BLOODLESS WOMEN

It is an unfortunate fact that nine women out of ten are victims of bloodlessness in one form or another. The girl in her teens, the wife and mother, the matron of middle age, all know its miseries. To be anemic means that you are breathless after any slight exertion, you feel depressed and worn out all day. You turn against food and cannot digest what little you do eat. At night you do not sleep well and in the morning you wake up tired and feeling unfit for the day's duties. Perhaps there are splitting headaches, or pains in the back or side. Often a feeling of dizziness and despondency. These are the signs of anemic, or bloodless. There may be only one or two of these signs noticeable, but the more there are the greater are the ravages of the trouble. There is only one way to cure anemia, and that is by increasing and enriching the blood supply, and there is only one medicine can do this speedily and effectively—Dr. Williams' Pink Pills. These pills purify the blood. It is in this way that thousands and thousands of weak, ailing girls and women have been restored to the joy of energy and good health through their use. Give these pills a fair trial and you will enjoy that health and strength that is the birthright of every woman.

You can get Dr. Williams' Pink Pills from any dealer in medicines, or by mail at 50 cents a box or six boxes for \$2.50 from Dr. Williams' Medical Co., Brockville, Ont.

A MOTHER'S TROUBLES

A mother's unending work and devotion drains and strains her physical strength and leaves its mark in dimmed eyes and careworn expressions—she ages before her time. Any mother who is weary and languid should start taking Scott's Emulsion of cod liver oil as a strengthening food and bracing tonic to add richness to her blood and build up her nerves before it is too late. Start Scott's Emulsion today—it is a world-wide, Scott & Bower, Toronto, Ont.
