying the bay. At Cape Enrage reefs, always considered a dangerous part of the upper Bay of Fundy, the department has placed a bell buoy.

River Improvements.

Some improvements have been made in the lighthouse service of St. John River and Kennebecasis Bay, and others are in contemplation. Light-houses have been established at Shampers Wharf, near Belleisle, at Bayswater and McColligan's Point, and others are being planned.

The question of installing a number of small range lights up the river and in the various lakes and estuaries is now engaging the attention of the lighthouse department.

A great change has been made in the lighthouse and fog alarm and buoy service of the Bay of Fundy, particularly below St. John in recent years, and with the installation of a powerful flashlight on Brier Island, on the Nova Scotia side, the navigation to St. John deserves credit for its work in this connection, and shipping men would be glad to see the jurisdiction of the agency extended to the Nova Scotia side of the bay as far south as Cape Sable. Now the local department looks after the buoys on the Nova Scotia side of the bay as far as Blond Rock, but it has nothing to do with the lights on the Nova Scotia side. This is the cause of some complaints under the control of the Halifax agency.

Lightship Probable.

About the only additional aid to navigation which shipmasters and pilots want now is a lightship stationed five or six miles south of Partridge Island. It is said that the Marine Department has this matter under consideration and there is little doubt that as navigation is being increased a light vessel will be stationed off St. John in winter time, at least, to act as a mark for incoming ships. It is claimed that a larger light is desirable on the station of the Lurcher's Shoal, and that the light vessel there now may be eventually placed off St. John, and a bigger one built for the Lurcher Shoal station.

Owing to the fact that in winter there are very few days when supplies can be delivered to the Lurcher light station should be big enough to carry coal and supplies for four months, so as to guard against any possible contingency. If a light vessel is stationed off St. John it will have a fog alarm system, and in foggy weather make a great convenience to vessels making for the winter port.

Aids to Fishermen.

These lights and buoys will be a great convenience to the fishermen of Charlotte Co., who work in the district, and will greatly facilitate their operations. At the present there are a very large number of motor fishing boats as well as small coasters using these waters.

To further aid the fishermen the department is placing five spindles on islands in the Lettice and Partridge, where navigation is difficult or dangerous. Another important improvement has been made by placing a new Lord's Cove, on Deer Island, a large spindle to serve as a mark for the dangerous rock ledges at the entrance to the harbor.

YOU'RE BILIOUS AND COSTIVE!—CASCARETS

Sick headache or sour stomach means sluggish liver and bowels.

Get a 10-cent box now.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Head-ached bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a mill barrel. That's the first step to a miserable—indigestion, food gases, bad breath, yellow skin, mental fears, everything that is horrible and unhealthful. A Cascaret tonight will give you constipated bowels a thorough cleansing and straighten you out by morning.

Work while you sleep—10-cent box from your druggist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need a good, gentle cleansing, too.

FORM BIBLE SOCIETY NOW AT CORNEVILLE

A public meeting under the auspices of the Canadian Bible Society was held on Wednesday night at the Presbyterian church, Cornville, Rev. W. W. Malcolm occupying the chair. The speakers were Rev. A. F. Newcombe, agent of the Canadian Bible Society, Rev. W. M. Townsend, Mr. Linton, and James Bryant, president of the Fairville branch. After devotional exercises, Mr. Newcombe delivered the special address of the evening on the "Relations and Work of the Canadian Society." Rev. Mr. Townsend spoke on the responsibility of the individual, Mr. Bryant also spoke.

On motion it was decided to organize a local branch and the following officers were elected: President, Andrew Galbreath; vice-president, Rev. W. W. Malcolm; secretary, treasurer, Walter Wilson.

R. L. BORDEN CLUB SMOKER TONIGHT

The lecture on the Royal Life Saving Society promises to be full of interest. The following is an extract from their handbook:—

"Everybody knows that man is not a swimmer by nature, but he may become one by practice, and yet, with the most admirable intentions, the utmost courage, be unable to render an efficient service to a drowning man. He may be clutched by the person whom he desires to rescue, and the pair may drown together. There are hundreds of abortive efforts at rescue every year, and there are many instances of a large circle of friends on a double one through the absence of a little simple knowledge on the part of the bystander rescuer."

In addition to this there will be speeches, songs and refreshments. All members of the Borden Club, whether they have received a rescue invitation or not, are invited to be present.

SHOT A MOOSE.

Mr. B. Thompson, of Kingston, Kings county, is receiving the congratulations of a large circle of friends on his ability as a hunter. Mr. Thompson brought down with his rifle a specimen of a moose. The animal was shot near Kingston, and had an antler spread of between 50 and 60 inches, and weighed in the vicinity of 800 pounds.

POLICE ACTIVITIES.

A horse found wandering about the streets late last night by the police was placed in Short's stable for the night.

Policeman McNamee yesterday afternoon removed two prisoners from the county jail to the Municipal Home. A negro was arrested last evening on the charge of assault.

GOOD REPORTS RECEIVED BY THE BAPTISTS

Work During Past Year has been Successful along all Lines—Excellent Addresses Heard.

The first session of the eighth annual meeting of the United Baptist Association of New Brunswick, was held yesterday morning in Brunssets street Baptist church, at half past nine o'clock, being opened by a devotional service conducted by Rev. F. G. Francis, and a sermon by Rev. W. S. Hall. Following the religious portion of the session the first business of the meeting was taken up.

In the afternoon the association joined with the Women's Auxiliary in a meeting, and in the evening addressed by Rev. L. A. Therrien on "Grand Ligne Mission" and by Rev. J. L. Campbell, D. D., on "Equipment for Service."

The coroner adjourned the hearing until the afternoon the association was organized, committees on arrangements, letters and nominations appointed, after which the new members were introduced and welcomed by the moderator.

Rev. W. S. Hall delivered an interesting address on "The Knowledge of God."

Rev. Dr. Cousins, of Newcastle, moderator of the association, delivered an address on "The Nervous System of the Church."

Referring to the spirit of the present age, as a nervous one, he said that the people of today are giving themselves up entirely to the pursuit of pleasure and cultivating until pleasure has become with them a habit of life.

The speaker attributed the cause of the unrest of the age to the destruction of the family altar, and the cause of the trouble, as is done in cases of the body. The church can not take the place of the home, but should spend more time in the uplift of Christianity.

The nervous system of the church requires stimulation, which must come from the Holy Spirit.

The treasurer's report was then presented, showing a balance on hand of \$359.66. The expenditure for the year amounted to \$1,212.75, leaving a balance on hand of \$359.66.

The Twentieth Century Fund showed a balance on July 31, 1913, of \$1,913,767.34, making a total of \$358,444. The sum of \$5,272.19 has been invested for the benefit of the fund at 4 per cent. The sum of \$4,721.09 is held in trust by the association.

The meeting closed with devotional exercises conducted by Rev. J. H. Jenner.

Afternoon Session.

In the afternoon at 2 o'clock the second session of the convention commenced. This took the form of a joint meeting of the Association and the Women's Auxiliary. The programme for the meeting was in charge of the Women's Society. This meeting also marked the close of the Twentieth Century Fund.

At the meeting of the officers of the Women's Auxiliary, which was held for the year as follows: President, Mrs. W. G. Clarke, Fredericton; 1st vice-president, Mrs. F. H. Wentworth, St. John; 2nd vice-president, Mrs. J. Archibald, St. John; corresponding secretary, Miss Augusta Slipp; secretary, Miss Agnes Forth.

The superintendent of the New Brunswick Mission Bands, Mrs. W. E. McIntyre, submitted her annual report. The work of the bands for the past months has been marked by progress in every department of the work, and the results encouraging.

In the matter of the mission schools much had been accomplished, although the undertaking presented many difficulties. From the Grand Ligne school came word that the efforts there had been rewarded by success. In the different districts throughout the province the work has been very satisfactory and in some of the districts a noteworthy increase in membership has been effected.

Concluding the report, Mrs. McIntyre said: "While no startling innovations have been made as to methods of instruction we have endeavored to note an upward trend in our educational service and stimulating the members of the bands to the birth of Livingstone and the landing of Judson in Burma. Fifteen bands have been founded; six in the Penobscot, Oromocto Boundary Creek Dipper Harbor, Carpenter, Lewis Mountain, Lower Ridge, Petticoat, Lower Musquam, Jemseg, Blissville, Hillsboro, River Glade, Junior Brunssets St. Woodstock.

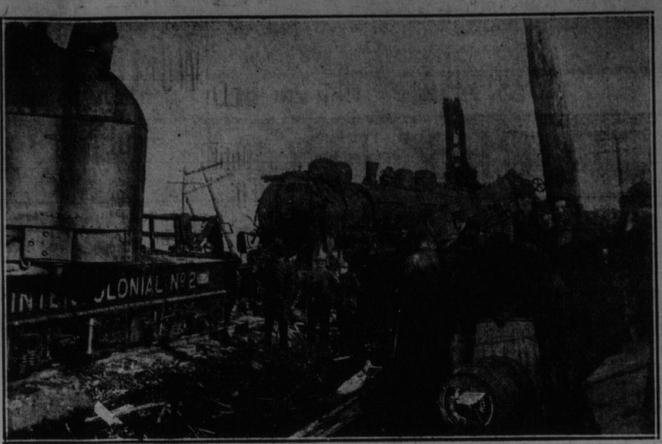

The total amount contributed by the bands thus far is \$2081.48, of which \$1460.77 is for foreign work and \$620.71 for home. Forty-three new members have been added this year. There are in all 105 bands with an aggregate membership of 3,290.

With the promises of God behind and the challenge of opportunity before the slogan of every leader for the coming year is: "Let us do it with might, with counsel, do it with thy might."

Respectfully submitted,
M. M. McINTYRE,
Supt. of N. B. Bands.

An interesting and instructive address was given during the afternoon by Mrs. Robinson, of Boston, whose subject was "His Star in the East." The address was given by Mrs. Johnson, Miss Craft and Miss Alice Henry. A Miss Craft service was conducted by Mrs. Cousins, with the benediction of the session was given by Rev. W. S. Hall.

SCENE AT THE AULAC WRECK

Clearing the Track after the Accident—By Standard Staff Photographer.

Continued From Page One.

After hearing the evidence of these three men the court adjourned until 7 o'clock this evening. At the hour named Conductor J. D. MacDonald, of Truro, in charge of the through freight 234 eastbound, gave an account of the wreck. His rear brakeman, Andrew Carlisle, corroborated the evidence of Mr. MacDonald. The coroner adjourned the hearing until the afternoon the association was organized, committees on arrangements, letters and nominations appointed, after which the new members were introduced and welcomed by the moderator.

Rev. W. S. Hall delivered an interesting address on "The Knowledge of God."

Rev. Dr. Cousins, of Newcastle, moderator of the association, delivered an address on "The Nervous System of the Church."

Referring to the spirit of the present age, as a nervous one, he said that the people of today are giving themselves up entirely to the pursuit of pleasure and cultivating until pleasure has become with them a habit of life.

assisting the passengers from one train to another. This work of transferring causes all trains to be delayed, although pushed forward as speedily as possible.

There were two wrecking trains at work yesterday, one from Truro and one from Moncton, and it was while one of these crews were at work that their train went off the track, causing a further delay in getting the line cleared.

The sight cannot be fully described, but one can imagine two heavy freight trains running at a rate of between fifteen and twenty miles an hour crashing into each other head on, then to add to the horror, one of the locomotive boilers exploding, pinning the victims, who had been killed, and the wreckage, the escaping steam and boiling water scalded the flesh on the bodies of the men. Then the fire started among the wreckage and the bodies were badly burned.

It is little wonder, said the gentleman, that the engineers and firemen were killed and had it been two passenger trains instead of freight trains the death list would have undoubtedly been very large.

Wrecking crews were working hard to clear the track, and it will be some time before the last traces of the collision are removed. The chief part of the work yesterday was in attempting to get the line cleared so that trains could pass, and a large gang of men were working tirelessly and the regular trains and

ENORMOUS DIVIDENDS OF BLACK FOXES

Special to The Standard.

Charlottetown, P. E. I., Sept. 24.—The following dividends so far have been declared by fox ranching companies.

Company	Capital	P.C.
Bunbury	\$100,000	320
Spring Park	90,000	145
Wentworth	50,000	390
Prospect	40,000	369
Dalton	150,000	40
Murray Harbor	625,000	40
Magie	50,000	172
Eureka	30,000	175
Riverside	100,000	225
Maritime	40,000	240
Royalty	90,000	240
Magnet	25,000	240
O'Leary	40,000	20
Rosemont	10,000	100

EVELYN NESBITT THAW CAN ENTER CANADA

Special to The Standard.

Ottawa, Sept. 24.—The Immigration Department will not interfere with the entry of Evelyn Nesbitt Thaw into Canada.

R. Barry Smith, at Port Elgin, on July 10, 1912; Rev. John A. Robertson, died at Public Landing; Dr. Joseph McDonald, died June 24th at The Narrows; Rev. E. C. Corey, died May 25th at Vancouver, B. C.; Rev. R. J. Plint, pastor of the church at Chipman, died in Falmouth, England, on July 26th; He had gone from Chipman six weeks previously to attend the World's Sunday School Convention in Zurich, Switzerland; Rev. W. B. Boggs, D. D., spent the greater part of his life as a missionary in India; D. McLeod Vince, died at Woodstock, N. B. For more than thirty years he was secretary of the New Brunswick Home Mission Board, and from its organization was secretary of the United Baptist Association of New Brunswick; George U. Hay, Ph. D., a prominent member of Gormin street Baptist church.

In the evening the third session of the convention was held when Rev. J. L. Campbell and Rev. L. A. Therrien were the speakers.

TO ADVOCATE IMPROVEMENTS FOR WORKMEN

Trades and Labor Congress at Montreal Transacts Much Business—Delegates Guests on Pleasant Outing.

Special to The Standard.

Parrsboro, N. S., Sept. 24.—The second annual fair under the auspices of the Parrsboro Agricultural Society was opened here today under very favorable conditions. The weather was perfect, the rain had laid the dust and the attendance was large. The parade of school children, firemen, automobiles and Polymorphism Club, was the largest and best ever seen here.

Short addresses were made by J. F. Outhill, clerk of the legislative council; J. L. Ratston, M.L.A.; E. N. Rhodes, M.P. and Mayor Spicer.

The show of horses, particularly draught animals, is excellent, and there is a fine exhibit of beef and dairy cattle. The show of sheep and swine is good, but the exhibits are fewer than was expected. Splendid poultry is shown and the display of grain, vegetables and domestic manufactures could scarcely be surpassed.

Altogether the show compares very favorably with the provincial exhibition at Halifax. Tomorrow there will be a special train from Sprinkhill and a good programme of sports in which teams from Amherst and Sackville will take part and for which handsome prizes are offered.

Resolutions asking that bar-tenders be relieved of responsibility for infractions of the liquor laws be placed back under the Civil Service Act, at not less than \$100 a month, with better clothes and free pensions were also adopted, as was also one recommending federal control of sanitation, and the enactment and enforcement of more rigid sanitary regulations.

The afternoon was spent on the water, and in the evening the visitors were left to rest or partake of the hospitality of the local unions. In Auditorium Hall a banquet was given by the Brotherhood of Carpenters, and the local typographical union held a smoker in honor of their guests at their hall.

QUESTION OF PAY INCREASE

Understood Shipping Federation will apply to Government for Commission—Union not Notified.

According to information received by local shipping agents the Shipping Federation held a meeting Monday yesterday to consider the demands of the Longshoremen's Union of St. John for an increase in wages, and decided to make application to the Dominion government for the appointment of a board of arbitration under the Dominion Industrial Disputes Act. Officials of the Longshoremen's Union had not received definite notice of the decision of the federation last evening and had nothing to say about it. When an official communication is received from the federation a full meeting of the union will be held to consider the situation, as the members are anxious to have the question of dispute settled as soon as possible.

The Industrial Dispute Act makes it compulsory for one party to submit to arbitration when the other makes application for a board of arbitration in the case of disputes affecting the transportation interests, and it is understood to be applicable to the situation in St. John. The act, however, does not provide any very efficient means of obliging either party to abide by the award of the board.

Parlee-Wetmore.

An interesting event took place at three o'clock yesterday afternoon when W. Stirling Parlee was married to Miss Annie F. Wetmore. The ceremony took place at the home of the bride's mother, Mrs. Clara Wetmore, 22 Haymarket Square, the officiating clergyman being Ven. Archdeacon W. O. Raymond. The couple were attended by the bridesmaid being Miss Marjory Flewelling and the groomsmen H. A. Wetmore, brother of the bride. The popularity of the young couple was attested by the large number of guests some wedding presents received. Mr. and Mrs. Parlee left for a honeymoon trip to Prince Edward Island. They will make their home at Parleville, King's County.

DEVOURED BY SHARKS.

New York, Sept. 24.—A London cable says: A tragic scene was witnessed by the passengers of the Campania, which arrived at Queenston yesterday. On the third day of the third class passenger, John Pa... belonging to County Mayo, jumped overboard from the top deck, the passengers were on deck at the time. The body of the man was raised. The Campania's engine was at once stopped and a rowed quickly to aid in the recovery. The man was recovered and horrified to see a number of sharks in the vicinity, and the fear is estimated that the unfortunate man devoured, for by the time he had arrived at the spot where he struck the water there was no chance of his being rescued. The Campania proceeded after her company.

MOUNT TEMPLE ASHORE.

Montreal, Sept. 24.—The C.P.R. Mount Temple, commanded by Captain J. H. Moore, and one of the best known vessels on the Canadian trade, ran aground on the morning of the 23rd inst. at 10 o'clock. Reports state that she had struck the water there was no chance of her being rescued. The vessel left her wharf at this morning to begin her voyage to London. She proceeded through fog as far as the new dry dock, and as supposed she got out of her own way. As a result she went ashore, was heavily laden with grain, London, and general cargo for every direction. The vessel was in and is classed A1 at Lloyd's. There were only five passengers on board on their third class. The Mount Temple had her own steam up, made repeated attempts to get out, but she was still fast.

STEAMER AND SCHR. COLL.

Mobile, Ala. Sept. 22.—Sch. E. B. Walter, from Mobile for Plantation with lumber while being towed to the channel was in collision with steamer Santaros, Reardon, from Galveston. The schooner had her stern carried away and sank in 15 feet water. The steamer later, while proceeding up, ran out channel at least 16 and is hard and fast ashore. Efforts to float her in the morning on tide.

RECENT CHARTERS.

Sch. Empress, Sherbrooke, NS, New York, lumber, \$4.

Sch. Mincola, NS port to Trinidad, sugar, p. 1.

Sch. Ravola, Annapolis to St. John, bricks for Sugar Refinery, p. 1.

INTO WINTER QUARTERS.

Portland Argus: The steamer B. B. Fuller will sail off the 10-ton-Portland run in a few days and proceed to Bath, where she will enter winter quarters. The steamer Dingley will divide her place, while steamer Calvin Austin, which was running direct between Bath and St. John, N.B., during the summer will go on the three-trip per week schedule between the two ports touching at Portland each way. Further change will be made in sailing schedule of the steamers of the International division for several weeks.

MANCHESTER LINE ACCOUNT.

The accounts of the Manchester Line for the financial year ending 30th Sept. have been published, and show the most profitable year's trading in the history of the line to date. The profit for the year amounts to £278, an increase of £70,434. The line has transferred £10,000 to insurance fund, writing off the balance of debenture expenses, and making a dividend of 10 per cent. The directors are able to recommend a dividend of 7-1/2 per cent. The ordinary share which will be £10,433 to be carried forward.
